This book presents the most up-to-date facts on aging today, the issues raised by these facts, and the societal and individual responses that will create a successful old age for us all. The text illustrates how generations are dependent on one another and how social conditions affect both the individual and social institutions. Learning Goals -Upon completing this book, readers will be able to: -Understand how large-scale social issues--social attitudes, the study of aging, and demographic issues--affect individuals and social institutions -Identify the political responses to aging and how individuals can create a better old age for themselves and the people they know -Separate the myths from the realities of aging -Recognize the human side of aging -Trace the transformation of pension plans, health, and opportunities for personal expression and social engagement to the new ecology of aging today

Handbook of Rehabilitation in Older Adults Robert J. Gatchel,Izabela Z. Schultz,Christopher T. Ray,2019-02-27 This book discusses the state of the research and cutting-edge practice with regard to chronic illnesses and rehabilitation in older adults. It emphasizes biopsychosocial and culturally appropriate rehabilitation approaches to reduce the degree of disability and maximize independence in the activities of daily living among the burgeoning aging population. Organized in four sections—Introduction and Overview, Major Illnesses and Problems in Aging Populations, Evaluation of Functional Rehabilitation Approaches for Aging Populations, and Future Clinical Research Needs—the book includes chapters on the “graying” of the West with implications for increased chronic illnesses and disabilities; a review of biopsychosocial rehabilitation approaches; important “aging” issues such as slips-and-falls, musculoskeletal pain, chronic disabling conditions such as cancer and cardiovascular disease, and work-related factors to maintain work engagement in older workers. The US Census Bureau projects that by the year 2030, about 20% of the U.S. population will be 65 or older, contributing to the increased concern about healthcare and rehabilitation issues among older adults. /div This work will be of interest to healthcare, rehabilitation, vocational, human resource and disability management professionals, policy makers as well as researchers in areas of aging, gerontology, chronic illness, disability, rehabilitation, social work, medicine and psychology.

Yoga in the Music Studio Lesley S. McAllister,2020-04-27 Yoga in the Music Studio brings the popular and beneficial practice of yoga to music teachers and students of all instruments and ages, from preschoolers to senior adults and all those in-between. Expert on mind-body techniques Lesley S. McAllister provides a unique opportunity for all to improve their musical craft, enabling teachers to help their students concentrate, listen more attentively, relax, and play their best - whether before a performance or just during lessons - all through the practice of yoga. Many music teachers know that yoga postures and breathing practices can help musicians achieve peak performance, prevent injury, and relieve pain, yet surprisingly few are themselves familiar with these techniques or know how to introduce them to their students. McAllister welcomes the music teacher into the philosophy and history of yoga, introducing them to the research behind yoga's physical and emotional benefits. Step-by-step illustrations of practical stretches and useful poses then guide the teacher to the yoga practices that suit their individual needs and those of their students. An accessible and comprehensive yoga curriculum, Yoga in the Music Studio will help to improve students' musicianship, while contributing to their lifelong health and wellness.
