Giant Meatball Robert Weinstock,2008-06-01 A merry meatball is rolling a path of destruction through a small town. He rolls over pets, petunias, and the library--where he refuses to shush. When he rolls over the mayor herself, the townspeople know it's time. Time to invite the meatball to dinner. . . Sly humor abounds in this charming, offbeat story that will appeal to anyone who's ever faced a bully--and, of course, to spaghetti fans of all ages.

The Fisherman John Langan,2023-10-09 'Illusory, frightening, and deeply moving, The Fisherman is a modern horror epic. And it's simply a must read' Paul Tremblay In upstate New York, within the woods, Dutchman's Creek flows out of the Ashokan Reservoir. Steep-banked and fast-moving, it offers the promise of fine fishing, and of something more, a possibility too fantastic to be true. When Abe and Dan, two widowers who have found solace in each other's company and a shared passion for fishing, hear rumours of the Creek and what might be found there, the remedy to both their losses, they dismiss them. Soon, though, the men find themselves drawn into a tale as deep and old as the Reservoir. It's a tale of dark pacts, of long-buried secrets, and of a mysterious figure known as the Fisherman. It will bring Abe and Dan face to face with all that they have lost, and with the price they must pay to regain it. 'An epic, yet intimate, horror novel. Langan channels M. R. James, Robert E. Howard and Norman Maclean. What you get is A River Runs Through It... straight to hell' Laird Barron More praise for The Fisherman 'Reading this, your mouth fills with worms. Just let them wriggle and crawl as they will, though—don't swallow. John Langan is fishing for your sleep, for your soul. I fear he's already got mine' Stephen Graham Jones 'What starts as a slow, melancholy tale gains momentum and drops you head first into a churning nightmare from which you might escape, but you'll never forget, and the memory of what you saw will change you

forever' Richard Kadrey 'The Fisherman is a treasure, the kind of book you just want to snuggle up and shiver through. I can't say enough good things about the confidence, the patience, the satisfying cumulative power of this book. It was a pleasure to read from the first page to the last' Victor LaValle 'Stories within stories, folk tales becoming modern legends, all spinning into a fisherman's tale about the one he wishes had gotten away. Langan's latest is at turns epic and personal, dense yet compulsively readable, frightening but endearing' Adam Cesare

Into the Wild Jon Krakauer, 2009-09-22 NATIONAL BESTSELLER • In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die. It may be nonfiction, but *Into the Wild* is a mystery of the highest order. —Entertainment Weekly McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. *Into the Wild* is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose

story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding—and not an ounce of sentimentality. Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Open Skies Kenneth I. Kellermann, Ellen N. Bouton, Sierra S. Brandt, 2020-01-01 This open access book on the history of the National Radio Astronomy Observatory covers the scientific discoveries and technical innovations of late 20th century radio astronomy with particular attention to the people and institutions involved. The authors have made extensive use of the NRAO Archives, which contain an unparalleled collection of documents pertaining to the history of radio astronomy,

including the institutional records of NRAO as well as the personal papers of many of the pioneers of U.S. radio astronomy. Technical details and extensive citations to original sources are given in notes for the more technical readers, but are not required for an understanding of the body of the book. This book is intended for an audience ranging from interested lay readers to professional researchers studying the scientific, technical, political, and cultural development of a new science, and how it changed the course of 20th century astronomy.

Technics and Civilization Lewis Mumford, 2010-10-30 Technics and Civilization first presented its compelling history of the machine and critical study of its effects on civilization in 1934—before television, the personal computer, and the Internet even appeared on our periphery. Drawing upon art, science, philosophy, and the history of culture, Lewis Mumford explained the origin of the machine age and traced its social results, asserting that the development of modern technology had its roots in the Middle Ages rather than the Industrial Revolution. Mumford sagely argued that it was the moral, economic, and political choices we made, not the machines that we used, that determined our then industrially driven economy. Equal parts powerful history and polemic criticism, Technics and Civilization was the first comprehensive attempt in English to portray the development of the machine age over the last thousand years—and to predict the pull the technological still holds over us today. “The questions posed in the first paragraph of Technics and Civilization still deserve our attention, nearly three quarters of a century after they were written.”—Journal of Technology and Culture

Ballyhoo, Buckaroo, and Spuds Michael Quinion, 2006-03-14 The cat's pajamas, the bee's knees, and the whole nine yards rolled into one, this true feast for word lovers skewers commonly accepted word-origin myths and etymological folktales. Writing with flair and authority, word maven

and Oxford English Dictionary contributor Michael Quinion shows us that the real story behind a word or phrase is often much stranger than the commonly accepted one. With this book in your arsenal, you'll have the last word in every word-lover's game of one-upmanship. So if you've ever wondered why we utter such oddities as raining cats and dogs, I couldn't care less, or twenty-three skidoo, this one's for you. No ballyhoo!

Cookery and Dining in Imperial Rome Apicius, 2019-11-20 Cookery and Dining in Imperial Rome by Apicius is the oldest known cookbook in existence. There are recipes for cooking fish and seafood, game, chicken, pork, veal, and other domesticated animals and birds, for vegetable dishes, grains, beverages, and sauces; virtually the full range of cookery is covered. There are also methods for preserving food and revitalizing them in ways that are surprisingly still relevant.

The Insect Man Eleanor Doorly, 2019-10-10 This is a book intended for young and lively-minded children which implies, as I believe, that it might win a larger number of readers in proportion to the host available than if it were intended solely for intelligent adults. But there is no more precarious merchandise than books. What we most need and pine for in this we may, by ill chance, easily fail to come across.

The Story of Inyo Willie Arthur Chalfant, 1922

Classifying Madness Rachel Cooper, 2006-03-30 This book is about the Diagnostic and Statistical Manual of Mental Disorders, more commonly known as the D.S.M. The D.S.M. is published by the American Psychiatric Association and aims to list and describe all mental disorders. Within its pages can be found diagnostic criteria for types of depression, types of schizophrenia, eating disorders, anxiety disorders, phobias, sleeping disorders, and so on. Also included are less familiar, and more controversial, conditions: Mathematics Disorder, Caffeine Intoxication, Nicotine Dependence, Nightmare Disorder. It must be admitted that the D.S.M. is not an exciting read. Its pages follow a standard format: Each disorder has a numerical code. This is followed by a description of the disorder, which includes information regarding prevalence, course, and differential diagnosis. Finally explicit criteria that patients must meet to receive the diagnosis are listed. These generally include lists of the symptoms that must be present, restrictions as to the length of time that the symptoms must have been troublesome, and clauses that state that the symptoms must not be better accounted for by some other condition.

My Brilliant Career Miles Franklin, 2012-01-01 'This is not a romance - I have too often faced the music of life to the tune of hardship to waste time in snivelling and gushing over fancies and dreams; neither is it a novel, but simply a yarn - a real yarn. Oh!' First published in 1901, this Australian classic is the candid tale of the aspirations and frustrations of sixteen-year-old Sybylla Melvin, a headstrong country girl constrained by middle-class social arrangements, especially the pressure to marry. Trapped on her parents' outback farm, Sybylla simultaneously loves bush life and hates the physical burdens it imposes. She longs for a more refined lifestyle - to read, to think, to sing - but most of all to do great things. Suddenly her life is transformed when she is whisked away to live on

her grandmother's gracious property. There Sybylla falls under the eye of the rich and handsome Harry Beecham. Soon she finds herself choosing between everything a conventional life offers and her own plans for a 'brilliant career'.
