Everything you need to know is right here at your fingertips. Unlike a lot of other overwhelming environmental guides on the market, this is green decision making in bite sized pieces. With chose it/lose it comparisons throughout, now it's simple to figure out it's worth switching to a green detergent, what kind of plastic your sports bottle is made of, or which fish is safest to eat. Rather than spending time trying to figure out how best to conserve, recycle, and protect the environment, use this book and devote that time to making the difference.

Rejuvenating Korea: Policies for a Changing Society OECD,2019-10-28 Korean families are changing fast. While birth rates remain low, Koreans are marrying and starting a family later than ever before, if at all. Couple-with-children households, the dominant household type in Korea until recently, will soon make up fewer than one quarter of all households. These changes will have a profound effect on Korea's future. Among other things, the Korean labour force is set to decline by about 2.5 million workers by 2040, with potential major implications for economic performance and the sustainability of public finances.

Criminal Investigations of Sexual Offenses Nadine Deslauriers-Varin,Craig Bennell,2021-11-22 It is startling to read how few sexual offenses are reported in a year; even more shocking to see how few reports lead to an arrest. Research on effective responses to sexual offenses is much needed and ongoing. This edited book presents the current state of research on investigative techniques used in sex crime investigations, and the operational challenges and issues that arise in these investigations. Including an international cohort of scholars from various academic backgrounds, it reviews current efforts in key areas, synthesizing the research to make recommendations for the improvement of investigative practices and the criminal justice system's response to sexual offenses. Each chapter includes a brief introduction to the topic, a review of the research, and a discussion of the key points relevant to investigators and researchers as they move forward. The book is broken down into four themes: suspect prioritization and identification techniques, investigative interviewing, operational challenges and issues, and the investigation of specific types of sex crimes. With its broad coverage and international scope, this volume fills the gap in knowledge for investigators working on sex crimes cases. With its easy-to-read style and

clear analysis of the research, this is the perfect volume for investigators and law enforcement officers, policy makers and researchers, and students in criminology and criminal justice, forensic psychology, and victim services.

The Wonder Weeks Frans X. Plooij, Hetty van de Rijt, Xaviera Plas, 2017-09-05 This is not a book about how to make your child into a genius, however. We firmly believe that every child is unique and intelligent in his own way. It is a book on how to understand and cope with your baby when he is difficult and how to enjoy him most as he grows. It is about the joys and sorrows of growing with your baby.--Publisher's website.

Standing on the Edge of Your Tomorrow Take Charge and Win! Robert Lee, 2010-05-01 The Buzzing Bee Once, we left the patio door open, a bee flew in. It hit the window repeatedly trying to get out. We could hear it buzzing from the top to the bottom of the window. It saw the beauty outside and worked very hard trying to get out, but we knew that its effort was futile! If it were a fly, we would have used the swatter and ended its misery. However, since it is a beneficial insect, we opened the door and chased it out. All of a sudden, four important lessons came to mind: 1. Hard work alone may not be able to solve our problem. 2. Often the solutions come from doing it another way-thinking outside the box. 3. Sometimes the Almighty sees us in our predicament and shows us a way out. 4. I believe that it is our mission in life also to show some struggling people the lessons we learned and the opportunities we saw and show them a way out. Two roads diverge in the woods, and I took the one less traveled, and that has made all the difference.-Robert Frost, 1920 Give the world the best you have, and it may never be enough; Give the world the best you've got anyway.-Mother Teresa (1910-1997) Any fool can count the seeds in an apple, Only God can count the apples from one seed!-Dr. Robert H. Schuller
