*The Toxic Meritocracy of Video Games* Christopher A. Paul, 2018-02-20 An avid gamer and sharp media critic explains meritocracy's negative contribution to video game culture—and what can be done about it Video games have brought entertainment, education, and innovation to millions, but gaming also has its dark sides. From the deep-bred misogyny epitomized by GamerGate to the endemic malice of abusive player communities, gamer culture has had serious real-world repercussions, ranging from death threats to sexist industry practices and racist condemnations. In *The Toxic Meritocracy of Video Games*, new media critic and longtime gamer Christopher A. Paul explains how video games' focus on meritocracy empowers this negative culture. Paul first shows why meritocracy is integral to video-game design, narratives, and values. Games typically valorize skill and technique, and common video-game practices (such as leveling) build meritocratic thinking into the most basic premises. Video games are often assumed to have an even playing field, but they facilitate skill transfer from game to game, allowing certain players a built-in advantage. *The Toxic Meritocracy of Video Games* identifies deep-seated challenges in the culture of video games—but all is not lost. As Paul argues, similarly meritocratic institutions like professional sports and higher education have found powerful remedies to alleviate their own toxic cultures, including active recruiting and strategies that promote values such as contingency, luck, and serendipity. These can be brought to the gamer universe, Paul contends, ultimately fostering a more diverse, accepting, and self-reflective culture that is not only good for gamers but good for video games as well.

The Spa at Lavender Lane Phyllis Melhado, 2020-05-07 From her elegant atelier office, Nadia Demidova discreetly monitors the arrival of her latest guests. Legendary doyenne of the fabled Palm Springs getaway, she can always tell from the moment the women arrive, which ones will be problems. This group will not disappoint: a burned-out Fifth Avenue retail executive...a striking former model and Chicago socialite... an overweight Texas housewife on the brink of her second divorce and her beautiful, teenage daughter...and a CEO who, unhappy with recent plastic surgery, is secluded in her room. Fortunately, Madame Demidova can rely on her Assistant Director to help manage the herd, not knowing that this valued employee is poised to make an audacious move. Lust, ambition, secrets, betrayal, competition for the ownership of the world's premier spa and a chance to snag the uber-eligible man who unexpectedly arrives on the scene are all on the menu at The Spa at Lavender Lane.
