**Nancy Ross Hugo**

*Seeing Trees* Nancy Ross Hugo, 2011-08-09 Have you ever looked at a tree? That may sound like a silly question, but there is so much more to notice about a tree than first meets the eye. *Seeing Trees* celebrates seldom-seen but easily observable tree traits and invites you to watch trees with

**Seeing Flowers** Teri Dunn Chace, 2013-09-24 We've all seen red roses, blue irises, and yellow daffodils. But when we really look closely at a flower, whole new worlds of beauty and intricacy emerge. Using a unique process that far surpasses conventional macro photography, Robert Llewellyn shows us details that few of us have ever seen: the amazing architecture of stamens and pistils; the subtle shadings on a petal; the secret recesses of nectar tubes. Complementing Llewellyn's stunning photographs are Teri Dunn Chace's lyrical, illuminating essays. By highlighting the features that distinguish twenty-eight of the most common families of flowering plants, Chace gives us fascinating insights into the natural history of flowers, such as the relationship between pollinators and floral form and color. At the same time she gives us a deeper appreciation of why and how flowers have become so deeply embedded in human culture. Whether you're a nature lover, a gardener, a photography buff, or someone who simply responds to the timeless beauty and variety of the floral world, *Seeing Flowers* will be a source of enduring delight.

*Trees Up Close* Nancy Ross Hugo, 2014-07-23 *Trees Up Close* offers an intimate, revealing look at the beauty of leaves, flowers, cones, fruits, seeds, buds, bark, and twigs of the most common trees. With more than 200 dazzling photos, you will be amazed by the otherworldly beauty of the acorns from a sawtooth oak, enchanted by the immature fruits of a red maple, and dazzled by the delicate

emerging flowers of the American elm.

*Divining, A Memoir in Trees* Maureen

Dunphy, 2023-02-21 Essays exploring the intimate yet universal intersection of one human life with trees.

**Library Lin's Curated Collection of Superlative Nonfiction** Linda Maxie, 2022-05-05 Trust a librarian to help you find books you'll want to read Library Lin's Curated Collection of Superlative Nonfiction is a librarian's A-list of nonfiction books organized by subject area—just like a library. Linda Maxie (Library Lin) combed through 65 best books lists going back a century. She reviewed tens of thousands of books, sorted them according to the Dewey Decimal Classification system, and selected an entire library's worth for you to browse without leaving home. Here you'll find • Summaries of outstanding titles in every subject • Suggestions for locating reading material specific to your needs and interests In this broad survey of all the nonfiction categories, you will find titles on everything from the A-bomb to Zen Buddhism. You might find yourself immersed in whole subject areas that you never thought you'd be interested in.

*Cutting-Edge Patterns and Textures* Estel

Vilaseca, 2008-04-01 113 unique and original patterns After a goldmine of cultural and subconscious information, the history of patterns parallels and informs the history of humanity. After decades of modern minimalism and clear lines, people are enjoying a return to more playful design, rich in colors and textures. Pattern-making and pattern design, in particular, has made a major comeback as a way to embellish a surface with their use often displaying unexpected depths. Indeed, we have witnessed a revival in enriched, traditional motifs, and seen them applied in thought-provoking ways, in an unlimited variety of designs and textures. The use of new computer technologies has

brought about surprising, often intricate results, on an aesthetic as well as conceptual level. In the most recent years, counter reactions to that which is digital, are visible in the work of crafty designers who embrace illustration and a hand-made, do-it-yourself aesthetic, while taking full advantage of the versatility and speed computer programs can afford them. *Cutting-Edge Patterns and Textures* is a stimulating book featuring full-page, color images of inspired patterns and boasts an eclectic array of styles from all around the world. This book is destined to become a desktop reference for professional and amateur designers alike.

Wise Trees Diane Cook, Len Jenshel, 2017-10-17

Leading landscape photographers Diane Cook and Len Jenshel present *Wise Trees*—a stunning photography book containing more than 50 historical trees with remarkable stories from around the world. Supported by grants from the Expedition Council of the National Geographic Society, Cook and Jenshel spent two years traveling to fifty-nine sites across five continents to photograph some of the world's most historic and inspirational trees. Trees, they tell us, can live without us, but we cannot live without them. Not only do trees provide us with the oxygen we breathe, food gathered from their branches, and wood for both fuel and shelter, but they have been essential to the spiritual and cultural life of civilizations around the world. From Luna, the Coastal Redwood in California that became an international symbol when activist Julia Butterfly Hill sat for 738 days on a platform nestled in its branches to save it from logging, to the Bodhi Tree, the sacred fig in India that is a direct descendent of the tree under which Buddha attained enlightenment, Cook and Jenshel reveal trees that have impacted and shaped our lives, our traditions, and our feelings about nature. There are also

survivor trees, including a camphor tree in Nagasaki that endured the atomic bomb, an American elm in Oklahoma City, and the 9/11 Survivor Tree, a Callery pear at the 9/11 Memorial. All of the trees were carefully selected for their role in human dramas. This project both reflects and inspires awareness of the enduring role of trees in nurturing and sheltering humanity. Photographers, environmentalists, history buffs, and nature-lovers alike will appreciate the extraordinary stories found within the pages of *Wise Trees*!

**Seeing Seeds** Teri Dunn Chace, Robert

Llewellyn, 2015-08-26 “Llewellyn’s images reflect a depth of detail that until now, only the best botanical illustrators could approach.” —The Washington Post A centuries-old saying goes, “Great oaks from little acorns grow.” But as this dazzling book reveals, there is much more to a seed than the plant it will someday become: seeds, seedheads, pods, and fruits have their own astounding beauty that rivals, and sometimes even surpasses, the beauty of flowers. Bitter melon seeds resemble a handful of rubies. Poppy pods could be art nouveau salt shakers. And butterfly vine seeds look exactly like those delicate insects captured in mid-flight. Seeds also come with fascinating stories. Jewels of Opar got its name from a fabled city in Edgar Rice Burroughs’s Tarzan stories. Lotus seeds sent into orbit by Chinese scientists came back to earth mysteriously altered. And fava beans—beloved of foodies—have a Jekyll-and-Hyde personality: they can cause the debilitating condition known as favism in some individuals and at the same time combat the microorganism that causes malaria. In these stunning pages you’ll gain an understanding of how seeds are formed and dispersed, why they look the way they do, and how they fit into the environment. *Seeing Seeds* will take

you to strange and wonderful places. When you return, it's safe to say that you'll never look at a seed the same way again.

Remarkable Trees of Virginia Nancy R. Hugo, Jeffrey Lynn Kirwan, 2008 Here you will find not only some of Virginia's largest trees, including a newly discovered national champion overcup oak in Isle of Wight County, but also some of the state's oldest trees, including baldcypress trees over 800 years old in Southampton County and red cedars over 450 years old in Giles. You will find unique trees like a willow oak in which a tricycle is embedded, find specimens like the massive American beech in front of Sleepy Hollow Methodist Church in Falls Church, and outrageously shaped trees, like the water tupelos in the Cypress Bridge area of Southampton County. You will find trees associated with famous people and events, but you'll also find trees associated with ordinary people in extraordinary ways. Perhaps best of all, you'll learn about communities that have gone to great lengths to protect their trees and about places where the public can visit some of the best trees and treescapes in the state.--BOOK JACKET.

*The Year's Best Science Fiction: Nineteenth Annual Collection* Gardner Dozois, 2002-07-23 The twenty-first century has so far proven to be exciting and wondrous and filled with challenges we had never dreamed. New possibilities previously unimagined appear almost daily . . . and science fiction stories continue to explore those possibilities with delightful results: Collected in this anthology are such compelling stories as: On K2 with Kanakaredes by Dan Simmons. A relentlessly paced and absorbing tale set in the near future about three mountain climbers who must scale the face of K2 with some very odd company. The Human Front by Ken MacLeod. In this

compassionate coming-of-age tale the details of life are just a bit off from things as we know them-and nothing is as it appears to be. *Glacial* by Alastair Reynolds. A fascinating discovery on a distant planet leads to mass death and a wrenching mystery as spellbinding as anything in recent short fiction. The twenty-six stories in this collection imaginatively takes us far across the universe, into the very core of our beings, to the realm of the gods, and the moment just after now. Included here are the works of masters of the form and of bright new talents, including: Eleanor Arnason Chris Beckett Michael Blumlein Michael Cassutt Brenda W. Clough Paul Di Filippo Andy Duncan Carolyn Ives Gilman Jim Grimsley Simon Ings James Patrick Kelly Leigh Kennedy Nancy Kress Ian R. MacLeod Ken MacLeod Paul J. McAuley Maureen F. McHugh Robert Reed Alastair Reynolds Geoff Ryman William Sanders Dan Simmons Allen M. Steele Charles Stross Michael Swanwick Howard Waldrop Supplementing the stories are the editor's insightful summation of the year's events and a lengthy list of honorable mentions, making this book a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart.

*Love, Lucas* Chantele Sedgwick, 2015-05-05 A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom

in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

**My First Summer in the Sierra** John Muir, 1911 John Muir, a young Scottish immigrant, had not yet become a famed conservationist when he first trekked into the foothills of the Sierra Nevada, not long after the Civil War. He was so captivated by what he saw that he decided to devote his life to the glorification and preservation of this magnificent wilderness. *My First Summer in the Sierra*, whose heart is the diary Muir kept while tending sheep in

Yosemite country, enticed thousands of Americans to visit this magical place, and resounds with Muir's regard for the divine, enduring, unwasteable wealth of the natural world. A classic of environmental literature, *My First Summer in the Sierra* continues to inspire readers to seek out such places for themselves and make them their own.

**The Mushroom at the End of the World** Anna

Lowenhaupt Tsing, 2017-09-19 What a rare mushroom can teach us about sustaining life on a fragile planet *Matsutake* is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, *matsutake* helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, *matsutake* offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of *matsutake* commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.

**No Logo** Naomi Klein, 2000-01-15 What corporations

fear most are consumers who ask questions. Naomi Klein offers us the arguments with which to take on the superbrands. Billy Bragg from the bookjacket.

**Earth Works** Nancy Ross Hugo, 1997-10 In *Earth Works*, award-winning columnist Nancy R. Hugo presents a month-by-month, season-by-season exploration of the pleasures and pains of gardening in the mid-Atlantic. Readers familiar with her columns in the *Richmond Times-Dispatch* and *Virginia Wildlife* will welcome this collection of her most popular essays, written in the characteristic conversational style that has made her a regional favorite. *Earth Works* has a wealth of helpful hints and seasonal advice for both experienced and beginning gardeners, from how to attract butterflies and discourage Japanese beetles to when to prune; from how to move big trees to how to propagate a legacy rose. This book offers something for every backyard gardener and will be treasured year-round by enthusiasts looking for much-needed seasonal tips, as well as by snowbound readers longing for a reminder of the warmer days to come.

**Julia Margaret Cameron's Women** Sylvia Wolf, Julia Margaret Cameron, Stephanie Lipscomb, Debra N. Mancoff, Phyllis Rose, San Francisco Museum of Modern Art, 1998-01-01 Profiles the life and work of a nineteenth century pioneer of photography and offers a selection of her portraits of women

**I Gave My Heart to Know this** Ellen Baker, 2011 Decades after the women in her family and their friend are shattered by the losses of two beloved men during World War II, Julia is approached by her long-lost great-grandmother and untangles a dark secret. By the award-winning author of *Keeping the House*.

*Myths and Legends of Flowers, Trees, Fruits and Plants* Charles M. Skinner, 2013-04-16 Originally published

in 1911, this early work by Charles M. Skinner is both expensive and hard to find in its first edition. It delves deep into the mythology of the natural world and uncovers legends of times long forgotten. This is a fascinating work and highly recommended for all folklore enthusiasts. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Missamore, Desirae Negron, Marcus Plumlee, Emily Grace Sarver-Wolf, Lesley Sneed, Cassie Walters, Lucy Weakley, 2011 In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of Where I'm From poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. I am proud that they were my students and I am very proud that together we produced this record of contemporary Appalachian Life -- Silas House
