A Brief Guide to Self-Help Classics James M. Russell,2019-01-17 From Dale Carnegie's How to Win Friends and Influence People, published in 1936, which has sold over 30 million copies to date, to the mind management programme of Professor Steve Peters' The Chimp Paradox, a concise and insightful guide to seventy of the most influential self-help books ever published An entertaining, accessible companion, for readers of self-help books and sceptics alike. The titles include classics on achieving success, confidence and happiness, mindfulness, how to change your life, self-control, overcoming anxiety and self-esteem issues and stress relief. The chronological arrangement of the titles reveals the intriguing story of how early self-improvement titles were succeeded by increasingly personality-based, materialistic titles and shows how breakout classics often influenced other titles for decades to come. Each book is summarised to convey a brief idea of what it has to offer the interested reader, while a 'Speed Read' for each book delivers a quick sense of what each writer is like to read and a highly compressed summary of the main points of the book in question. This is a work of reference to dip into, that acknowledges that some of the most powerful insights into ourselves can be found in texts that aren't perceived as being 'self-help' books, and that wisdom and consolation can be found in the strangest places.

Self Help Books Vic Johnson,2012-07-01 Reviews: Pay attention to him and his material, you will be glad you did. Bob Proctor, best-selling author and star of The Secret. Description: It's vitally important that you read books. As Mark Twain wrote, The man who does not read good books has no advantage over the man who cannot read them. And many would agree that personal development books are the ones to focus on if you're trying to improve yourself, your position in life and your quality of life. But which ones should you read? There are tens of thousands to choose from. Vic Johnson, a veteran personal development author, speaker and trainer, answers that question for us in Self Help Books: The 101 Best Personal Development Classics. From an 1,100 page encyclopedia of success to a 28-page speech that became a classic more than a hundred years ago, Vic identifies the publication dates of the classics, the major theme(s) of the book and then some solid reasons to add them to your reading list. Along the way he also shares valuable anecdotes on his personal lessons learned from these authors (some of whom have mentored him). This is quick and easy reading that takes the guesswork out of choosing the books to add to your library as well as helping you prioritize your reading.

Sham Steve Salerno,2006-09-26 Self-help: To millions of Americans it seems like a godsend. To many others it seems like a joke. But as investigative reporter Steve Salerno reveals in this groundbreaking book, it's neither—in fact it's much worse than a joke. Going deep inside the Self-Help and Actualization Movement (fittingly, the words form the acronym SHAM), Salerno offers the first serious exposé of this multibillion-dollar industry and the real damage it is doing—not just to its paying customers, but to all of American society. Based on the author's extensive reporting—and the inside look at the industry he got while working at a leading “lifestyle” publisher—SHAM shows how thinly credentialed “experts” now dispense advice on everything from mental health to relationships to diet to personal finance to business strategy. Americans spend upward of \$8 billion every year on self-help programs and products. And those staggering financial costs are actually the least of our worries. SHAM demonstrates how the self-help movement's core philosophies have infected virtually every aspect of American life—the home, the workplace, the schools, and more. And Salerno exposes the downside of being uplifted, showing how the “empowering” message that dominates self-help today proves just as damaging as the blame-shifting rhetoric of self-help's “Recovery” movement. SHAM also reveals: • How self-help gurus conduct extensive market research to reach the same customers over and over—without ever helping them • The inside story on the most notorious gurus—from Dr. Phil to Dr. Laura, from Tony Robbins to John Gray • How your company might be wasting money on motivational speakers, “executive coaches,” and other quick fixes that often hurt quality, productivity, and morale • How the Recovery movement has eradicated notions of personal responsibility by labeling just about anything—from drug abuse to “sex addiction” to shoplifting—a dysfunction or disease • How Americans blindly accept that twelve-step programs offer the only hope of treating addiction, when in fact these programs can do more harm than good • How the self-help movement inspired the disastrous emphasis on self-esteem in our schools • How self-help rhetoric has pushed people away from proven medical treatments by persuading them that they can cure themselves through sheer application of will As Salerno shows, to describe self-help as a waste of time and money vastly understates its collateral damage. And with SHAM, the self-help industry has finally been called to account for the damage it has done. Also available as an eBook

No More Bananas Jeroen Kraaijenbrink,2019-06-21 “Feel better, get done more and become a nicer person” In this age of social media, fake news, individualism and information overload, the certainties we relied on in the past are gone. In our quest for assurance and support, the only seemingly dependable pillar left is other people. So we look to them. But they are unsettled too. And by looking to them, we create and perpetuate our own vicious stress-cycle. As a result, we lose our sensible selves. And we go bananas. But there is good news. If we look around us, there are people who withstand the collective lunacy and stay grounded. They do something that most of us have a hard time doing: they stay themselves. And the best news is that what they can do, you can do too. It doesn't require any special talents or supernatural powers. It only requires doing. In this amiable, open and accessible book, Jeroen Kraaijenbrink takes you on his personal journey out of

Bananaland. Drawing from cognitive psychology, martial arts, Saint Benedict, personal experience, and a wide range of other sources, the book offers a nine-step approach with some remarkably practical advice for keeping a cool head in the collective lunacy. “Free yourself from the collective lunacy and reclaim your calm and sensible self”
