Social Media Optimization For Dummies Ric Shreves,2015-04-20 Optimize, optimize, optimize to get the most out of your company's social media presence As it turns out, social media is good for a lot more than funny cat videos, memes, and sharing what you're eating for lunch with the world. As the social media sphere continues to grow and be redefined, it's more important than ever to arm yourself with the latest information on how you can use it to drive traffic to your website, raise awareness of your brand, and promote your products or services. If you're a marketer who has asked yourself how you can possibly stay afloat in these newly chartered and oft overcrowded waters, Social Media Optimization For Dummies serves as your roadmap to smart marketing in the digital age. So, what is Social Media Optimization (SMO), exactly? Well, it's comprised of two closely related practices. First, SMO refers to a set of techniques in which social media is used to drive traffic to a website and create an interest in a product or service. Second, SMO concerns the optimization of the social media presence itself with the goal of building followers, increasing engagement, and, again, generating interest in a product or service. Each of these parts supports the other and, when the channels are managed efficiently, enhances the other's effectiveness. In this plain English, easy-to-follow guide, you'll quickly discover how to apply SMO practices to your marketing plan to accomplish those goals. Integrate social media into your website Drive traffic to your website Build followers and generate a buzz Increase engagement with customers From integrating social media into your website to building your social media presence to everything in between, Social Media Optimization For Dummies points your business toward success.

Social Media Marketing Algorithms Jordan Connery, 2021-02-21 Social media is a rapidly growing arena for everything from the posting of videos to car sales, so it should come as no surprise that big business is growing on there, too. However, what can it actually do to help grow your business? Before selling any product, you have to get your name out there and spread the word of your new social media presence. By adding links to your social media accounts on your company website, you are encouraging people to follow you online in order to get the most up to date information as soon as you release it. When you put your company website on your social media profile, it gives your clients a way to go directly to your website. This will allow your customers to contact your company for more information, and it is more likely to create online buyers. Social media is the main way that companies are beginning to show involvement with their customers and community by promoting events they are sponsoring or releasing news to their clients. Real-time communication has become extremely important for customer satisfaction in today's businesses. People don't want to wait for answers to their questions or for help resolving any issue they might have. With social media, people have direct access to comments and post feedback for companies, making any kind of wait-time for results obsolete. Press releases are a thing of the past and take more time to be processed out to customers. By using social media, your company is able to deliver news and updates to clients in real time, while also allowing them to share the news with others and encouraging a faster spread of communication. By letting customers share your company's posts and information, it also allows new people to follow your company page and learn more about your business. Businesses are turning to Instagram and Facebook, among other social media platforms, to better communicate with their customers and spread the word about their business and future plans. To go about doing this, companies first have to understand the best ways to create brand awareness online and how to draw in new followers. Building a successful online following will take time. However, there are techniques and skills that will help you build an online following and create a popular social media site, while still promoting your business and keeping in contact with your customers.

Social Media Marketing Adidas Wilson, What Is Social Media Engagement? It is the number of shares, likes, and comments. A big following is great, but an engaged audience is better than a big one—quality over quantity. There are certain metrics used to measure social media engagement. They include: Use of branded hashtags. Mentions. Click-throughs. Audience and followers' growth. Likes. Comments. Retweets/shares. Your followers can naturally start engaging with your content. But often, you may need to encourage them a little. Here are a few tricks to help you with that. Assess your engagement: see how many followers you have, the average number of shares and comments you get on each post and any other relevant numbers. Make sure you continue monitoring these numbers. Choose your strategy: every company has different goals and strategies are, thus, different. Your strategy will depend on your goals. This could be educating the audience, collecting feedback, changing the public perception, etc. Understand your audience: it is not easy to engage people you do not know.
