Four Kinds of Rain Robert Ward,2012-05-01 Broke, recently divorced, and a total deadbeat, Bob Wells has spent his life as a psychiatrist only doing good in the world. When one of his patients with clear paranoid delusions starts to lose a grip, Bob has no choice but to intervene. Emile Barden is haunted by demons, and he believes that someone is trying to steal his most prized possession, the legendary Mask of Utu. Bob thinks it's all part of Emile's imagination until he discovers that Emile is telling the truth and that the mask is worth millions. It's Bob who may actually be the one losing his grip. He's tired of helping people for nothing, tired of being treated like dirt—and while he may have met the girl of his dreams, he doesn't want to lose her because he can't take care of her. There is only one thing to do: Bob is going to steal the mask himself. But doing so may mean making the biggest mistake of all—as he proceeds down a path into a dark abyss from which there is no return.

*Googie Redux* Alan Hess,2004-10-14 The book that helped spark the retro craze for fifties architecture and introduced the term googie to the world is back! First published by Chronicle in 1986, this key survey of mid-century coffee shop and commercial architecture is still the standard work on the subject Googie Redux is a thoroughly revised and expanded edition of the classic and perennial top-selling book that rekindled the craze for 1950s coffee shop and commercial architecture. Long derided by critics as popular folly, the style - so named after John Lautner's eccentric Los Angeles coffee shop - was emblematic of Southern California's car-oriented architecture. By the time of the first edition's debut, these buildings were being demolished by the score. Alan Hess' 1985 Chronicle book did much not only to educate, legitimize, and popularize the style that characterized this endangered architecture, but it helped spark a resurgence of interest into midcentury modern design. Completely revised and significantly expanded in both text and images (some of them recently unearthed for this edition), this redesigned package features is still an entertaining and informative look at the rise, fall, and resurgence of the commercial architecture that changed the American landscape. Includes a greatly expanded guided tour of the iconic buildings in Southern California.

events, plus bibliography and index.

*Orange Roofs, Golden Arches* Philip Langdon, 1986 An affectionate history of the architecture, design, and décor of American chain restaurants, from their beginnings in the 1870s (the early Harvey Houses at railroad stations on the Western frontier) to the mid-1980s (McDonald's, Wendy's, Pizza Hut, etc.). Illustrated with more than 150 black-and-white or full-color photographs, paintings, architectural renderings, floor plans, postcards, and much more.--From publisher description.

*Rule's Bride* Kat Martin, 2018-03-12 From a New York Times–bestselling author, an arranged marriage turns to love when the convenient wife helps her husband escape an unjust murder charge. Unrepentant rake Rule Dewar is living the good life when a most surprising event occurs—he falls in love with his wife. After their strategic “marriage of commerce” three years ago, Rule quite forgot about Violet Griffin, the teenage heiress to a Boston manufacturing fortune. He simply spoke his vows, took over her father’s business and returned to England to resume his usual pursuits: high-priced wine, high-stakes gambling and highborn women. Yet when Violet, now a sophisticated woman, unexpectedly appears at Rule’s London town house, husbandly duties no longer seem so odious—he can’t wait to take his stunning bride to their marriage bed. Violet, however, is not so easily led: she has her own ideas and is seeking an annulment to marry another. But as Rule attempts to win her over, someone else is determined to frame him for murder and keep him out of the way for good . . .

*Sailor's Song* John Patrick Shanley, 2005 THE STORY: SAILOR'S SONG is an extravagant romantic seaside story decorated with dance. In the tradition of Gene Kelly and Eugene O'Neill, who should have worked together but never did, this stylistically daring love story gives us a cynical man an

**Irving J. Gill** Irving Gill, 2006 Architect Irving J. Gill (1870–1936) is widely considered the first and preeminent architect of the Modernist era. In her groundbreaking work *Five California Architects*, Esther McCoy asserts that, along with Bernard Maybeck, Charles and Henry Greene, and R. M. Schindler, Gill is one of California’s most important architects. This book looks at the life and architectural achievements of Gill, with brilliant photography by Marvin Rand and McCoy’s insightful text from *Five California Architects*. Additionally, Gill's own writing (excerpted from *The Craftsman* (1916)) describes his architectural and design philosophy. As one of the most influential architects of the late-nineteenth to early twentieth century, Gill is said to have been so far advanced for his time that there was yet no discussion of ≈modernism The stunning combination of Rand's photographic art and McCoy's writing makes Irving J. Gill an important addition to the library of any serious scholar or fan of Gill, California architecture, Arts and Crafts, modernism, or turn-of-the-century development in building. Marvin Rand gained his photographic education at Los Angeles City College, the U. S. Air Force Photographic School, and Art Center College of Design. He has made a career as an architectural photographer, and his clients have included Charles Eames, Cesar Pelli, Louis Kahn, Skidmore, Owings & Merrill, Gwathmey/Siegal & Associates, William Pereira & Associates, the Museum of Modern Art and Metropolitan Museum of Art, to name a few. His photographs have been featured in twenty exhibitions

*A Place We Knew Well* Susan Carol McCarthy, 2015-09-29 “Susan Carol McCarthy blends fact, memory, imagination and truth with admirable grace,” said The Washington Post of the author’s critically acclaimed debut novel, *Lay That Trumpet in Our Hands*. Now McCarthy returns with another enthralling story of a family—their longings, their fears, and their secrets—swept up in the chaos at the height of the Cold War, perfect for fans of Caroline Leavitt, Laura Moriarty, and Ellen Feldman. Late October, 1962. Wes Avery, a one-time Air Force tail-gunner, is living his version of the American Dream as loving husband to Sarah, doting father to seventeen-year-old Charlotte, and owner of a successful Texaco station along central Florida’s busiest highway. But after President Kennedy announces that the Soviets have nuclear missiles in Cuba, Army convoys clog the highways and the sky fills with fighter planes. Within days, Wes’s carefully constructed life begins to unravel. Sarah, nervous and watchful, spends more and more time in the family’s bomb shelter, slipping away into childhood memories and the dreams she once held for the future. Charlotte is wary but caught up in the excitement of high school—her nomination to homecoming court, the upcoming dance, and the thrill of first love. Wes, remembering his wartime experience, tries to keep his family’s days as normal

as possible, hoping to restore a sense of calm. But as the panic over the Missile Crisis rises, a long-buried secret threatens to push the Averys over the edge. With heartbreaking clarity and compassion, Susan Carol McCarthy captures the shock and innocence, anxiety and fear, in those thirteen historic days, and brings vividly to life one ordinary family trying to hold center while the world around them falls apart. Praise for *A Place We Knew Well* “Gripping . . . Even as those tense days of the Cuban Missile Crisis are depicted in unwavering detail and with inexorable dread, the intimate moments between human beings on the verge of the apocalypse stand out. This multilayered story will remain with you long after you turn the last page.”—Melanie Benjamin, *New York Times* bestselling author of *The Aviator’s Wife* “Susan Carol McCarthy makes a nightmarish moment in America’s recent past terrifyingly immediate and devastatingly personal. This was what it was like to live, and even more astonishingly, to go on loving—as a husband, as a wife, as a young girl on the cusp of womanhood—with the threat of nuclear annihilation hovering only miles offshore.”—Ellen Feldman, author of *Next to Love* “Susan Carol McCarthy’s genius is in turning history over to muscle-and-blood human beings who variously hope, fear, lash out, hold steady, and tear at the seams. If you weren’t there, this is as close to living through the Cuban Missile Crisis as you will ever come.”—Tom McNeal, author of *To Be Sung Underwater* “Riveting.”—Kirkus Reviews “Powerful . . . McCarthy vividly evokes a turbulent time in her state’s recent past. . . . [She] memorably captures the impact of the intense military mobilization on residents. But the novel’s greatest strength is its seamless portrayal of what this international chess game means for one man on the brink of losing everything.”—Booklist

**The Power of Plagues** Irwin W. Sherman, 2020-07-02 The Power of Plagues presents a rogues' gallery of epidemic- causing microorganisms placed in the context of world history. Author Irwin W. Sherman introduces the microbes that caused these epidemics and the people who sought (and still seek) to understand how diseases and epidemics are managed. What makes this book especially fascinating are the many threads that Sherman weaves together as he explains how plagues past and present have shaped the outcome of wars and altered the course of medicine, religion, education, feudalism, and science. Cholera gave birth to the field of epidemiology. The bubonic plague epidemic that began in 1346 led to the formation of universities in cities far from the major centers of learning (and hot spots of the Black Death) at that time. And the Anopheles mosquito and malaria aided General George Washington during the American Revolution. Sadly, when microbes have inflicted death and suffering, people have sometimes responded by invoking discrimination, scapegoating, and quarantine, often unfairly, against races or classes of people presumed to be the cause of the epidemic. Pathogens are not the only stars of this book. Many scientists and physicians who toiled to understand, treat, and prevent these plagues are also featured. Sherman tells engaging tales of the development of vaccines, anesthesia, antiseptics, and antibiotics. This arsenal has dramatically reduced the suffering and death caused by infectious diseases, but these plague protectors are imperfect, due to their side effects or attenuation and because microbes almost invariably develop resistance to antimicrobial drugs. The Power of Plagues provides a sobering reminder that plagues are

not a thing of the past. Along with the persistence of tuberculosis, malaria, river blindness, and AIDS, emerging and reemerging epidemics continue to confound global and national public health efforts. West Nile virus, Lyme disease, and Ebola and Zika viruses are just some of the newest rogues to plague humans. The argument that civilization has been shaped to a significant degree by the power of plagues is compelling, and *The Power of Plagues* makes the case in an engaging and informative way that will be satisfying to scientists and non-scientists alike.

*Rafael Viñoly Architects* Philip Jodidio, Rafael Viñoly, 2011 KEYNOTE: The definitive monograph highlighting the global works of the visionary hailed by *The New York Times*' Herbert Muschamp as the most elegant architect now practicing in the United States. For nearly half a century Rafael Vinoly has been driven by the belief that the responsibility of architecture is to elevate the public realm. While his early work in Argentina transformed the landscape of his native continent, his first major projects in New York--the John Jay College of Criminal Justice--and in Tokyo--the International Forum--established Vinoly as an international presence in architecture, whose buildings sustain a structural originality that transcends passing fads. This monograph features a chronological sampling of Vinoly's best work in the United States, Latin America, Europe, Asia, Africa and the Middle East. The large and small-scale projects encompass courthouses, private residences, athletic facilities, performing arts centers, museums, and educational buildings. Illustrated with photographs, plans, and drawings, and accented by Vinoly's personal reflection on his career, this volume brings together the achievements of one of today's most internationally acclaimed architects. AUTHOR: Rafael Vinoly was born in Uruguay and by the age of twenty was founding partner of Estudio de Arquitectura, which would become one of the largest design studios in Latin America. In 1983 he founded Rafael Vinoly Architects PC, a New York based firm that now has offices in London, Los Angeles, San Francisco, Chicago, and Abu Dhabi. Philip Jodidio has published numerous books on contemporary architecture, including *Architecture: Art and Architecture: Nature*. He lives in Grimentz, Switzerland. Andy in his 20s, started a lunch club for isolated elderly people, rallying his student friends to help serve homemade meals in a borrowed church hall. Pauline responded to a news bulletin about the lack of housing for refugees and asylum seekers, by setting up homes across North London to provide safe housing. Annie set up regular meals in her church building for homeless people and rough sleepers. Mark started a football club for local lads from an estate in London, most of whom were from extremely difficult backgrounds and not in education or employment.
