*The War Within* Bob Woodward, 2012-12-11 In his fourth book on President George W. Bush and his controversial 'War on Terror,' Bob Woodward takes us behind closed doors, into the hidden rooms of the White House, the Pentagon, the State Department, and US intelligence agencies, where the details of the wars in Iraq and Afghanistan were fiercely debated and eventually determined. Today, the Iraq War is a major source of contention around the world, and may become the defining political, social and moral issue of this brief period in American history. In an attempt to understand the Bush presidency, and its divisive legacy, Woodward examines this conflict at its source: in Washington D.C. This fast-paced, groundbreaking book includes never-before-published information, as Woodward draws upon his vast experience as a veteran political journalist to provide a richly detailed and meticulously researched examination of the war in Iraq over the past two years. In *The War Within*, Woodward expands upon his study of the Bush administration in his previous three books, with his signature authoritative, measured, and deeply human sense of perspective.

**Education Reform in the American States** Jerry McBeath, Maria Elena Reyes, Mary Ehrlander, 2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education, culminating in the No Child Left Behind Act, federal legislation of 2002. The authors treat the current accountability movement, placing it in historical context and addressing the evolution in public education policymaking from the overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding. They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states' prospects for meeting their NCLB targets. The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act, particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of

disadvantaged students. The audience for this study includes local, state and federal education policy makers; administrators and instructors in schools of education and other teaching programs, educators; and the general public.
