Today downtown and Old Sacramento, a 28-acre state historic district, are thriving, graced by such treasures as the restored State Capitol Building, the art deco Tower Bridge, and scores of historic structures and attractions like the Leland Stanford Mansion and the California State Railroad Museum.

*Bank of Dave* Dave Fishwick, 2012-05-10 This is the real story that inspired the Netflix film, *Bank of Dave*. Dave Fishwick is a self-made, straight-talking man from Burnley who hates the banks. Fed up with never-ending tales of greed and corruption, he sets out to prove that there is a different way of doing things - by opening his own bank to help inject much-needed life into local businesses. In his bid to set up a simple, no-nonsense bank that actually cares about its customers, Dave plans to use hundreds of thousands of pounds of his own money. His enterprise will offer his customers a far better rate of interest than they get on the high street; he will lend to struggling local businesses that the banks don't want to know about; and he aims to bring the Bank of Dave into profit within 180 days. If he succeeds, he'll give whatever he makes to charity. If he fails, he'll make a terrible loss and ruin his hard-earned reputation as a successful businessman. Can one man really take on the banking giants and make a real difference to local businesses and his community? Dave Fishwick certainly hopes so.

*Time Resources, Society and Ecology* Tommy Carlstein, 2019-09-18 Originally published in 1982, *Time Resources, Society and Ecology* examines and seeks to examine the time dimension in terms of the ecology, technology, social organization and spatial structure of the human habitat. Approaches to time resources - sociological time-budget studies, anthropological activity analysis, and economic analysis of money allocation - have been limited by their sectoral scope or their failure to relate effectively to the processes

of social interaction, technological change and environmental structure. In this book, the book's articulation of time resources is developed in a general theoretical framework of action and interaction in time and space. The book examines constraints and possibilities facing preindustrial societies and throws light on the impact of technology on modern societies. Basic models of time allocation are presented, and, finally, a cross-cultural comparison is made of the mobilization of time resources in preindustrial societies. Geographers, social anthropologists and human ecologists should find this work directly relevant to their interest in understanding the interactions between man and environment.

**Principles and Methods of Social Research** William D. Crano, Marilyn B. Brewer, Andrew Lac, 2014-09-09 Used to train generations of social scientists, this thoroughly updated classic text covers the latest research techniques and designs. Applauded for its comprehensive coverage, the breadth and depth of content is unparalleled. Through a multi-methodology approach, the text guides readers toward the design and conduct of social research from the ground up. Explained with applied examples useful to the social, behavioral, educational, and organizational sciences, the methods described are intended to be relevant to contemporary researchers. The underlying logic and mechanics of experimental, quasi-experimental, and non-experimental research strategies are discussed in detail. Introductory chapters covering topics such as validity and reliability furnish readers with a firm understanding of foundational concepts. Chapters dedicated to sampling, interviewing, questionnaire design, stimulus scaling, observational methods, content analysis, implicit measures, dyadic and group methods, and meta-analysis provide coverage of these essential methodologies. The book is noted for its:

- Emphasis on understanding the principles that govern the use of a method to facilitate the researcher's choice of the best technique for a given situation.
- Use of the laboratory experiment as a touchstone to describe and evaluate field experiments, correlational designs, quasi experiments, evaluation studies, and survey designs.
- Coverage of the ethics of social research including the power a researcher wields and tips on how to use it responsibly.

The new edition features:

- A new co-author, Andrew Lac, instrumental in fine tuning the book's accessible approach and highlighting the most recent developments at the intersection of design and statistics.
- More learning tools including more explanation of the basic concepts, more research examples, tables, and figures, and the addition of bold faced terms, chapter conclusions, discussion questions, and a glossary.
- Extensive revision of chapter (3) on measurement reliability theory that examines test theory, latent factors, factor analysis, and item response theory.
- Expanded coverage of cutting-edge methodologies including mediation and moderation, reliability and validity, missing data, and more physiological approaches such as neuroimaging and fMRIs.
- A new web based resource package that features Power Points and discussion and exam questions for each chapter and for students chapter outlines and summaries, key terms, and suggested readings.

Intended as a text for graduate or advanced undergraduate courses in research methods (design) in psychology, communication, sociology, education, public health, and marketing, an introductory undergraduate course on research methods is recommended.

The God Factor Cathleen Falsani, 2006-03-07 When religion reporter Cathleen Falsani climbed aboard Bono's tour bus, it was to interview the rock star

about AIDS awareness. Instead, they plunged into a lively discussion about faith. This is a defining moment for us, Bono said. For the culture we live in. Spirituality clearly now plays a key role in the United States. But what is also clear is that faith is a more complex issue than snapshots of the country convey. Jesus. Buddha. Kabbalah. Angels. This may be a nation of believers but not of one belief—of many. To shape a candid picture of modern faith, Falsani sat down with an array of people who shape our culture, and in turn, our collective consciousness. She's talked about Jesus with Anne Rice; explored Playboy theology with Hugh Hefner; discussed evil with crusading attorney Barry Scheck, and heaven with Senator Barack Obama. Laura Esquivel, basketball star Hakeem Olajuwon, Studs Terkel, guru Iyanla Vanzant, rockers Melissa Etheridge and Annie Lennox, economist Jeffrey Sachs, Pulitzer-winning playwright John Patrick Shanley—all opened up to her. The resulting interviews, more than twenty-five in all, offer a fresh, occasionally controversial, and always illuminating look at the beliefs that shape our lives. **THE GOD FACTOR** is a book for the believers, the seekers, as well as the merely curious among us. Included are interviews with Sherman Alexie, Bono, Dusty Baker, Sandra Bernhard, Sandra Cisneros, Billy Corgan, Kurt Elling, Laura Esquivel, Melissa Etheridge, Jonathan Safran Foer, Mike Gerson, Seamus Heaney, Hugh Hefner, Dr. Henry Lee, Annie Lennox, David Lynch, John Mahoney, Mark Morris, Mancow Muller, Senator Barack Obama, Hakeem Olajuwon, Harold Ramis, Anne Rice, Tom Robbins, Russell Simmons, Jeffrey Sachs, Barry Scheck, John Patrick Shanley, The Reverend Al Sharpton, Studs Terkel, Iyanla Vanzant, and Elie Wiesel.

These studies relate to each other as challenge to response, globalization being the challenge of economic and cultural homogenization of the world and regionalization being a social and political reaction. The leading writers in the field contribute thought-provoking and fascinating articles to this volume.
