Voices of Vietnam Lonán Ó Briain, 2021 On September 2, 1945, Ho Chi Minh read the Declaration of Independence via a makeshift wired loudspeaker system to thousands of listeners in Hanoi. Five days later, Ho's Viet Minh forces set up a clandestine radio station using equipment brought to Southeast Asia by colonial traders. The revolutionaries garnered support for their coalition on air by interspersing political narratives with red music (nhạc đỏ). Voice of Vietnam Radio (VOV) grew from these communist and colonial foundations to become contemporary Vietnam's largest producer of music. In the first comprehensive English-language study on the history of radio music in mainland Southeast Asia, Lonán Ó Briain examines the broadcast voices that reconfigured Vietnam's cultural, social, and political landscape over a century. Ó Briain draws on a year of ethnographic fieldwork at the VOV studios (2016-17), interviews with radio employees and listeners, historical recordings and broadcasts, and archival research in Vietnam, France, and the United States. From the Indochinese radio clubs of the 1920s to the 75th anniversary celebrations of the VOV in 2020, *Voices of Vietnam* offers a fresh perspective on this turbulent period by demonstrating how music production and sound reproduction are integral to the unyielding process of state formation--

Guerrilla Diplomacy Robert K. Brigham, 2019-06-07

In 1960 revolutionaries in South Viet Nam created the National Liberation Front, a political and military organization committed to overthrowing the Saigon government and liberating Viet Nam south of the seventeenth parallel. The role of the NLF during the war has been hotly debated, with officials in Washington claiming from the outset that the NLF was merely a puppet of Hanoi. Based on over a hundred interviews with former Communist cadre and high ranking Party officials as well as extensive archival research in Viet Nam, Robert K. Brigham's is a definitive work that provides a focus on the NLF not found elsewhere. It contributes greatly to our understanding of the Viet Nam War and encourages a reassessment of that conflict. Brigham assesses the impact of the NLF's diplomatic strategy on the conduct and outcome of hostilities, explores the origin and pursuit of its policy objectives, and defines its true relationship with North Viet Nam. He contends that the NLF's success in convincing the world that it was independent of Hanoi was critical in upsetting the political and military balance in South Viet Nam and frustrating the U.S. war effort. In addition, he argues that differences in goals among Communists—building socialism in the north, liberating the south—resulted in disagreements over responses to American intervention, and he shows how these differences entered into foreign relations and seriously undermined revolutionary efforts.

*Revolution, Socialism, and Nationalism in Viet Nam: Winning the war and losing the peace* Ken Post, 1989 This final volume completes the history and analysis of the Vietnamese Revolution by bringing it up to final Communist victory in 1975. Although it deals with the relevant developments in the North, it basically concentrates on the struggle in the South following the massive US intervention in 1965. Unlike other analyses, it focuses primarily on the Vietnamese protagonists, the Communists and the Republic of Viet Nam, examining above all the questions of why the former were able to win and whether the latter could ever have been a viable regime.

**20th Century Battlefields** Dan Snow, Peter Snow, 2012-05-31 In this riveting book, political journalist Peter Snow and military historian Dan Snow bring to life the most intense and bitterly fought battles of the 20th century - from the apocalyptic terrain of the Western Front to the desert landscape of Iraq. Punctuated by powerful eyewitness testimony, their compelling and often shocking narrative highlights the strategy of military commanders as well as the experience of men on the frontline. *20th Century Battlefields* looks back at the most violent century in history and examines the challenges facing armed forces in the future.

**Radio Cultures** Michael C. Keith, 2008 *Radio Cultures* examines the manifold ways in which radio has influenced the nation's social and cultural environment since its inception nearly a century ago. Written by leading scholars in the field, chapters address a wide range of topics, including

how this powerful medium has impacted and affected non-mainstream segments of the population throughout its history and how these repressed and neglected groups have employed radio to counter and overcome discrimination and bias. The use of the audio medium for political, economic, and religious purposes is comprehensively probed and analyzed in this insightful and innovative volume.--Back cover.

*China and the First Vietnam War, 1947-54* Laura M. Calkins, 2013-04-12 This book charts the development of the First Vietnam War – the war between the Vietnamese Communists (the Viet Minh) and the French colonial power – considering especially how relations between the Viet Minh and the Chinese Communists had a profound impact on the course of the war. It shows how the Chinese provided finance, training and weapons to the Viet Minh, but how differences about strategy emerged, particularly when China became involved in the Korean War and the subsequent peace negotiations, when the need to placate the United States and to prevent US military involvement in Southeast Asia became a key concern for the Chinese. The book shows how the Viet Minh strategy of all-out war in the north and limited guerrilla warfare in the south developed from this situation, and how the war then unfolded.

The 1945 Burma Campaign and the Transformation of the British Indian Army Raymond A. Callahan , Daniel Marston, 2021-01-28 In 1945, the Indian

British XIV Army inflicted on the Imperial Japanese Army in Burma the worst defeat in its history. That campaign, the most brilliant and original operational maneuver conducted by any British general in the twentieth century, largely forgotten until now, is a full and fresh account utilizing a full range of materials, from personal accounts to archival holdings—including the bits the official historians left out, such as the attempt by a jealous British Guards officer to have Slim sacked at the conclusion of the campaign. After the retreat from Burma in 1942, Lieutenant General Sir William Slim, commander of the British XIV Army, played a crucial role in the remarkable military renaissance that transformed the Indian Army and then, with that reborn army, won two defensive battles in 1944, and in the 1945 campaign shredded his Japanese opponents. Behind this dramatic story was another: the war marked the effective end of the Raj. This great transformation was, of course, brought about by many factors but not the least of them was the “Indianization” of the Indian Army’s officer corps under the pressure of war. As Slim’s great victory signposted the change from the army Kipling knew to a modern army with a growing number of Indian officers, the praetorian guard of the Raj evaporated. “Every Indian officer worth his salt is a nationalist,” the Indian Army’s commander-in-chief, Claude Auchinleck, said as the XIV Army took Rangoon. The Burma campaign may not have contributed in a major fashion to the final defeat of Japan, but it was of first-rate importance in the transformation of South Asia, as well as

underlining the continuing importance of inspired leadership in complex human endeavors.

*Saigon at War* Heather Marie Stur, 2020-06-11

During South Vietnam's brief life as a nation, it exhibited glimmers of democracy through citizen activism and a dynamic press. South Vietnamese activists, intellectuals, students, and professionals had multiple visions for Vietnam's future as an independent nation. Some were anticommunists, while others supported the National Liberation Front and Hanoi. In the midst of war, South Vietnam represented the hope and chaos of decolonization and nation building during the Cold War. U.S. Embassy officers, State Department observers, and military advisers sought to cultivate a base of support for the Saigon government among local intellectuals and youth, but government arrests and imprisonment of political dissidents, along with continued war,

made it difficult for some South Vietnamese activists to trust the Saigon regime. Meanwhile, South Vietnamese diplomats, including anticommunist students and young people who defected from North Vietnam, travelled throughout the world in efforts to drum up international support for South Vietnam. Drawing largely on Vietnamese language sources, Heather Stur demonstrates that the conflict in Vietnam was really three wars: the political war in Saigon, the military war, and the war for international public opinion.

Britain and the Wars in Vietnam Gerald

Prenderghast, 2015-08-20 Britain's peacekeeping role in Southeast Asia after World War II was clear enough but the purpose of the Commonwealth in the region later became shadowy. British involvement in the wars fought in Vietnam between 1946 and 1975 has been the subject of a number of books--most of which focus on the sometimes clandestine activities of politicians--and unsubstantiated claims about British support for the United States' war effort have gained acceptance. Drawing on previously undiscovered information from Britain's National Archives, this book discusses the conduct of the wars in Vietnam and the political ramifications of UK involvement, and describes Britain's actual role in these conflicts: supplying troops, weapons and intelligence to the French and U.S. governments while the latter were in combat with Ho Chi Minh's North Vietnamese.
