Using Cognitive and Affective Metrics in Educational Simulations and Games Harold F. O'Neil, Eva L. Baker, Ray S. Perez, Stephen E. Watson, 2021-05-17 Presenting original studies and rich conceptual analyses, this volume explores how cognitive and affective metrics can be used to effectively assess, modify, and enhance learning and assessment outcomes of simulations and games used in education and training. The volume responds to the increasing use of computer-based simulations and games across academic and professional sectors by bringing together contributions from different research communities, including K-12 and postsecondary education, medical, and military contexts. Drawing on empirical results, the chapter authors focus on the design and assessment of educational simulations and games. They describe how quantitative and qualitative metrics can be used effectively to evaluate and tailor instructional resources to the cognitive and affective needs of the individual learner. In doing so, the volume enhances understanding of how games and simulations can intersect with the science of learning to improve educational outcomes. Given its rigorous and multidisciplinary approach, this book will prove an indispensable resource for researchers and scholars in the fields of educational assessment and evaluation, educational technology, military psychology, and educational psychology.

The Penguin Book of Card Games David Parlett,2008-08-07 The Penguin Book of Card Games is the authoritative up-to-date compendium, describing an abundance of games to be played both for fun and by serious players. Auctions, trumpless hands, cross-ruffing and lurching: card players have a language all of their own. From games of high skill (Bridge) to games of high chance (Newmarket) to trick-taking (Whist) and banking (Pontoon), David Parlett, seasoned specialist in card games, takes us masterfully through the countless games to choose from. Not content to merely show us games with the conventional fifty-two card pack, Parlett covers many games played with other types of cards - are you brave enough to play with Tarot? With a 'working description' of each game, with the rules, variations and origins of each, as well as an appendix of games invented by the author himself, The Penguin Book of Card Games will delight, entertain and inform both the novice and the seasoned player.

Transforming East Asian Domestic and International Politics: The Impact of Economy and Globalization Robert W Compton,2018-02-05 This title was first published in 2002: This text attempts to bridge the gap between international relations and comparative politics, with particular reference to East Asia. The book begins with an exploration of the theme of globalization and the impact it has on the conduct of international relations and the process of domestic politics. It discusses the fact that domestic actors are unable to assume an insular political environment as previously, referring to the

constant reception of stimuli which force adjustments to approaches in the conduct of domestic and international affairs. Globalization's ubiquitous presence reflects a changed reality for both state and non-state actors - no policy-maker can afford to ignore or underemphasize its role in shaping or altering the course of public

Quelle a été son évolution depuis 1907 ? Et le fameux challenge Cointreau qui fut créé en 1905... savez-vous pourquoi il fut mis en place depuis la région parisienne ? Savez-vous également ce que signifie faire bibi goulène à la boule de fort, qui est M. Paul Cardi, qui furent les vainqueurs du Challenge Bigeard en 1956 ? Cet ouvrage va vous faire découvrir, ou redécouvrir pour les amateurs éclairés, le monde de la boule de fort, sa fédération, son vocabulaire, ses challenges et ses sociétés (leur vie et les autres jeux qui s'y pratiquent).
