Handbook of Otolaryngology Head and Neck Surgery Professor Thomas Havas, Ear, nose and throat problems remain one of the most common causes of presentation to general practitioners and pediatricians. Unfortunately with the change in medical curriculums, less and less focus is given to the teaching of Otolaryngology Head and Neck surgery at an undergraduate level and there are a fewer practical diagnosis and treatment guidelines available. This handbook of common problems in otolaryngology is not comprehensive but presents a simple, sequential, didactic evidence based approach to many common problems encountered in general practice. It is envisaged that the handbook will be updated and expanded every second year and hopefully will provide a useful reference and guide to the diagnosis and management with the topics addressed.
