Teaching Music Improvisation with Technology Michael Fein, 2017 Incorporating technology in music classrooms can take the mystery out of improvisation. What music technology does is establish a strong foundation for chord, scale, phrase, ear training, and listening exercises, creating a solid backdrop for student expression. As author and educator Mike Fein shows, technology is a valuable tool that can be used effectively to supplement student practice time while also developing the skills necessary to become a proficient improviser. Complete with notated exercises, accompaniment tracks, and listening resources, this book gives teachers methods to set their students free to make mistakes and to develop their own ear for improvisation at their own pace. Broken down into significant areas of music technology, each chapter focuses on developing a new skill and guides readers to tangible outcomes with the assistance of hands-on activities that can be immediately implemented into the classroom. In addition to these hands-on activities, each chapter provides the reader with an iPad Connection to various iOS applications, which allows teachers and students another, albeit significantly less expensive, medium through which to learn, share, and create art. This book will appeal to music educators of students in grades K-12. It will serve collegiate music education courses secondarily, and will also appeal to those music educators who work with improvisation and technology.

The Richard Rodgers Reader Geoffrey Block, 2006 Richard Rodgers was one of America's most prolific and best-loved composers. A world without My Funny Valentine, The Lady is a Tramp, Blue Moon, and Bewitched, to name just a few of the songs he wrote with Lorenz Hart, is scarcely

imaginable, and the musicals he wrote with his second collaborator, Oscar Hammerstein--Oklahoma!, Carousel, South Pacific, The King and I, and The Sound of Music--continue to enchant and entertain audiences. Arranged in four sections, Rodgers and Hart (1929-1943), Rodgers and Hammerstein (1943-1960), Rodgers After Hammerstein (1960-1979), and The Composer Speaks (1939-1971), The Richard Rodgers Reader offers a cornucopia of informative, perceptive, and stylish biographical and critical overviews. It also contains a selection of Rodgers's letters to his wife Dorothy in the 1920s, the 1938 Time magazine cover story and New Yorker profiles in 1938 and 1961, and essays and reviews by such noted critics as Brooks Atkinson, Eric Bentley, Leonard Bernstein, Lehman Engel, Walter Kerr, Ken Mandelbaum, Ethan Mordden, George Jean Nathan, and Alec Wilder. The volume features personal accounts by Richard Adler, Agnes de Mille, Joshua Logan, Mary Martin, and Diahann Carroll. The collection concludes with complete selections from more than thirty years of Rodgers's own writings on topics ranging from the creative process, the state of the Broadway theater, even Rodgers's bout with cancer, and a generous sample from the candid and previously unpublished Columbia University interviews. For anyone wishing to explore more fully the life and work of a composer whose songs and musicals have assumed a permanent--and prominent--place in American popular culture, The Richard Rodgers Reader will offer endless delights.
