Success with IEPs Vicki Caruana, 2017-02-10 As the inclusive classroom becomes the placement of choice for many students with disabilities, the implementation of a student's individualized education plan (IEP) is no longer the sole responsibility of a special education teacher. Together the general education teacher and the special education teacher work to ensure each student's progress toward meeting carefully crafted goals. Success with IEPs provides teachers with practical, research-based advice and solutions to five of the most common challenges posed by IEPs: Understanding the full scope of the teacher's role Doing the critical prep work for IEP meetings Offering modifications and accommodations Contributing to the IEP team Monitoring student progress Author and educator Vicki Caruana explores principles that debunk some common misconceptions about how to work with students with disabilities. She offers insights, tips, and strategies that will help teachers fine-tune their practice to better meet each child's unique needs. For teachers uncertain of their ability to meet the needs of students with IEPs, this manageable guide is a great place to start.

Before completing my third book, Essential Tips for Parents of Students with Disabilities, a close friend and principal suggested creating a condensed version

of a quick handbook of the IEP process from the Essential Book Series.

The Systematic Mistreatment of Children in the Foster Care System Lois Weinberg,2014-07-16 The Systematic Mistreatment of Children in the Foster Care System tells the stories of 10 children in the foster care system from diverse ethnic and cultural backgrounds and the efforts by advocates to find them permanent places to live, appropriate schooling, and other essentials they need to survive. The children's case studies highlight the difficulties in placing and maintaining them in healthy living situations with supportive educational, mental health, and other services. The book shows how children fall-sometimes over and over again-through the deep cracks that exist within and between the various agencies of the multi-agency system of care that was designed to help them. Appropriate placement and services for children in foster care typically requires the coordination and collaboration of several agencies, including the juvenile court, child protective services (CPS), school districts, and departments of mental health (DMH). The Systematic Mistreatment of Children in the Foster Care System shows how these agencies frequently fail to meet their legal obligations to children in the system and what can be done to address these failures-and the outcomes they produce. The Systematic Mistreatment of Children in the Foster Care System includes: an introduction to the child protective services system the general route by which children in the United States are removed from their parents' custody because of abuse and neglect the major components of the Individuals with Disabilities Education Act and the problems in getting foster children's educational needs met the difficulties in securing stable out-of-home placements strategies for stabilizing home placements problems in funding for out-of-home placements strategies for advocating the

removal of children from inadequate out-of-home placements legislation and practices for bringing about needed policy changes and much more Equally valuable as a professional tool and as a classroom resource, The Systematic Mistreatment of Children in the Foster Care System includes introductions to specific issues presented in each chapter; case studies that illuminate the issues presented; subsections for each case study chapter entitled Prevention, Intervention, Advocacy Considerations, and What Had Gone Wrong; boxed items highlighting practical strategies, laws, and other relevant information; and a conclusion and summary of each chapter.

Guidelines for conducting the IEP meeting are offered in the third chapter, and specific suggestions and forms for writing the IEP are given in the fourth chapter. The fifth chapter addresses the placement decision and conference. The sixth and seventh chapters provide help with implementing the IEP and program management. The eighth chapter lists specific do's and don'ts for parents. Born Just Right Jordan Reeves, Jen Lee Reeves, 2020-07-07 From tween advocate for limb difference and founder of Project Unicorn Jordan Reeves and her mom, Jen, comes an inspiring memoir about how every kid is perfect just the way they are. When Jordan Reeves was born without the bottom half of her left arm, the doctors reassured her parents that she was “born just right.” And she has been proving that doctor right ever since! With candor, humor, and heart, Jordan’s mother, Jen Lee Reeves, helps Jordan tell her story about growing up in an able-bodied world and family, where she was treated like all of her siblings and classmates—and where she never felt limited. Whether it was changing people’s minds about her capabilities, trying all kinds of sports, or mentoring other kids, Jordan has channeled any negativity into a positive, and is determined to create more innovations for people just like her. Her most famous invention, aptly called Project Unicorn, is a special prosthetic (that shoots glitter!) made with the help of a 3-D printer. A real-life superhero, Jordan is changing the world with her foundation, Born Just Right, which advocates and celebrates kids with differences, and helps them live their best possible life—just like Jordan is today!
