A Sailing Cruiser's Guide to Making Money Kimberly

Brown,2021-04-19 Did you know that many sailing couples and sailing families are enjoying the benefits of the sailing lifestyle while making a fantastic income? Most people assume that the boating life is only for the rich or retired. So not true! I've met loads of people that tell me they'll have fun when they retire or live the sailing dream once the kids are gone. And many unfortunately believe that you have to go to school, get a good job, have kids, be a pillar of the community, grow old, retire, and then you can relax and reap the rewards of all your hard work. Of course it's important to be responsible, take care of yourself and your family but why not do that AND enjoy one of the most amazing lifestyles out there? Would it surprise you to discover that there are thousands of people and families out living the dream and you could live it too? My name is Kimberly and I am working sailing cruiser who has been successfully making a six-figure income while sailing around the world on my beautiful 56 yacht with my lovely husband and beautiful daughter. I'm no one special. I wasn't born wealthy, nor did I win the lottery. My husband was a prison officer and later a stay-at-home dad. I ran a foreign currency business in London. Both of us decided that life wasn't working for us, so we sold everything we had, purchased a sailboat, and sailed off into the sunset. We had a bit of money to live off of for a while, but the plan was to make an income. Over the years, I didn't feel as if I was making much progress, nor did I know exactly where we were heading. I just kept working away at a variety of things. Today we have multiple streams of income-some passive, requiring very little effort, and some active, requiring our full attention. We make money while we sleep, and we make money when we have guests join us

on our boat. The glorious thing is that we also make money while we have guests and sleep! Only now can I look back and provide you with what worked so that you can get a jumpstart to living your sailing life while making money to truly enjoy it. I've created this book to help you realize that it's possible to live your dream, and I'd like to share with you how we've made it work for us and how others have done the same. You most likely won't want to follow in our exact steps, although we'd be happy to help you do so. What's important is to understand the strategies available, the overarching principles and action steps that we applied. My hope is that you can make things work quicker and easier than it has been for us. The approach that we've taken has allowed us to create a variety of income streams so that when one goes down, like when a world-wide pandemic destroys one income stream, other sources of income will support us through the tough times. This book will provide you with an arsenal of many options. I hope you'll get excited by the sheer number of opportunities there are to go out and live the life of your dreams! Start reading the book now!

Boating for Less Steve Henkel, 1991-10

How to Sail on a Budget Alastair Buchan, 2011-04-26 Looks at the different areas of expenditure and examines the range of options available to keep the costs of boating under control.

Sail Away Nicola Rodriguez, 2019-01-08 You long to escape the daily grind, buy a boat and sail away. This book will inspire your dreams and show you how to turn them into a reality – be it an extended cruise or years away. Written by a yachting journalist who has sailed away for 8 years, together with the contributions of 100 other blue-water cruisers, there are tales a plenty of what it is like to do it from around the world – west, east, north and south. There is

also practical advice on everything from choosing a boat to crossing oceans. You'll be guided through each step of the preparation before casting off on your adventure of a lifetime. There's information on everything the would-be blue-water sailor needs to consider, including safety, communications, children, ocean passages and budgeting. Learn about routes and destinations around Europe, the Caribbean, the Pacific and beyond to help you cruise the Mediterranean or Baltic, cross the Atlantic or circumnavigate the world. Colour photographs and charts will inspire and inform in this essential guide for the 21st century blue-water sailor. Fully updated for 2019 with new sections on visiting the Baltic and high and low latitudes. Contributors include John Ridgway, Jeanne Socrates, Tom Cunliffe, Ellen Massey Leonard, Behan Gifford, Nigel Wollen, Andrew Wilkes, Jane Russell and Jeremy Wyatt.

Sail Power Wallace Ross, Carl Chapman, 1975

Russian Warships in the Age of Sail 1696-1860 Eduard Sozaev, John Tredrea, 2010-06-23 Peter the Great created a navy from nothing, but it challenged and soon surpassed Sweden as the Baltic naval power, while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe. In battle it was surprisingly successful, and at times in the eighteenth century was the third largest navy in the world - yet its history, and especially its ships, are virtually unrecorded in the West.??This major new reference work handsomely fills this gap, with a complete and comprehensive list of the fleet, with technical detail and career highlights for every ship, down to small craft. However, because the subject is so little recorded in English, the book also provides substantial background material on the organisation and administration of the navy, its weapons, personnel and shipbuilding facilities, as well

as an outline of Russia's naval campaigns down to the clash with Britain and France known as the Crimean War. Illustrated with plans, paintings and prints rarely seen outside Russia, it is authoritative, reliable and comprehensive, the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast. EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit. JOHN TREDREA, his translator, editor and long-term collaborator, is an American ship enthusiast with a life-long interest in the Russian navy.

You Wouldn't Want to Sail With Christopher Columbus! Fiona Macdonald, 2021-02-01 You are Christopher Columbus, the explorer who accidentally discovered America. Follow Columbus' struggles to finance his journeys, his sometimes infamous behaviour and his final lonely days. This title in the best-selling children's history series, *You Wouldn't Want To...*, features full-colour illustrations which combine humour and accurate technical detail and a narrative approach placing readers at the centre of the history, encouraging them to become emotionally-involved with the characters and aiding their understanding of what life would have been like sailing with

Christopher Columbus. Informative captions, a complete glossary and an index make this title an ideal introduction to the conventions of information books for young readers. It is an ideal text for Key Stage 2 shared and guided reading and helps achieve the goals of the Scottish Standard Curriculum 5-14.

Maximum Sail Power Brian Hancock, 2003-10-15 The art, science, history, and mystery of sails and sailmaking. Written in concise, layperson's language and full of photographs and personal anecdotes, this book goes step-by-step through the process of creating and using sails. Provided is a definitive look at the latest developments in sails, sailcloth, engineering, hardware, and sail trim. Also offered are case studies that illustrate which fibers, fabrics, and sails are suitable for a variety of different sailing applications, from simple dinghies and day sailors to offshore racing and cruising yachts. Sailors of all levels of interest and ability will find information they can apply to their own boats and sail choices.

British Warships in the Age of Sail 1714-1792 Rif Winfield, 2007-12-12 The new Hanoverian dynasty that came to power with the accession of George I in 1714 inherited the largest navy in the world. In the course of the century, this force would see a vast amount of action against nearly every major navy, reaching a pinnacle of success in the Seven Years War only to taste defeat in the American Revolutionary struggle, when it faced the combined navies of France, Spain, the Netherlands, and the rebellious colonies themselves. Considering the contribution to history of these ships, there is surprisingly little readily available on their careers. Now this gap is comprehensively filled by this superb reference book, outlining the service history of every ship, built, purchased or captured, that fought for the Royal Navy in the great wars of the eighteenth

century - well over 2000 vessels. The book is organized by Rate, classification and class, with outline technical and building data, but followed by a concise summary of the careers of each ship in every class. This includes commissioning dates, refit periods, changes of captain, the stations where they served (and when), as well as details of any noteworthy actions in which they took part. It will enable anyone to follow up a casual reference to any warship, and will provide the researcher with a solid core of information on which to base further study. With nothing remotely like it in print, this is a work of the utmost importance to every naval historian and general reader interested in the navy of the sailing era.

The Market for Seamen in the Age of Sail Lewis R.

Fischer, 2017-10-18 This volume collects eight essays that all attempt to answer two key concerns: did markets for seafarers exist in the age of sail; and, if so, were these markets efficient? The question was initially approached by Charles Kindleberger, who claims a market is efficient if it permits free access for employer and employee, is supply and demand match balance so that wages increase, and that labour must command the same price across the market. The first four focus on the broadly defined early-modern period, and all agree on the existence of the markets but are divided over whether or not they are efficient. The second section asks the same questions of the nineteenth century, and receives similar answers. All of the essays take issue with the definition and application of the term 'efficiency' when approaching their conclusions. Each author is considered an expert within their field, and all base their research on the North Atlantic. Section 1: These essays focus on the early-modern period of maritime history. Carla Rahn Phillips considers the market for maritime labour in early-modern Spain, finding that despite the necessity of sailors and

existence of the market, wages remained low and skilled maritime labourers did not have bargaining power, rendering the system inefficient. Vince Walsh examines Salem, Massachusetts, and finds that the market within Salem was efficient yet would only recruit within Salem and suffered as a result. Paul van Royen focusses on seventeenth and eighteenth century Netherlands, and finds the organisations functioned well but enable huge discrepancies in wages. David Starkey chose eighteenth century England, noting a fluctuation between efficiency and inefficiency across markets. All authors find their work linked by the prevalence of these markets and their own difficulties in determining 'efficiency' within these economies. Section 2: These essays focus on the maritime history of the nineteenth century. David Williams discusses the emergence on the advance note and the tremendous influence it had on market behaviour, indicating inefficient markets. Yrjo Kaukiainen considers Finland's history of interconnected local maritime labour markets, but also struggles to quantify their 'efficiency' after also taking issue with the ambiguous phrase. Lewis R. Fischer addresses the imbalance of wages in Norwegian maritime markets and finds that despite the integration from local to regional markets, the system remained inefficient. Finally, Morten Hahn-Pedersen and Poul Holm consider the fishing and shipping markets in Denmark and believe the wage inconsistencies reflect an inefficient system.

Cruise Power Scott H. Lewis,2011-06 WHAT REVIEWERS' SAY: Excellent book ... full of very sensible and valuable information.

Definitely a must-have how-to for any cruiser. - CruiseFish.net. If you have ever thought about going on a cruise, this quick read will help you save money, have a more enjoyable cruise and learn invaluable insights into cruising. - J. Michael Willard (author of *The Optimistic Alien*) FROM THE PUBLISHER: You owe it to your family: Don't book another cruise until you've read this book! Every year, hundreds of thousands of people take cruise vacations. The cruise industry is riding a wave of popularity, and with more fabulous new ships being built each year, the exotic destinations, the great value and the superb service and pampering guests receive, it's no surprise why cruising is such a popular vacation option. Even so, most cruise passengers pay too much for their vacation. They could be stepping aboard with hundreds of dollars of extra cash in their wallets. In his groundbreaking new book, Scott Lewis details - step-by-step - how a couple of toll-free calls can save from \$50 to \$500 or more on every cruise you take. Top Ten Things You Will Learn From This Book: - How to find the ship and itinerary for your cruise vacation; - How to select the cabin that suits your style and budget; - How to get the absolutely lowest price for your cruise; - How to get the most from travel agents; - How to start your cruise with free cash in your onboard charge account; - How to get the most from frequent cruiser programs; - How to save money on a future cruise while you're on your current cruise; - How to get fun freebies like bridge and backstage tours; - How another couple traveling with you can enjoy the same 'frequent cruiser' perks that you receive; and - How to avoid travel-related stress.

British Warships in the Age of Sail 1817-1863 Rif

Winfield, 2014-04-30 The publication of this book sees the completion of a monumental work listing the technical details and career histories

of every significant British warship between 1603 and 1863.

Following three earlier volumes, this one carries forward the story from the post-Napoleonic War reorganisation of the Royal Navy's rating system to the end of sail as the principal mode of propulsion. Although apparently well documented, this is a period of great complexity in the procurement and naval architecture of ships. The introduction of steam radically altered the design of vessels under construction and was later retro-fitted to others, while many 'names' lived a ghostly existence on the Navy List: ships ordered but not started, and in some cases having their intended draughts altered more than once before being cancelled entirely. This book meticulously sorts out and clarifies these confusions – a major contribution in itself – but for the first time it also provides outline service histories for an era that is largely neglected. Like its companion volumes, the book is organised by Rate, classification and class, with significant technical and building data, followed by a concise summary of the careers of each ship in every class. With its unique depth of information, this is a work of the utmost importance to every naval historian and general reader interested in the navy of the sailing era and the formative years of the steam navy that supplanted it.

From Sail to Steam J. R. Hathaway, 2023-07-24 About the Book In *From Sail To Steam*, this internationally recognized author presents a true accounting of the sailing career of her Dutch grandfather, Gerard Koper, as he transitions from serving on glorious full-rigged sailing vessels to the more sleek and efficient steam engines. This book serves as a follow-up to her first book, *From Windmills To Waves*. Here the reader will enjoy the adventures of Gerard as he goes whaling, rescues stranded sailors from the high seas, hunts alligators and boars,

and learns to defend himself and his crewmates from pirates and natives in Indonesia. In addition to tracking the routes of Gerard throughout the world and imagining oneself in such experiences, the reader should recognize the young age at which Gerard carried out such responsibilities. Gerard was truly a brave and courageous young man. About the Author Judith (Judy) Romer Hathaway is a career educator who has lived in Winter Park, Florida since 1978. She has taught school in Ohio, California and Florida, and practiced School Psychology in Florida. She holds a Bachelor of Science Degree in Elementary Education and a Master and Specialist Degree in School Psychology. Her life's focus has always been on children and learning, with special attention to her own three children and seven grandchildren. She enjoys playing golf, taking pictures on her many travels, playing bridge, participating in water aerobics, plus reading and writing. Her travels have taken her throughout the world, oftentimes with her sister and grandchildren. One of her most memorable trips was a voyage to Holland and Belgium where she visited her grandfather's birthplace in Den Helder and his home in Amsterdam. She was able to visualize her grandfather's childhood and early life throughout the Netherlands. She wants to preserve this true history of her grandfather for her own children and grandchildren.

Free Pirates for Hire: Setting Sail Eric C. Geary, 2011-12 On Dawnya's sixteenth birthday she officially became a citizen of South Dalron and received word of her great uncle's death. In his will he left Dawnya a riddle with the hope of leaving IronSprings behind and traveling the world as the Captain of the legendary ship, The Sea Dryad.
