A Long Way from Crenshaw James Darren Key, 2020-06-18 A Long Way from Crenshaw explores the vicissitudes of life, as well as human resiliency and triumph. Author and U.S. Army chaplain James Darren Key highlights forty lessons and stories from his journey, which at times has given him incredible joy and, on other occasions, unavoidable pain and anguish. By delving into his own weaknesses and fears, he empowers you to: • recognize failures and successes along your journey; • approach race and

diversity with sensitivity and courage; • heal from an unhealthy relationship before you start a new one; • face trials and controversy with unshakable faith. Routledge Handbook of Tourism Cities Alastair M. Morrison, J. Andres Coca-Stefaniak, 2020-08-27

The Routledge Handbook of Tourism Cities presents an up-to-date, critical and comprehensive overview of established and emerging themes in urban tourism and tourist cities. Offering socio-cultural perspectives and multidisciplinary insights from leading scholars, the book explores contemporary issues, challenges and trends. Organised into four parts, the handbook begins with an introductory section that explores contemporary issues, challenges and trends that tourism cities face today. A range of topics are explored, including sustainable urban tourism, overtourism and urbanisation, the impact of terrorism, visitor–host interactions, as well as reflections on present and future challenges for tourism cities. In Part II the marketing, branding and markets for tourism cities are considered,

exploring topics such as destination marketing and branding, business travellers and exhibition hosting. This section combines academic scholarship with real-life practice and case studies from cities. Part III discusses product and technology developments for tourism cities, examining their supply and impact on different travellers, from open-air markets to creative waterfronts, from social media to smart cities. The final Part offers examples of how urban tourism is developing in different parts of the world and how worldwide tourism cities are adapting to the challenges ahead. It also explores emerging forms of specialist tourism, including geology and ecology-based tourism, socialist heritage and post-communist destination tourism. This handbook fills a notable gap by offering a critical and detailed understanding of the diverse elements of the tourist experience today. It contains useful suggestions for practitioners, as well as examples for theoretical frameworks to students in the fields of urban tourism and tourism cities. The handbook will be of interest to scholars and students working in urban tourism, heritage studies, human geography, urban studies and urban planning, sociology, psychology and business studies.

Korean Culture ,1982

Reclaimed Andy Steiger,2020-09-01 We live in an era of polarizing political and religious disagreement. Despite the lip service our society pays to tolerance, it's becoming more and more difficult to look past our differences and to recognize our common humanity. The way that we treat each other is a direct result of how we see one another, and our culture is full of warning signs that we aren't seeing each other correctly. In *Reclaimed*, author and cultural critic Andy Steiger explores the

trend toward dehumanization that underlies our fraught times. People on both sides of the political aisle and from all walks of life share a deep desire for better understanding, justice, and human dignity. Yet we're uncertain how to achieve these aims. Steiger points to Jesus as the basis for rediscovering our common ground and our shared humanity. In Jesus we find not only that humans are unique, valuable, and bearers of rights and responsibilities, but also that our dehumanizing tendencies--our worst inclinations toward inhumanity--can be redeemed and restored. Jesus enables us to be fully human, and it's in him that we rediscover the kind of relationships and society for which so many people today are longing.

Government In Business: Leading Or Lagging? Hwee Hua Lim, 2021-02-09 The evergreen debate over government's involvement in business continues in earnest. Participants straddle all stakeholder groups, from the state itself to the private sector to the public at large. Add to that debate increasing globalisation, and now de-globalisation, and the advent of technological advances. Criticism is often levelled at a government that is slow to act or one that belatedly introduces damning regulations. Many governments are already saddled with demands spanning mega infrastructural development to bulging fiscal deficits to evening out growth across the population. The politics of the day are however

synonymous with short-termism. The Covid-19 pandemic has increased the bailout burden even more. The author attempts to provide a fair assessment of the potentially complementary roles that the public and private sectors can play in a fast-changing global economy, amidst the shifting expectations of society. Wind Over Water David W. Haines, Keiko Yamanaka, Shinji Yamashita, 2012-10-30 Providing a comprehensive treatment of a full range of migrant destinies in East Asia by scholars from both Asia and North America, this volume captures the way migrants are changing the face of Asia, especially in cities, such as Beijing, Hong Kong, Hamamatsu, Osaka, Tokyo, and Singapore. It investigates how the crossing of geographical boundaries should also be recognized as a crossing of cultural and social categories that reveals the extraordinary variation in the migrants' origins and trajectories. These

migrants span the spectrum: from Korean bar hostesses in Osaka to African entrepreneurs in Hong Kong, from Vietnamese women seeking husbands across the Chinese border to Pakistani Muslim men marrying women in Japan, from short-term business travelers in China to long-term tourists from Japan who ultimately decide to retire overseas. Illuminating the ways in which an Asian-based analysis of migration can yield new data on global migration patterns, the contributors provide important new theoretical insights for a broader understanding of global migration, and innovative methodological approaches to the spatial and temporal complexity of human migration.

Fate and Freedom in Korean Historical Films Kyung Moon Hwang,2023-10-15 This open access book examines the depiction of Korean history in recent South Korean historical films. Released over

the Hallyu (“Korean Wave”) period starting in the mid-1990s, these films have reflected, shaped, and extended the thriving public discourse over national history. In these works, the balance between fate and freedom—the negotiation between societal constraints and individual will, as well as cyclical and linear history—functions as a central theme, subtext, or plot device for illuminating a rich variety of historical events, figures, and issues. In sum, these highly accomplished films set in Korea’s past address universal concerns about the relationship between structure and agency, whether in collective identity or in individual lives. Written in an engaging and accessible style by an established historian, *Fate and Freedom in Korean Historical Films* offers a distinctive perspective on understanding and appreciating Korean history and culture.

The Globalizing World and the Human Community ,2016-03-02 Publication of the proceedings of the 3rd Seoul International Literature Forum held in May 2011 will make the papers presented at the forum available to a readership larger than the audience that participated in its various events. The theme of the forum was The Globalizing World and the Human Community. Included under this general theme were sections dealing with various problems the writer faces in today's world: the conditions of increasing pressure in an enlarged market, which the writer cannot help but be aware of and be influenced by; the changing nature of the readership as it becomes more multicultural and global; and the status of writing in the developing multimedia world. Continuing with the topics of previous forums, there were also sections on ecological problems, which are being made all the more acute by the process of globalization-problems of enormous importance for all of humanity, but more sensitive issues for writers, with their deep involvement in the reality of people, whose life cannot be lived too far away from the earthly environment. The second part of the main theme stated above, The Human Community, expresses what we suppose to be a major concern of many writers writing today:

the possibility of a human community emerging out of the globalization-though we grant at the same time that absorption of a deeply personal kind in human reality also belongs among the writer's privileges. -From the Foreword by Kim Uchang

Korean Society Charles K. Armstrong,2006-11-22 While most analyses of Korean politics have looked to elites to explain political change, this new and revised edition of Korean Society examines the role of ordinary people in this dramatic transformation. Taking the innovative theme of 'civil society' - voluntary organizations outside the role of the state which have participated in the process of political and social democratization - the essays collected here examine Korea as one of the most dramatic cases in the world of ordinary citizens participating in the transformation of politics. Key topics discussed include: comparisons of Korean democratization to the experiences of post-authoritarian regimes elsewhere in the world comparisons of the theory of civil society as developed in Western Europe and America the legacy of Korea's Confucian past for contemporary politics and society close

examinations of various civil society movements South Korea and North Korea. Conceptually innovative, up-to-date and timely, the new edition of this book will be an invaluable resource for students of contemporary Korea, Asian politics and the global struggle for democracy.
