Born a Crime Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he

struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Underground Suelette Dreyfus, Julian Assange, 2012-01-05 Suelette Dreyfus and her co-author, WikiLeaks founder Julian Assange, tell the extraordinary true story of the computer underground, and the bizarre lives and crimes of an elite ring of international hackers who took on the establishment. Spanning three continents and a decade of high level infiltration, they created chaos amongst some of the world's biggest and most powerful organisations, including NASA and the US military. Brilliant and obsessed, many of them found themselves addicted to hacking and phreaking. Some descended into drugs and madness, others ended up in jail. As riveting as the finest detective

novel and meticulously researched, Underground follows the hackers through their crimes, their betrayals, the hunt, raids and investigations. It is a gripping tale of the digital underground.

Everything Nice Lannie Rose, 2009-01-08 Most coming-of-age stories are about teenagers, but not this one. Eddy's coming-of-age hardly starts until he's 35 years old, when he discovers a penchant for wearing women's clothes. It takes him ten more exciting and very weird years before he figures out he really should have been a girl all along. After the sex change, Eddy, now Lannie, has to build a whole new life as a woman. The hard part was going to be finding a man to love her. While Everything Nice is YATA - Yet Another Transgender Autobiography - it brings to the genre an honesty about relationships and sex before and after gender transition; a hard look at the

dating scene from a transsexual point of view; and the unique sense of humor Lannie demonstrated in HOW THE CHANGE YOUR SEX and LANNIE! MY JOURNEY FROM MAN TO WOMAN. If you only read one transsexual autobiography this year, Everything Nice is the one you want to choose.

Honky Dalton Conley, 2023-09-05 This vivid memoir captures how race, class, and privilege shaped a white boy's coming of age in 1970s New York—now with a new epilogue. “I am not your typical middle-class white male,” begins Dalton Conley's Honky, an intensely engaging memoir of growing up amid predominantly African American and Latino housing projects on New York's Lower East Side. In narrating these sharply observed memories, from his little sister's burning desire for cornrows to the shooting of a close childhood friend, Conley shows how race and class inextricably shaped his life—as well as the lives of his schoolmates and neighbors. In a new afterword, Conley, now a well-established senior sociologist, provides an update on what his informants' respective trajectories tell us about race and class in the city. He further reflects on how urban areas have (and haven't) changed over the past few decades, including the stubborn resilience of poverty in New York. At once a gripping coming-of-age story and a brilliant case study illuminating broader inequalities in American society, Honky guides us to a deeper understanding of the cultural capital of whiteness, the social construction of race, and the intricacies of upward mobility.

That's the Joint! Murray Forman, Mark Anthony Neal, 2004 Spanning 25 years of serious writing on hip-hop by noted scholars and mainstream journalists, this comprehensive anthology includes observations and critiques on groundbreaking hip-hop recordings.

Accelerando Charles Stross, 2005-07-05 The Singularity. It is the era of the posthuman. Artificial intelligences have surpassed the limits of human intellect. Biotechnological beings have rendered people all but extinct. Molecular nanotechnology runs rampant, replicating and reprogramming at will. Contact with extraterrestrial life grows more imminent with each new day. Struggling to survive and thrive in this accelerated world are three generations of the Macx clan: Manfred, an entrepreneur dealing in intelligence amplification technology whose mind is divided between his physical environment and the Internet; his daughter, Amber, on the run from her domineering mother, seeking her fortune in the outer system as an indentured astronaut; and Sirhan, Amber's son, who finds his destiny linked

to the fate of all of humanity. For something is systematically dismantling the nine planets of the solar system. Something beyond human comprehension. Something that has no use for biological life in any form...

A Visit from St. Nicholas Clement Clarke Moore, 1848 'Twas the night before Christmas, when all through the house Not a creature was stirring-not even a mouse. This timeless poem is so well known to children and so often recited by adults it is virtually a part of our common heritage. Written on Christmas Eve in 1822-in a horse-drawn sleigh with jingling bells according to legend-it evokes the excitement and good cheer of Christmas Eve like no other work of American literature. Paired with Thomas Nast's drawings of St. Nicholas, from which we derive the classic image of Santa Claus, this lovely edition may well become the quintessential American Christmas book for children of all ages.

Sinister Street (Complete) Compton Mackenzie, 1913-01-01 From a world of daisies as big as moons and of mountainous green hillocks Michael Fane came by some unrealized method of transport to the thin red house, that as yet for his mind could not claim an individual existence amid the uniformity of a long line of fellows. His arrival coincided with a confusion of furniture, with the tramp of men backwards and forwards from a cavernous vehicle very dry and dusty. He found himself continually being lifted out of the way of washstands and skeleton chests of drawers. He was invited to sit down and keep quiet, and almost in the same breath to walk about and avoid hindrance.

Finally, Nurse led him up many resonant stairs to the night-nursery which at present consisted of two square cots that with japanned iron bars stood gauntly in a wilderness of oilcloth surrounded by four walls patterned with a prolific vegetation. Michael was dumped down upon a grey pillow and invited to see how well his sister Stella was behaving. Nurse's observation was true enough: Stella was rosily asleep in an undulation of blankets, and Michael, threatened by many whispers and bony finger-shakes, was not at all inclined to wake her up. Nurse retired in an aura of importance, and Michael set out to establish an intimacy with the various iron bars of his cage. For a grown-up person these would certainly have seemed much more alike than even the houses of Carlington Road, West Kensington: for Michael each bar possessed a personality. Minute scratches unnoticed by the heedless adult world lent variety of expression: slight irregularities infused certain groups with an air of deliberate consultation. From the four corners royal bars, crowned with brass, dominated their subjects. Passions, intrigues, rumours, ambitions, revenges were perceived by Michael to be seething below the rigid exterior of these iron bars: even military operations were sometimes discernible. This cot was guarded by a romantic population, with one or two of whose units Michael could willingly have dispensed: one bar in particular, set very much askew, seemed sly and malignant. Michael disliked being looked at by anybody or anything, and this bar had a persistent inquisitiveness which already worried him. 'Why does he look at me?' Michael would presently

ask, and 'Nobody wants to look at such an ugly little boy,' Nurse would presently reply. So one more intolerable question would overshadow his peace of mind. Meanwhile, far below, the tramp of men continued, until suddenly an immense roar filled the room. Some of the bars shivered and clinked, and Michael's heart nearly stopped. The roar died away only to be succeeded by another roar from the opposite direction. Stella woke up crying. Michael was too deeply frightened so to soothe himself, as he sat clutching the pointed ears of the grey pillow. Stella, feeling that the fretful tears of a sudden awakening were insufficient, set up a bellow of dismay. Michael was motionless, only aware of a gigantic heart that shook him horribly. At last the footsteps of Nurse could be heard, and over them, the quick 'tut-tut-tuts' that voiced her irritation.

One Dimensional Woman Nina Power, 2009-11-27 This short book is partly an attack on the apparent abdication of any systematic political thought on the part of today's positive, up-beat feminists. It suggests alternative ways of thinking about transformations in work, sexuality and culture that, while seemingly far-fetched in the current ideological climate, may provide more serious material for future feminism.

Grieving James R. White, 1997-10-01 Written at a much-appreciated length, this brief book gently guides readers through the healing process of grief. Showing how grief doesn't happen in neat orderly stages, it explains how to work through painful emotions and questions and find God's peace and healing.

Here is an updated look for a steady seller.

The Anime Machine Thomas Lamarre, 2013-11-30 Despite the longevity of animation and its significance within the history of cinema, film theorists have focused on live-action motion pictures and largely ignored hand-drawn and computer-generated movies. Thomas Lamarre contends that the history, techniques, and complex visual language of animation, particularly Japanese animation, demands serious and sustained engagement, and in *The Anime Machine* he lays the foundation for a new critical theory for reading Japanese animation, showing how anime fundamentally differs from other visual media. *The Anime Machine* defines the visual characteristics of anime and the meanings generated by those specifically “animetic” effects—the multiplanar image, the distributive field of vision, exploded projection, modulation, and other techniques of character animation—through close analysis of major films and television series, studios, animators, and directors, as well as Japanese theories of animation. Lamarre first addresses the technology of anime: the cells on which the images are drawn, the animation stand at which the animator works, the layers of drawings in a frame, the techniques of drawing and blurring lines, how characters are made to move. He then examines foundational works of anime, including the films and television series of Miyazaki Hayao and Anno Hideaki, the multimedia art of Murakami Takashi, and CLAMP’s manga and anime adaptations, to illuminate the profound connections between animators, characters, spectators, and technology. Working at the

intersection of the philosophy of technology and the history of thought, Lamarre explores how anime and its related media entail material orientations and demonstrates concretely how the “animetic machine” encourages a specific approach to thinking about technology and opens new ways for understanding our place in the technologized world around us.

The Hundred Secret Senses Amy Tan, 2010-12-28 The wisest and most captivating novel (Boston Globe) from the author of the bestselling *The Valley of Amazement* and the new memoir *Where the Past Begins* Set in San Francisco and in a remote village of Southwestern China, Amy Tan's *The Hundred Secret Senses* is a tale of American assumptions shaken by Chinese ghosts and broadened with hope. In 1962, five-year-old Olivia meets the half-sister she never knew existed, eighteen-year-old Kwan from China, who sees ghosts with her yin eyes. Decades later, Olivia describes her complicated relationship with her sister and her failing marriage, as Kwan reveals her story, sweeping the reader into the splendor and violence of mid-nineteenth century China. With her characteristic wisdom, grace, and humor, Tan conjures up a story of the inheritance of love, its secrets and senses, its illusions and truths.

That Hideous Strength C. S. Lewis, 2000 She had begun by dreaming simply of a face. Its expression was frightening because it was frightened. The face belonged to a man who was sitting hunched up in one corner of a little square room with white-washed walls - waiting, she thought, for those who had him in

their power to come in and do something horrible to him. At last the door was opened...She could not make out what the visitor was proposing to him, but she did discover that the prisoner was under sentence of death. Whatever the visitor was offering him was something that frightened him more than that. The visitor, still smiling his cold smile, unscrewed the prisoner's head and took it away. Then all became confused. The third novel in C.S. Lewis's classic sci-fi trilogy begins with Jane Studdock's horrific nightmare. The next morning she sees the same face in a newspaper - a brilliant French scientist guillotined for poisoning his wife. Jane has the growing feeling that she is being warned of something real and sinister. Her husband, Mark, meanwhile, is drawn into the National Institute for Co-ordinated Experiments, which is engaged in a plan to control human life.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
