Art with an iPhone , 2015-12-21 iPhone boasts a powerful and highly capable camera that is always at the ready, allowing you to document the people, places, and things that surround you. Kat Sloma teaches you how to harness natural light, both indoors and out, to create high-quality images—and then she details some of the amazing, inexpensive, and powerful apps that can be used to finesse every aspect of the image—from capture to output. You'll learn how to choose and use apps that mimic the controls offered on professional-level cameras to take control over focus and exposure. You'll

Of course, you'll also delve into the myriad apps on the market that will allow you to manipulate color and contrast, add special effects, and implement image-editing strategies that were once the exclusive domain of professional editing programs aimed at serious professional photographers and graphic designers.

The iPhone Photography Book Scott Kelby,2021-02-05 **Learn to take great photos with your iPhone—the camera you always have with you!**

Imagine if someone took the same photographic techniques, principles, and tools used by high-end and professional photographers, but applied them to shooting with an iPhone. Imagine the type of images you'd be able to create using those same ideas. Well, finally, somebody has.

The world's #1 best-selling photography techniques author is about to break all the rules as he shows you how to apply the same techniques today's top pro photographers use to make stunning images. You're going to learn exactly how to use these techniques to create images that people will just not believe you could actually take with a phone (but with the quality of the iPhone's camera, you absolutely can!).

Scott leaves all the techno-speak behind and, instead, treats the whole book as if it were just you and he out on a shoot with your iPhones, using his trademark casual, plain-English writing style to help you unlock the power of

your iPhone to make the type of pictures you never thought could be done with a phone. You'll learn:

- Which tools to use to make pro-quality portraits in any lighting situation.
- How to create stunning landscape shots that people will swear you took with an expensive DSLR or mirrorless camera.
- Proven posing techniques that flatter your subject and make anyone you photograph look their very best in every shot.
- How to organize and edit your photos like a pro!
- The pros' top tips for making amazing shots of everything from flowers to product shots, from food photography to travel shots, and everything in between.

Each page covers a single concept, a single tool, or a trick to take your iPhone photography from snapshots to shots that will make your friends and family say, "Wait...*you* took this?!"

Words Without Pictures Charlotte Cotton, Alex Klein, 2010 Words Without Pictures was originally conceived of by curator Charlotte Cotton as a means of creating spaces for thoughtful and urgent discourse around current issues in photography. Every month for a year, beginning in November 2007, an artist, educator, critic, art historian, or curator was invited to contribute a short, un-illustrated, and opinionated essay about an aspect of photography that, in his or her view, was either emerging or in the process of being rephrased. Each piece was available on the Words Without Pictures website for one month and was accompanied by a discussion forum focused on its specific topic. Over the course of its month-long life, each essay received both invited and unsolicited responses from a wide range of interested parties students, photographers active in the commercial sector, bloggers,

critics, historians, artists of all kinds, educators, publishers, and photography enthusiasts alike all coming together to consider the issues at hand. All of these essays, responses, and other provocations are gathered together in a volume designed by David Reinfurt of Dexter Sinister. Previously issued as a print-on-demand title, Aperture is pleased to present Words Without Pictures to the trade for this first time as part of the Aperture Ideas series.

Touch Laura U. Marks, 2002 In Touch, Laura U. Marks develops a critical approach more tactile than visual, an intensely physical and sensuous engagement with works of media art that enriches our understanding and experience of these works and of art itself. These critical, theoretical, and personal essays serve as a guide to developments in nonmainstream media art during the past ten years -- sexual representation debates, documentary ethics, the shift from analog to digital media, a new social obsession with smell. Marks takes up well-known artists like experimental filmmaker Ken Jacobs and mysterious animators the Brothers Quay, and introduces groundbreaking, lesser-known film, video, and digital artists. From this emerges a materialist theory -- an embodied, erotic relationship to art and to the world. Marks's approach leads to an appreciation of the works' mortal bodies: film's volatile emulsion, video's fragile magnetic base, crash-prone Net art; it also offers a productive alternative to the popular understanding of digital media as virtual and immaterial. Weaving a continuous fabric from

philosophy, fiction, science, dreams, and intimate experience, Touch opens a new world of art media to readers.

Hong Kong Parr Martin Parr, 2014-10 Hong Kong Parr is a new publication by award winning photographer Martin Parr, to coincide with his first solo exhibition in Hong Kong at Blindspot Gallery. Parr's photographs of the city, taken in 2013, capture the barrage of fashion, food and colour in Hong Kong, one of the most densely populated cities in the world. Known for his satirical and humorous social documentary on modern life, this new project continues Parr's examination of consumption, leisure, food culture and eccentricity. From Mainland tourists in Hong Kong's shopping districts, locals at the racecourse and ballroom, to raw food in the wet market, Parr captures the intensity of urban life in Hong Kong in an assault of food, fashion and colour. The photographs in this book were commissioned by Blindspot Gallery. Exhibition: Blindspot Gallery, Hong Kong, China, (06.09-01.11.2014).

Materialities of Communication Hans Ulrich Gumbrecht, 1988 The essays in this volume refers to an epistemological borderline, a stage of transition in Western thought. Within the academic field of the humanities, this transition can be described as a movement away from the identification of meaning toward problems concerning the conditions and forms of meaning-constitution.

historical meaning of the MP3, the world's most common format for recorded audio, involves rethinking the place of digital technologies in the broader universe of twentieth-century communication history.

Cinema in the Digital Age Nicholas Rombes, 2017-12-19 Have digital technologies transformed cinema into a new art, or do they simply replicate and mimic analogue, film-based cinema? Newly revised and expanded to take the latest developments into account, *Cinema in the Digital Age* examines the fate of cinema in the wake of the digital revolution. Nicholas Rombes considers *Festen* (1998), *The Blair Witch Project* (1999), *Timecode* (2000), *Russian Ark* (2002), and *The Ring* (2002), among others. Haunted by their analogue pasts, these films are interested not in digital purity but rather in imperfection and mistakes—blurry or pixilated images, shaky camera work, and other elements that remind viewers of the human behind the camera. With a new introduction and new material, this updated edition takes a fresh look at the historical and contemporary state of digital cinema. It pays special attention to the ways in which nostalgia for the look and feel of analogue disrupts the aesthetics of the digital image, as well as how recent films such as *The Social Network* (2010) and *The Girl with the Dragon Tattoo* (2011)—both shot digitally—have disguised and erased their digital foundations. The book also explores new possibilities for writing about and theorizing film, such as randomization.

Make Beliefs William F. Zimmer,Bill Zimmerman,1994-10-01 This book poses a series of questions and situations to which the child can respond in an

imaginative way.

Contemporary Nostalgia Niklas Salmose, 2019-09-23 Some of the most pressing contemporary issues (ecological crisis, migration and integration, fragmented worldviews, social media, fake news, extremist politics and terrorism) can be understood more profoundly through how they interact with both individual and collective forces of nostalgia. Nostalgia is politics, but these politics are also interwoven with media and culture. Notwithstanding how nostalgia is used or contextualized in terms of politics and social practices, commodification or personal development, its power is primarily situated within its efficacy as a governing, influential human emotion. The vast and luminous contributions to this special issue on contemporary nostalgia are all investigating the role different aesthetic media formats (film, music, literature, computer games) plays in nostalgic negotiations with style, history, migration, love, nationalism, diaspora, irony, modernity, colonial and postcolonial discourses, and adoption. Mutually, these essays stand out as important, original, critical contributions to the expanding field of nostalgia studies and offer a valued insight on our world.
