Zone Offense Ken Shields, del Harris, 2015-10-15 Del Harris and Ken Shields have proven to be a great team. This book will help coaches at all levels attack Zone Defenses better.- Mike Krzyzewski, Duke University Head Coach; distinguished member of the Naismith Memorial Basketball Hall of Fame (2001) You will be amazed at the depth of the coverage of the topic of Zone Offense in Del and Ken's great book. It has something for coaches at all levels.- John Calipari, University of Kentucky Head Coach, distinguished member of the Naismith Memorial Basketball Hall of Fame (2015) with Del Harris, announced as a 2019 recipient of the John W. Bunn Lifetime Achievement Award; recipient of the 2017 NABC International Lifetime Achievement Award; Jerry Colangelo Award (2010 NBA All-Star Game by Athletes in Action/AIA); John Wooden 'Keys to Life Award' (2014 Final Four by AIA & Fellowship of Christian Athletes/FCA); former NBA Coach (Houston Rockets, Milwaukee Bucks and the Los Angeles Lakers); 1995 NBA Coach of the Year; Over 500 career victories; Internationally he has coached with the national teams of Puerto Rico, Canada, the United States, the Dominican Republic and China. His teams won six medals in World Competition (two golds, a silver and three bronze medals); and Ken Shields, former University of Victoria Head Men's Basketball Coach; won seven consecutive National Championships and four CAU Coach of the Year awards; was appointed as a Member of the Order of Canada in 1998, and received The Dr. James Naismith Award of Excellence for his contribution to Basketball in Canada in 2007. Master Coach certificate (Coaching Association of Canada); Canadian Basketball Hall of Fame (1999); BC Sports Hall of Fame; Canadian Sports Hall of Fame; established the University of Victoria's National Coaching Institute; founding president of the Commonwealth Centre for Sport Development Never before has there been a book compiled that presents this much material on the zone offense for basketball. Coaching legends Del Harris and Ken Shields cover the basic information needed for novice coaches, as well as a plethora of advanced material for the highest level coaches. The first six chapters start with putting one's toe in the water and gradually takes one waist deep or better in the process. It has specific approaches to attack every zone defense style including the vaunted match-up zone defense, and has drills for the youth coach, as well as for the advanced coach. Harris and Shields dedicate one chapter to zone attacks from NCAA and European coaches. You'll get plays from Steve Alford, John Calipari, Mike Krzyzewski, Sean Miller, Bo Ryan, Bill Self, Zeljko Obradovic, Dave Blatt, and more. Regardless of the level that you coach from beginner to the NBA, this book will enhance your knowledge of zone offense and help you become a better zone coach! An absolute must for basketball players and their team coaches, *Attacking the Zone Defenses* is as informed and informative as it is impressively 'user friendly' in tone, content, organization and presentation. Of special note is the chapter dedicated to Drills for Teaching Zone Offense. Simply stated, *Attacking the Zone Defenses* should be considered an essential, core addition to personal, high school, college, university, and professional basketball instructional reference collections and supplemental studies reading lists. - Midwest Book Review

Undue Process Don Yaeger, 1991 Based on 300 hours of interviews with coaches, athletic directors, student-athletes, and NCAA officials, *Undue Process* examines the NCAA's system of justice -- the organization's history and its growth in power over the years, the lack of due process for its accused, its guilty-until-proven-innocent attitude, and its 100 percent conviction rate.

A History of Lay Judges John Philip Dawson, 1999 Dawson, John P. *A History of Lay Judges*. Cambridge, Mass.: Harvard University Press, 1960. viii, [2], 310 pp. Reprinted 1999 by The Lawbook Exchange, Ltd. LCCN 98-50812. ISBN 1-886363-69-2. Cloth. \$75. * An analysis of the divergent legal systems in England, France, Germany and Rome showing the relationship of the courts to the community, the legal structure and political organizations. The work examines the evolution of medieval French and German courts from the Roman canonist system. This study also explores the role of the local courts in England and examines in detail the workings and influence of a typical manor court, Redgrave, in Suffolk, England, (which

was owned by Sir Nicholas Bacon, the father of Sir Francis Bacon) for the period up to 1711. Extensive notes, indexed. Scholars interested in the roots of the modern political structures in Europe will find this work of supreme benefit.

The Relevance of International Adjudication Milton Katz, 1968 It has been an ancient and tenacious human hope that mankind could apply to the no man's land between states the experience of domestic law in curbing violence and settling disputes. Within a society, the use of law to resolve disputes and contain violence centers in the courts and the police. Men anxious to restrain international aggression and settle international disputes peaceably have long sought to invoke international policing and adjudication under law. Twice within the past half-century, they have undertaken to build worldwide organizations to keep the peace. The United Nations system assigns a critical role to adjudication under the Charter and international law. In this book, one of America's foremost legal scholars, who has extensive experience in foreign policy, administration, and international law, explores whether and to what extent decisions by international tribunals have been significant, or may yet be significant, for the settlement of international disputes. Mr. Katz believes that adjudication as an institution ranks among the great creative achievements of mankind, but it has its limitations--limits both in current practice and in its potential scope. In presenting his argument; Mr. Katz concentrates upon the period since the end of World War II and deals primarily with international conflict within the experience of the United Nations and the International Court of Justice. He focuses on disputes resulting from the Cold War and on those between established industrial states and newly emerging states or peoples that have not yet attained a full measure of self-government. In examining what happened and appraising what might have happened; Mr. Katz keeps the reader constantly aware of the many meanings of law; and of the need to sort out the different meanings in order to apply law effectively. Without an understanding of the effective reach and the limits of adjudication; he insists; we will waste opportunities for settling international controversies. We can waste opportunities by failing to use international tribunals where they can be effective; we can dissipate the precious resource of adjudication in wishful misapplications; and in misapplying adjudication; we can divert our attention from other ways and means more pertinent to the settlement of particular international disputes.

Contemporary Chinese Law Jerome Alan Cohen, 2013-10 Recently scholars have become increasingly aware that the study of Chinese law can provide new insight into the forces actually at work in Chinese society in different epochs. In an effort to encourage and facilitate the study of this subject, the thirteen essays of this volume deal with the methodology of studying the legal system of the People's Republic, describe the available research materials, and analyze the problems presented in making the materials of Chinese law intelligible to Western readers. They also review foreign works on Chinese law and explore the difficulties involved in translation and in comparing the Chinese system to our own and to that of the Soviet Union. Mr. Cohen's thoughtful introduction provides an excellent survey of the worldwide development of studies of Chinese law. It also delineates the nature of the essays that he and the eleven other scholars have contributed to the volume.

Lynching and the Law James Harmon Chadbourn, 2008 This title was issued under the auspices of the Southern Commission on the Study of Lynching. A work of great authority because it was produced by Southern jurists, it was cited frequently in the 1932 Senate hearings on lynching. Its

conclusions are based in part on a comprehensive survey of over 3,700 lynchings, mostly of African-Americans, between 1889 and 1932. Chadbourn also asked 1,000 prominent Southern lawyers and legislators how they would prevent the practice. Using this data he proposes a model lynching law. This excellent monograph and the proposed statute have unusual significance in view of the present possibility of further state and national legislation dealing with this urgent problem.: H.C. Brearley, *Social Forces* 12 (1933-34) 610.
