The Tangled Web Michal Zalewski,2011-11-15 Modern web applications are built on a tangle of technologies that have been developed over time and then haphazardly pieced together. Every piece of the web application stack, from HTTP requests to browser-side scripts, comes with important yet subtle security consequences. To keep users safe, it is essential for developers to confidently navigate this landscape. In The Tangled Web, Michal Zalewski, one of the world's top browser security experts, offers a compelling narrative that explains exactly how browsers work and why they're fundamentally insecure. Rather than dispense simplistic advice on vulnerabilities, Zalewski examines the entire browser security model, revealing weak points and providing crucial information for shoring up web application security. You'll learn how to: —Perform common but surprisingly complex tasks such as URL parsing and HTML sanitization —Use modern security features like Strict Transport Security, Content Security Policy, and Cross-Origin Resource Sharing —Leverage many variants of the same-origin policy to safely compartmentalize complex web applications and protect user credentials in case of XSS bugs —Build mashups and embed gadgets without getting stung by the tricky frame navigation policy —Embed or host user-supplied content without running into the trap of content sniffing For quick reference, Security Engineering Cheat Sheets at the end of each chapter offer ready solutions to problems you're most likely to encounter. With coverage extending as far as planned HTML5 features, The Tangled Web will help you create secure web applications that stand the test of time.

Take Control of Your Browser Robyn Weisman,2019 Updated November 21, 2019 For most of us, the one app we couldn't possibly live without is a web browser. You can do almost anything in a browser these days...but are you browsing with one hand tied behind your back? It's easy to get into inefficient browsing habits, but you might be surprised at what a little know-how about this everyday tool can do for your efficiency and happiness. Take Control of Your Browser , by veteran tech writer Robyn Weisman, helps you discover your browser's hidden talents, increase browsing speed, solve many common problems, and configure settings and extensions for maximum efficiency. If you're troubled by ads, frustrated by ineffective searches, or confused by inscrutable error messages, this book will help you overcome your problems. Beginners will find lots of practical how-to advice, and even power users will learn tips and tricks for better browsing. This book answers many common questions, including the following: • What are the similarities and differences among browsers-and how can I choose the right browser (or more than one!) for my needs? • What makes Chrome, Firefox, and Safari the big three browsers and why should I care? • Is Internet Explorer still a good choice for Windows users? (Spoiler: no!) What about Microsoft Edge? • When should I consider less-popular browsers such as Brave, Opera, Tor, and Vivaldi? • What are my options if I accidentally close a tab or window (or lots of them) in my browser? • How do I address the common problem of tab overload? • What are the quickest ways to navigate through browser tabs and windows? • Are bookmarks even a thing anymore? Should I use them always, never, or only on occasion? • Which search engine should I use, and how can I find exactly what I'm looking for in a web search? • How can I protect my privacy and security while browsing the web? • How do web cookies work, and what can I do to block the ones I don't want? • Is there some way to stop the endless curse of autoplaying video? • Are private browsing modes truly private? • How can I safely make purchases in my browser? • My browser is doing something annoying (autoplaying videos, showing tons of ads, pestering me with notifications, etc.). How can I fix it? • What can I do if a page just won't load properly? • Are there any tricks I can use to make my web browsing quicker and more efficient? (Yes!) • Should I be using extensions to add features to my browser? If so, which ones? • How can I sync my boo...
