Spotify Teardown Maria Eriksson, Rasmus Fleischer, Anna Johansson, Pelle Snickars, Patrick Vonderau, 2019-02-19 An innovative investigation of the inner workings of Spotify that traces the transformation of audio files into streamed experience. Spotify provides a streaming service that has been welcomed as disrupting the world of music. Yet such disruption always comes at a price. Spotify Teardown contests the tired claim that digital culture thrives on disruption. Borrowing the notion of “teardown” from reverse-engineering processes, in this book a team of five researchers have playfully disassembled Spotify’s product and the way it is commonly understood. Spotify has been hailed as the solution to illicit downloading, but it began as a partly illicit enterprise that grew out of the Swedish file-sharing community. Spotify was originally praised as an innovative digital platform but increasingly resembles a media company in need of regulation, raising questions about the ways in which such cultural content as songs, books, and films are now typically made available online. Spotify Teardown combines interviews, participant observations, and other analyses of Spotify’s “front end” with experimental, covert investigations of its “back end.” The authors engaged in a series of interventions, which include establishing a record label for research purposes, intercepting network traffic with packet sniffers, and web-scraping corporate materials. The authors’ innovative digital methods earned them a stern letter from Spotify accusing them of violating its terms of use; the company later threatened their research funding. Thus, the book itself became an intervention into the ethics and legal frameworks of

corporate behavior.

Fertility of Immigrants Nadja Milewski, 2009-11-09 This volume, "Fertility of Immigrants: A Two-Generational Approach in Germany" by Dr. Nadja Milewski, is the sixth book of a series of Demographic Research Monographs published by Springer Verlag. Dr. Milewski is now working for the University of Rostock, but at the time she wrote the book, she was a research scientist at the Max Planck Institute for Demographic Research. The book is a slightly-revised version of her doctoral dissertation ("Fertility of Immigrants and Their Descendants in West Germany: An Event History Approach"), which she completed at the Max Planck Institute and submitted to the University of Rostock. She was awarded highest honors, summa cum laude, for her dissertation. As Professor Jan Hoem wrote in his review of Dr. Milewski's dissertation, the research focuses on the patterns and levels of childbearing among immigrant women. Given Germany's varied immigration experience with refugees, asylum seekers, guest workers, and foreign-born persons of German ancestry, Dr. Milewski's topic is of particular interest, especially with regard to differences in the patterns and levels of childbearing among various kinds of immigrants to Germany vs. native-born Germans. Numerous empirical and theoretical studies of childbearing among immigrants to various countries have been published and Dr. Milewski carefully reviews them. While earlier studies have tended to be rather fragmentary, particularly for European populations, Dr. Milewski's research provides a comprehensive picture of the recent female fertility of post-war migrants and their descendants in West Germany, with an emphasis on migrants who came to Germany to work.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Who is this son of man? Larry W. Hurtado, Paul L. Owen, 2011-03-17 This book is the first ever collection of scholarly essays in English devoted specifically to the theme of the expression 'son of man'. It describes the major competing theories which have addressed questions such as: What is the original Aramaic expression which lies behind the Greek phrase, and what was its original connotation? How do the gospel writers use the expression 'son of man'? Is it a Christological title, pregnant with meaning, much like the titles son of God, Christ/Messiah, and son of David? Is it used as a way of designating Jesus as a human being of unique redemptive significance? Or does it rather originate in a nuanced use (obscured in Greek translation) of an Aramaic expression used in place of the first person pronoun, as an indefinite pronoun, or for generic statements about human beings? Larry Hurtado and Paul Owen have brought together contributing scholars on the basis of their expertise in Aramaic, historical Jesus research, the son of man debate itself, and related fields of research.
