**Debt-Free Degree** Anthony O'Neal, 2019-10-07 Every parent wants the best for their child. That's why they send them to college! But most parents struggle to pay for school and end up turning to student loans. That's why the majority of graduates walk away with \$35,000 in student loan debt and no clue what that debt will really cost them.<sup>1</sup> Student loan debt doesn't open doors for young adults—it closes them. They postpone getting married and starting a family. That debt even takes away their freedom to pursue their dreams. But there is a different way. Going to college without student loans is possible! In *Debt-Free Degree*, Anthony O'Neal teaches parents how to get their child through school without debt, even if they haven't saved for it. He also shows parents: \*How to prepare their child for college \*Which classes to take in high school \*How and when to take the ACT and SAT \*The right way to do college visits \*How to choose a major A college education is supposed to prepare a graduate for their future, not rob them of their paycheck and freedom for decades. *Debt-Free Degree* shows parents how to pay cash for college and set their child up to succeed for life.

*Go Where There Is No Path* Christopher Gray, Mim Eichler Rivas, 2021-08-03 For all who dare to go off the beaten track, this is the inspirational, power-packed playbook for transforming your life and your world—from a young, Black social entrepreneur whose dorm-room tech startup has helped millions pay for college and access unprecedented opportunity. Gray, the son of a single working mother who had him at age fourteen, grew up in deep poverty in Birmingham, Alabama. An academic star, he had every qualification for attending a top college—except for the financial means. Desperate, Gray headed off the beaten path, searching online to apply for every scholarship he could find. His hustle resulted in awards of 1.3 million dollars and became his call to action to help other students win their own “schollys.” It inspired him to start up Scholly, an app that matches college applicants with millions of dollars in outside scholarships that often go unclaimed. When he was a senior at Drexel University, he appeared on *Shark Tank* as CEO of Scholly. In the most heated fight in the show's history, the sharks challenged Gray as to whether his app was a charity or a profitable business. Both, he insisted, proposing a new paradigm for social entrepreneurship and netting deals from Lori Grenier and Daymond John. At the time Scholly's subscriber base was 90,000 users. Today the app has 4 million subscribers who have won scholarships totaling more than \$100 million. Meanwhile, Gray—without help from the mostly all-white boy's club of Silicon Valley—has emerged as a tech startup superhero now tackling the crisis of student debt with innovative, unrivaled strategies. Gray's premise is that when you lead with the good—confronting issues such as poverty and racism—the money will follow. His story is proof that when you develop a mindset for success, you turn disadvantages into gold. And when you create opportunities for others, you enrich the marketplace for yourself too. Gray shows us, we can carve out new paths to better days and leave trails for others.

**Invasive Studies of the Human Epileptic Brain** Samden D. Lhatoo, Philippe Kahane, Hans O. Luders, 2019-01-22 No other neurological condition allows the same opportunities for an intracranial electrophysiological study of the human brain as epilepsy does. Epileptic surgery is designed to remove the epileptic focus from the human brain, thereby effecting either cure or substantial reduction of seizures in an individual with an otherwise intractable condition. Its use as a treatment modality dates from the late 19th century, and it has become a widely used treatment option throughout the world in the last 20-30 years. The complexity of epilepsy cases in surgical centres, and the need for invasive electrode studies for pre-surgical evaluation, are both greatly increasing. *Invasive Studies of the Human Epileptic Brain* is the definitive reference text on the use of invasive electroencephalographic (EEG) diagnostic studies in human epilepsy. Written by some of the most renowned epilepsy experts of the 20th and 21st centuries, the authors provide their expertise and insights into the identification and mapping of intracranial epileptiform and non-epileptiform activity, mapping of the human brain function, and approaches in the use of invasive electroencephalography in a variety of clinical situations. The book is organized into an easily readable series of chapters and is brilliantly illustrated with case studies; each providing an intuitively comprehensive approach to invasive brain studies.

Educated Tara Westover, 2018-02-20 #1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF

THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KQED • New York Public Library

**The Power of Broke** Daymond John,Daniel Paisner,2017-04-18 The instant New York Times bestseller from Shark Tank star and Fubu Founder Daymond John on why starting a business on a limited budget can be an entrepreneur's greatest competitive advantage. Daymond John has been practicing the power of broke ever since he started selling his home-sewn t-shirts on the streets of Queens. With a \$40 budget, Daymond had to strategize out-of-the-box ways to promote his products. Luckily, desperation breeds innovation, and so he hatched an idea for a creative campaign that eventually launched the FUBU brand into a \$6 billion dollar global phenomenon. But it might not have happened if he hadn’t started out broke - with nothing but hope and a ferocious drive to succeed by any means possible. Here, the FUBU founder and star of ABC’s Shark Tank shows that, far from being a liability, broke can actually be your greatest competitive advantage as an entrepreneur. Why? Because starting a business from broke forces you to think more creatively. It forces you to use your resources more efficiently. It forces you to connect with your customers more authentically, and market your ideas more imaginatively. It forces you to be true to yourself, stay laser focused on your goals, and come up with those innovative solutions required to make a meaningful mark. Drawing his own experiences as an entrepreneur and branding consultant, peeks behind-the-scenes from the set of Shark Tank, and stories of dozens of other entrepreneurs who have hustled their way to wealth, John shows how we can all leverage the power of broke to phenomenal success. You’ll meet: · Steve Aoki, the electronic dance music (EDM) deejay who managed to parlay a series of \$100 gigs into becoming a global superstar who has redefined the music industry · Gigi Butler, a cleaning lady from Nashville who built cupcake empire on the back of a family recipe, her maxed out credit cards, and a heaping dose of faith · 11-year old Shark Tank guest Mo Bridges who stitched together a winning clothing line with just his grandma’s sewing machine, a stash of loose fabric, and his unique sartorial flair When your back is up against the wall, your bank account is empty, and creativity and passion are the only resources you can afford, success is your only option. Here you’ll learn how to tap into that Power of Broke to scrape, hustle, and dream your way to the top.
