Select Marit Weisenberg, 2017-10-03 A modern-day young adult retelling of Romeo and Juliet, with a supernatural twist that will appeal to fans of Ally Condie's Matched and Kiera Cass' The Selection Julia Jaynes has the perfect life. The perfect family. The perfect destiny. The daughter of a billionaire investor in Austin, Texas, it looks like Julia has it all. But there's something rotten beneath the surface—dangerous secrets her father is keeping; abilities she was never meant to have; and an elite society of highly evolved people who care nothing for the rest of humanity. So when Julia accidentally jeopardizes the delicate anonymity of her people, she's banished to the one place meant to make her feel inferior: public high school. Julia's goal is to lay low and blend in. Then she meets him—John Ford. He's popular, quiet, intense, and strangely compelling. Then Julia discovers she can read his mind and her world expands. Their forbidden love is powerful enough to break the conditioning that has kept Julia in the cold grip of her manipulative father. For the first time, Julia develops a sense of self and questions her restrictive upbringing and her family prejudices. She must decide how she will define herself—and whom she will betray.

**Select Few** Marit Weisenberg, 2018-10-09 After rejecting the cult-like influence of her father's family, Julia moves into a fancy hotel in downtown Austin. But she finds herself alone except for her boyfriend, John—and her fears. Once again she's suppressing her abilities, afraid her family will come for John when they find out he's been developing abilities of his own in her presence. The FBI is also keeping a close eye on Julia hoping she can lead them to her father, Novak, as he's wanted for questioning in his former assistant's death. With tensions high, Julia and John agree to go separate ways for the summer, paving

the way for Julia to reunite with Angus, fellow outcast. Together they set out on a road trip to California to find Julia's mom and a way into Novak's secret underground world. Along the way Julia will learn the Puri perhaps aren't the only humans evolving into something different. . . and that maybe she's the leader her people have needed all along.

**The Right Way to Select Technology** Tony Byrne, Jarrod Gingras, 2017-09-12 Why do half of all technology projects fail? A major reason is that organizations often pick the wrong tools, leaving them digitally hamstrung from the start. This book offers a modern alternative to traditional waterfall approaches to selecting technology. You'll learn a practical, adaptive process that relies on realistic storytelling and hands-on testing to get the best fit for your enterprise.

*Pretty Tough Plants* Plant Select, 2017-05-03 Tough-but-beautiful plant picks There's a growing demand for dependably hardy plants that require less maintenance and less water, but look no less beautiful in the garden. Plant Select—the leading purveyor of plants designed to thrive in difficult climates—meets this need by promoting plants that allow gardeners everywhere to have stunning, environmentally-friendly gardens that use fewer resources. *Pretty Tough Plants* highlights 135 of Plant Select's top plant picks. Each profile features a color photograph and specific details about the plant's size, best features, and bloom season, along with cultural needs, landscape features, and design ideas. The plant list includes perennials and annuals, groundcovers, grasses, shrubs, and trees. A chart at the end of the book makes it easy to choose the right plants for specific conditions and needs.

**Select Documents on Japanese War Crimes and Japanese Biological Warfare, 1934-2006** , The enactment of the Japanese Imperial Government Disclosure Act (P.L.106-657) and the issuance of Executive Order 13110 (Jan. 11, 1999) aimed at making U.S. government records related to Japanese war crimes and war criminals in World War II more accessible. Records surveys implementing these requirements disclosed that there were relatively few remaining security-classified relevant documents waiting for disclosure. On the other hand, better identification of relevant documents and improved access to these records was a primary goal of the White House. The Interagency Working Group (IWG) staff took up the admonition from the National Security Advisor that "Agencies should bring to light hitherto unknown relevant unclassified or declassified records encountered in the course of the search for relevant classified records." In selecting documents, the IWG Staff focused on several subjects and topics that have longstanding interest and concerns for researchers: Japanese research and experiments in biological warfare (BW) Japanese instigation of biological warfare attacks in World War II Japanese biological warfare experiments on living humans and animals Japanese atrocities against prisoners of war Japanese atrocities against civilian populations Allied decisions to hold Japanese responsible for war crimes Allied decisions to hold war crimes trials Allied decision to consider Emperor Hirohito as a person responsible for war crimes Allied decisions to investigate specific Japanese scientists and military personnel for BW crimes American POWs held at Mukden POW Camp Hoten and any evidence of BW experiments on them Some subjects of current interest, such as "comfort women," were specifically searched for, but with little success. This collection will continue to expand as new documents are discovered.
