to particular Chinese characters. Although these are more easily learned because of the association of the meaning to a single word, the author creates a kind of phonetic alphabet of single syllable words, each connected to a simple Japanese word, and shows how they can be combined to help memorize particularly troublesome vocabulary. String-Math 2011 Jonathan Block, 2012 The nature of interactions between mathematicians and physicists has been thoroughly transformed in recent years. String theory and quantum field theory have contributed a series of profound ideas that gave rise to entirely new mathematical fields and revitalized older ones. The influence flows in both directions, with mathematical techniques and ideas contributing crucially to major advances in string theory. A large and rapidly growing number of both mathematicians and physicists are working at the string-theoretic interface between the two academic fields. The String-Math conference series aims to bring together leading mathematicians and mathematically minded physicists working in this interface. This volume contains the proceedings of the inaugural conference in this series, String-Math 2011, which was held June 6-11, 2011, at the University of Pennsylvania.

Necessary People Anna Pitoniak, 2019-05-21 A propulsive, chilling novel exploring the dangerous fault lines of female friendships (Lee Child), *Necessary People* deftly plumbs the limits of ambition, loyalty, and love. One of them has it all. One of them wants it all. But they can't both win. Stella and Violet are best friends, and from the moment they met in college, they knew their roles. Beautiful, privileged, and reckless Stella lives in the spotlight. Hardworking, laser-focused Violet stays behind the scenes, always ready to clean up the mess that Stella inevitably leaves in her wake. After graduation, Violet moves to New York and lands a job in cable news, where she works her way up from intern to assistant to producer, and to a life where she's finally free from Stella's shadow. In this fast-paced world, Violet thrives, and her ambitions grow -- but everything is jeopardized when Stella, envious of Violet's new life, uses her connections, beauty, and charisma to get hired at the same network. Stella soon moves in front of the camera, becoming the public face of the stories that Violet has worked tirelessly to produce -- and taking all the credit. Stella might be the one with the rich family and the right friends, but Violet isn't giving up so easily. As she and Stella strive for success, each reveals just how far she'll go to get what she wants -- even if it means destroying the other person along the way.
