Mejat Wafa Medu Neter Conversation and Phrase Book Rkhty Amen, 2013-02 Medu Neter also known as (ancient Egyptian Hieroglyphs) is no longer a dead language. For the past 20 years an effort has been underway to resurrect it as a living spoken language. The idea first came from the late Dr. Cheikh Anta Diop a leading African historian, scientist and linguist. It was his desire for Medu Neter to one day become a lingua franca for all of Africa. This *Mejat Wafa Conversation and Phrase* book is a step toward realizing that goal. Now students and families can enjoy speaking this ancient language everyday or just use it for rituals or special occasions, just as people once spoke Latin and Sanskrit, and ancient Hebrew. This book is written with Medu Neter pronunciation and transliteration for easy use. There are no Hieroglyphs in this version. See also *Mejat Wafa Medu Neter Conversation Book With Hieroglyphs* A hieroglyphic version will soon be available at meduneter.com

3D Laser Scanning for Heritage Clive Boardman, Paul Bryan, 2018 The first edition of 3D Laser Scanning for Heritage was published in 2007 and originated from the Heritage3D project that in 2006 considered the development of professional guidance for laser scanning in archaeology and architecture. Publication of the second edition in 2011 continued the aims of

the original document in providing updated guidance on the use of three-dimensional (3D) laser scanning across the heritage sector. By reflecting on the technological advances made since 2011, such as the speed, resolution, mobility and portability of modern laser scanning systems and their integration with other sensor solutions, the guidance presented in this third edition should assist archaeologists, conservators and other cultural heritage professionals unfamiliar with the approach in making the best possible use of this now highly developed technique.
