Awakeners of the Dawn Salik De Bonnault, 2015-08-26 General presentation *Awakeners of the Dawn* is a Novel-Reality sharing the fruits of more than fifteen years of travel throughout four continents, followed by seventeen years of research in History. By flushing out the layers of deception piling on top of each others and presented as History, Salik de Bonnault addresses the readers impatient to open their eyes to those truths setting us free on the mental, emotional and spiritual levels... As a former Photo Safari Guide in Kenya, the author guides the reader off the beaten track, with a bouncing scenario leading to an articulate understanding of our world through geographical and time travels. The light of a transversal approach from various disciplines projected on the hidden part of our iceberg-world wipes out the veil of our ignorance, displaying the puppeteers in plain sight... By looking through the lens of Hidden History, the reader starts to understand real-geopolitics, since There are two histories, the official history, deceitful, and the hidden history, where lies the true causes of events. as Honore de Balzac understood it in early XIXth century. Thinking out of the box allows the reader to discover the Big Picture of our reality, much more exciting than the one imposed by the media and politics, both cornered into an Orwellian inferno. This change of perspective leads to an entirely different perception of our world, opening the way to the Exopolitics and the many unseen dimensions of our Blue Planet, within our Galaxy the Milky Way, traveling through a multidimensional Universe we are now invited to discover, since we are part of it ... Self-published to avoid any censorship, the original 540 page book, in which Mary-Magdalena is an underground thread, has been improved and expanded along its seven publishings in French, following its discreet launching in early 2014. While translating his dense novel, written for an international public since it lifts the veil of truth concerning the five continents, Salik de Bonnault kept adding some more revelations and decided to make it more digest in a three book series. After its correction-proof reading by a British lady fond of literature *Awakeners of the Dawn* first book 1- Questioning is now available. - Book 1- Questioning This real-fiction begins in 1244, in Montségur, the venerable place of the Cathar resistance in Southern France against the abuses of the Roman Catholic Church, then it jumps through time to spring 2012 in Versailles and in Cathar Land. This is how the hidden part of our iceberg-world is progressively unveiled to Cedric de Montfort, a brilliant senior executive in his early 40's, forced to take a sabbatical year leading this former racing-pilot to drive off the beaten tracks... Circumstances thunder him into a much more true and exciting world, away from the illusory one which had deluded him with its false sense of security. His quest for truth pushing Cedric on the tracks of his ancestor, the Cathars' slayer Simon de Montfort, he arrives in the Haute Vallée de l'Aude (High Aude's Valley), where his encounters with singular characters brings him into another dimension. It is the dimension of truth, behind the smokescreen maintained by the pyromaniac firefighters of the 21st century, obeying to their puppeteers ... Their lies have twisted our perception of reality, putting our Mother Earth to fire and the sword. Therefore, it's only by accessing to their true nature and identity that humans will step out of the fear which has condemned them to the status of victims asking for hangers. Is it why they are so many of them in our twisted world ? Facing the end of an era, announcing the birth of a new one, rather than being overwhelmed by despair the first ones to see the light become the *Awakeners of the Dawn* ... Do you want to be part of it ?

The Blockade Jean Johnson, 2016-11-29 The national bestselling author of *The V'Dan* returns to her gripping military sci-fi series set in the same world as *Theirs Not to Reason Why*. The First Salik War is underway, and the Alliance is losing—their newest allies must find a way to win, or everyone will be slaughtered. Though committed to helping their V'Dan cousins, the Terrans resent how their allies treat them. The V'Dan in turn feel the Terrans are too unseasoned to act independently. And the other nations fear that ending the Salik War means starting a Human Civil War. Even as Imperial Prince Li'eth and Ambassador Jackie MacKenzie struggle to get their peoples to cooperate, they still face an ethical dilemma: How do you stop a ruthless, advanced nation from attacking again and again without slaughtering them in turn?

Drainage Systems Muhammad Salik Javaid, 2012-03-07 The subject of 'drainage: draining the water off' is as important as 'irrigation: application of water', if not more. 'Drainage' has a deep impact on food security, agricultural activity, hygiene and sanitation, municipal usage, land reclamation and usage, flood and debris flow control, hydrological disaster management, ecological and environmental balance, and water resource management. 'Drainage Systems' provides the

Ten eminent authors and their colleagues with varied technical backgrounds and experiences from around the world have dealt with extensive range of issues concerning the drainage phenomenon. Field engineers, hydrologists, academics and graduate students will find this book equally benefitting.
