The Younger Evangelicals Robert E. Webber, 2002-10-01 Robert E. Webber has led worship workshops in every major city in the United States and Canada. Through his conversations and contacts with a network of emerging church leaders he calls the younger evangelicals, Webber sees how this new generation and their style of leadership is bringing change and renewal to the evangelical church. These leaders, who include those young in spirit as well as young in age, have important insights to offer all generations faced with doing church in a rapidly changing postmodern culture. *The Younger Evangelicals* explores the characteristics of these emerging leaders and provides an outlet for their stories. Beginning with a brief overview of twentieth-century evangelicalism, Webber examines what is different about the twenty-first century younger evangelicals' way of thinking about faith and practicing church. He allows them-Ph.D.s and laypeople-to speak in their own words on issues such as communication, theology, apologetics, pastoral leadership, evangelism, worship, and spiritual formation. Thought provoking, energizing, and timely, *The Younger Evangelicals* is a landmark book for pastors and church leaders, culture watchers, ministry students, and worship leaders who want to prepare for and respond to the new

evangelical awakening brought on by our changing cultural context.

**Me, Myself, & Bob** Phil Vischer, 2008-02-03 This is a story of dreaming big and working hard, of spectacular success and breathtaking failure, of shouted questions, and, at long last, whispered answers. With trademark wit and heart, Phil Vischer shares how God can use the death of a dream to point us toward true success. Larry. Bob. Archibald. These VeggieTales stars are the most famous vegetables you'll ever eat. Oops, meet. Their antics are known around the world. But so much of the VeggieTales story hasn't been told. In *Me, Myself, and Bob*, Phil Vischer, founder of Big Idea and creator of VeggieTales, gives a behind-the-scenes look at his not-so-funny journey with the loveable veggies. From famed creator to bankrupt dreamer, Vischer shares his story of trial and ultimate triumph as God inspired him with one big idea after another.

**Sense and Goodness Without God** Richard Carrier, 2005-02-23 If God does not exist, then what does? Is there good and evil, and should we care? How do we know what's true anyway? And can we make any sense of this universe, or our own lives? *Sense and Goodness* answers all these questions in lavish detail, without complex jargon. A complete worldview is presented and defended, covering every subject from knowledge to art, from metaphysics to morality, from theology to politics. Topics include free will, the nature of the universe, the meaning of life, and much more, arguing from scientific evidence that there is only a physical, natural world without gods or spirits, but that we can still live a life of love, meaning, and joy.

**Fanfiction and the Author** Judith Fathallah, 2017 Whether you look at quantity, quality, or readership, we are in an unprecedented era of fan fiction. Thus far, however, the genre has been subject to relatively little rigorous qualitative or quantitative study--a problem that Judith May Fathallah remedies here through close analysis of fanfiction related to *Sherlock*, *Supernatural*, and

Game of Thrones. Her large-scale study of the sites, receptions, and fan rejections of fanfic demonstrate how it often legitimates itself through traditional notions of authorship even as its explicit discussion and deconstruction of the author figure contests traditional discourses of authority and opens new spaces for writing that challenges the authority of media professionals.

**Twelve Years a Slave** Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by

Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Locke in America Jerome Huyler, 1995 An account of the link between Locke's thought and the American Founding. The author argues that previous writers have misread Locke's influence on the Founders: he portrays the philosopher as a moderate 17th-century moralist advocating an individualism that fits well with classic republicanism.

*From the Campfire to the Holodeck* David Thornburg, 2013-10-21 How to optimize educational spaces and teaching practices for more effective learning Author David Thornburg, an award-winning futurist and educational consultant, maintains that in order to engage all students, learning institutions should offer a balance of Campfire spaces (home of the lecture), Watering Holes (home to conversations between peers), Caves (places for quiet reflection), and Life (places where students can apply what they've learned). In order to effectively use technology in the classroom, prepare students for future careers, and incorporate project-based learning, all teachers should be moving from acting as the sage on the stage to becoming the guide on the side. Whether you are a school administrator interested in redesigning your school or a teacher who wants to prepare better lessons, *From the Campfire to the Holodeck* can help by providing insight on how to: Boost student engagement Enable project-based learning Incorporate technology into the classroom Encourage student-led learning *From the Campfire to the Holodeck* is designed to help schools move from traditional lecture halls (Campfires) where students just receive information to schools that

encourage immersive student-centered learning experiences (Holodecks).

**Smaller Faster Lighter Denser Cheaper** Robert Bryce, 2014-05-13 In the face of today's environmental and economic challenges, doomsayers preach that the only way to stave off disaster is for humans to reverse course: to de-industrialize, re-localize, ban the use of modern energy sources, and forswear prosperity. But in this provocative and optimistic rebuke to the catastrophists, Robert Bryce shows how innovation and the inexorable human desire to make things Smaller Faster Lighter Denser Cheaper is providing consumers with Cheaper and more abundant energy, Faster computing, Lighter vehicles, and myriad other goods. That same desire is fostering unprecedented prosperity, greater liberty, and yes, better environmental protection. Utilizing on-the-ground reporting from Ottawa to Panama City and Pittsburgh to Bakersfield, Bryce shows how we have, for centuries, been pushing for Smaller Faster solutions to our problems. From the vacuum tube, mass-produced fertilizer, and the printing press to mobile phones, nanotech, and advanced drill rigs, Bryce demonstrates how cutting-edge companies and breakthrough technologies have created a world in which people are living longer, freer, healthier, lives than at any time in human history. The

push toward Smaller Faster Lighter Denser Cheaper is happening across multiple sectors. Bryce profiles innovative individuals and companies, from long-established ones like Ford and Intel to upstarts like Aquion Energy and Khan Academy. And he zeroes in on the energy industry, proving that the future belongs to the high power density sources that can provide the enormous quantities of energy the world demands. The tools we need to save the planet aren't to be found in the technologies or lifestyles of the past. Nor must we sacrifice prosperity and human progress to ensure our survival. The catastrophists have been wrong since the days of Thomas Malthus. This is the time to embrace the innovators and businesses all over the world who are making things Smaller Faster Lighter Denser Cheaper.
