*The Gun Show* E. M. Lewis,2019 In *The Gun Show*, award-winning playwright E. M. Lewis tells the story of America’s relationship with guns through the prism of her own personal experiences. From a farming community in rural Oregon to the big cities of Los Angeles and New York, an actor shares Ms. Lewis’s unique perspective and true stories about America’s most dangerous pastime as if they were his or her own, with brutal honesty and poignant humor. Leaning neither right nor left, *The Gun Show* jumps into the middle of the gun control debate and asks, “Can we have a conversation about this?” The solo version of the play requires only a single actor. The role was conceived for a man to play, but you may cast a woman or non-binary actor in this role if desired. In the duo version of the play, the actual playwright – E. M. Lewis – sits out in the audience, and the actor playing the Playwright occasionally interacts with her, as indicated in the script. (The duo version of the play is only available for licensing by special request, depending upon the availability of Ms. Lewis to participate.)

*Achtung-Panzer!* Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

*The Relational Soul* Richard Plass,James Cofield,2014-08-01 What does loneliness tell us? Be it chronic or acute, slight or significant, loneliness is proof of our relational design. At the core of our being is this truth—we are designed for and defined by our relationships, former pastors Plass and Cofield write. We were born with a relentless longing to participate in the lives of others.

Fundamentally, we are relational souls. Our ability to make deep and emotionally satisfying connections rests on the capacity to trust, and we all know trust can be difficult. Early-life relational programming and patterns of attachment can serve as blueprints for relationships later in life, whether good or bad. But no matter our conditioning, God is out to reclaim and restructure the deepest terrain of the human soul by helping us shed our reactive False Self and put on our receptive True Self. Through spiritual disciplines and a conscious participation in the love of the Father, Son and Spirit, we transform our self-awareness and our connection with other people. Authored by counselor Dr. Richard Plass and spiritual director James Cofield, *The Relational Soul* brings together concepts from psychology and spiritual formation. Each chapter includes introductory stories and practical If this is true, what about you? questions to help readers engage in relationships in more life-giving ways. When the presence of Christ and community connects with a soul that is open, we witness the miracle of transformation.

Waddles David McPhail,2013-10-07 The New York Times–bestselling illustrator of *Budgie & Boo* presents a cuddly raccoon in a tender tale of love and friendship. Waddles the raccoon loves to eat. In fact, he eats so much that his usual walk has turned into a waddle! He also loves to spend time with his best friend, Emily the duck. One day, Emily asks Waddles to sit on her unhatched eggs so she can go for a swim, and the very cuddly Waddles is happy to help. But he gets a big surprise when the ducklings begin to hatch! Waddles soon finds himself very attached to the new family of ducklings, so when it's time for them to fly south for the winter, Waddles wonders if he will ever see his friends again . . . Tenderly crafted and illustrated, *Waddles* introduces readers to a delightful new character who learns that love and friendship are the only things that make someone truly “full.” Praise for *Waddles* “McPhail celebrates interspecies camaraderie in another picture book divided into four short chapters. . . . McPhail’s ink-and-watercolor illustrations elevate the familiar story of mismatched, devoted friends, coaxing expertly drawn emotion from his endearing characters. A tender, year-round reminder of the sustaining power of friendship.” —Booklist

**Public Health, Mental Health, and Mass Atrocity Prevention** Jocelyn Getgen

Kestenbaum,Caitlin O. Mahoney,Amy E. Meade,Arlan F. Fuller,2021-07-29 This multidisciplinary volume considers the role of both public health and mental health policies and practices in the prevention of mass atrocity, including war crimes, crimes against humanity, and genocide. The authors address atrocity prevention through the framework of primary (pre-conflict), secondary (mid-conflict), and tertiary (post-conflict) settings. They examine the ways in which public health and mental health scholars and practitioners currently orient their research and interventions and the ways in which we can adapt frameworks, methods, tools, and practice toward a more sophisticated and truly interdisciplinary understanding and application of atrocity prevention. The book brings together diverse fields of study by global north and global south authors in diverse contexts. It culminates in a narrative that demonstrates the state of the current fields on intersecting themes within public health, mental health, and mass atrocity prevention and the future potential directions in which these intersections could go. Such discussions will serve to influence both policy makers and practitioners in these fields toward developing, adapting, and testing frames and tools for atrocity prevention. Multidisciplinary perspectives are represented among editors and authors, including law, political science, international studies, public health, mental health, philosophy, clinical psychology, social psychology, history, and peace studies.
