Wordplay and the Discourse of Video Games Christopher A. Paul, 2012-03-15 In this timely new book, Christopher Paul analyzes how the words we use to talk about video games and the structures that are produced within games shape a particular way of gaming by focusing on how games create meaning, lead to identification and division, persuade, and circulate ideas. Paul examines the broader social discourse about gaming, including: the way players are socialized into games; the impact of the lingering association of video games as kid's toys; the dynamics within specific games (including Grand Theft Auto and EA Sports Games); and the ways in which players participate in shaping the discourse of games, demonstrated through examples like the reward system of World of Warcraft and the development of theorycraft. Overall, this book illustrates how video games are shaped by words, design and play; all of which are negotiated, ongoing practices among the designers, players, and society that construct the discourse of video games.

The Toxic Meritocracy of Video Games Christopher A. Paul, 2018-02-20 An avid gamer and sharp media critic explains meritocracy's negative contribution to video game culture—and what can be done about it Video games have brought entertainment, education, and innovation to millions, but gaming also has its dark sides. From the deep-bred misogyny epitomized by GamerGate to the endemic malice of abusive player communities, gamer culture has had serious real-world repercussions, ranging from death threats to sexist industry practices and racist condemnations. In *The Toxic Meritocracy of Video Games*, new media critic and longtime gamer Christopher A. Paul explains how video games' focus on meritocracy empowers this negative culture. Paul first shows why meritocracy is integral to video-game design, narratives, and values. Games typically valorize skill and technique, and common video-game practices (such as leveling) build meritocratic thinking into the most basic premises. Video games are often assumed to have an even playing field, but they facilitate skill transfer from game to game, allowing certain players a built-in advantage. *The Toxic Meritocracy of Video Games* identifies deep-seated challenges in the culture of video games—but all is not lost. As Paul argues, similarly meritocratic institutions like professional sports and higher education have found powerful remedies to alleviate their own toxic cultures, including active recruiting and strategies that promote values such as contingency, luck, and serendipity. These can be brought to the gamer universe, Paul contends, ultimately fostering a more diverse, accepting, and self-reflective culture that is not only good for gamers but good for video games as well.

Playing with Feelings Aubrey Anable, 2018-02-21 How gaming intersects with systems like history, bodies, and code Why do we so compulsively play video games? Might it have something to do with how gaming affects our emotions? In *Playing with Feelings*, scholar

Aubrey Anable applies affect theory to game studies, arguing that video games let us “rehearse” feelings, states, and emotions that give new tones and textures to our everyday lives and interactions with digital devices. Rather than thinking about video games as an escape from reality, Anable demonstrates how video games—their narratives, aesthetics, and histories—have been intimately tied to our emotional landscape since the emergence of digital computers. Looking at a wide variety of video games—including mobile games, indie games, art games, and games that have been traditionally neglected by academia—Anable expands our understanding of the ways in which these games and game studies can participate in feminist and queer interventions in digital media culture. She gives a new account of the touchscreen and intimacy with our mobile devices, asking what it means to touch and be touched by a game. She also examines how games played casually throughout the day create meaningful interludes that give us new ways of relating to work in our lives. And Anable reflects on how games allow us to feel differently about what it means to fail. *Playing with Feelings* offers provocative arguments for why video games should be seen as the most significant art form of the twenty-first century and gives the humanities passionate, incisive, and daring arguments for why games matter.

Just Breathe Sally Pasioka, 2022-11-24 Tuesdays at the spa during pandemic brought in mostly healthcare workers. I was unexpectedly affected with the Mystic Massage Mediums message. She left trails for me to follow, of secret adventures left to trace, from traveling where the music leads, and living life during youthful adolescence with reckless abandonment. A story built on faith and grief. This book will stir your soul like a pot of gumbo soup, in a roux of love. It all seems like chance and a random series of events; however everything happens for a reason. Dive into the deep, sometimes poetic and always emotional work of non-fiction composites. Travel in a narrative of life experiences perceived; on friendships, travel, nature with music and massage as a foundation. Roads to self-healing and discovery creating a uniquely blended story. The silence in the morning during quarantine provided the vessel allowing vibrations to find me inside this reflection from the quantum universe. If they whisper and ask, How spiritual are you? You may already know the answer. At the spa wings now appear off my back where my smooth shoulders once lay. Change is hard. So is swinging on the trapeze. Press into the resistance and show great faith between the holding on and letting go.

Inspired Thoughts of Sally Bet Sam Sally Bet Sam,2018-10-01 The words contained in this book are inspired by nature, hearing a single word, and living life, or knowing someone who has, but mostly from beginning a conversation with God, of praise and thanksgiving, or asking questions about life. He always answers, When I listen for that still small voice. How great is our God! My goal is to draw you into the words and silent graphics, to let your mind go there, to feel it and see it in your soul, and to enjoy it! My hope is, you will be refreshed and renewed after reading the words, and drawn into a closer relationship with our Creator. Love and blessings, Sally Bet Sam
