The Chinese Cinema Book Song Hwee Lim,Julian Ward,2020-04-30 This revised and updated new edition provides a comprehensive introduction to the history of cinema in mainland China, Hong Kong and Taiwan, as well as to disaporic and transnational Chinese film-making, from the

What America Watched Marsha Ann Tate, Earl Houser, 2022-01-14 Although television critics have often differed with the public with respect to the artistic and cultural merits of television programming, over the last half-century television has indubitably influenced popular culture and vice versa. No matter what reasons are cited--the characters, the actors, the plots, the music--television shows that were beloved by audiences in their time remain fondly remembered. This study covers the classic period of popular television shows from the 1960s through the 1990s, focusing on how regular viewers interacted with television shows on a personal level. Bridging popular and scholarly approaches, this book discovers what America actually watched and why through documents, footage, visits to filming locations, newspapers, and magazine articles from the shows' eras. The book features extensive notes and bibliography.

Remaking Chinese Cinema Yiman Wang, 2013-03-31 From melodrama to Cantonese opera, from silents to 3D animated film, Remaking Chinese Cinema traces cross-Pacific film remaking over the last eight decades. Through the refractive prism of Hollywood, Shanghai, and Hong Kong, Yiman Wang revolutionizes our understanding of Chinese cinema as national cinema. Against the diffusion model of

national cinema spreading from a central point—Shanghai in the Chinese case—she argues for a multi-local process of co-constitution and reconstitution. In this spirit, Wang analyzes how southern Chinese cinema (huanan dianying) morphed into Hong Kong cinema through trans-regional and trans-national interactions that also produced a vision of Chinese cinema. Among the book's highlights are a rereading of *The Goddess*—one of the best-known silent Chinese films in the West—from the perspective of its wartime Mandarin-Cantonese remake; the excavation of a hybrid genre (the Western costume Cantonese opera film) inspired by Hollywood's fantasy films of the 1930s and produced in Hong Kong well into the mid-twentieth century; and a rumination on Hollywood's remake of Hong Kong's *Infernal Affairs* and the wholesale incorporation of "Chinese elements" in *Kung Fu Panda 2*. Positing a structural analogy between the utopic vision, the national cinema, and the location-specific collective subject position, the author traces their shared urge to infinitesimally approach, but never fully and finitely reach a projected goal. This energy precipitates the ongoing processes of cross-Pacific film remaking, which constitute a crucial site for imagining and enacting (without absolving) issues of national and regional border politics. These issues unfold in relation to global formations such as colonialism, Cold War ideology, and postcolonial, postsocialist globalization. As such, *Remaking Chinese Cinema* contributes to the ongoing debate on (trans-)national cinema from the unique perspective of

century-long border-crossing film remaking.

Yonfan's Bugis Street Kenneth Chan, 2015-10-01

Bugis Street was famous (or notorious) for being a haunt of transgender prostitution in the early decades of postcolonial Singapore. Since then the site has been a source of touristic obsession and local cultural anxiety. In his 1995 film *Bugis Street*, director Yonfan brings the short lane back to vivid cinematic life. By focusing on the film's representations of queer sexualities and transgender experience, this book contends that the under-appreciated Bugis Street is a significant instance of queer transnational cinema. The film's playful yet nuanced articulations of queer embodiment, spatiality, and temporality provide an unexpected intervention in the public discourses on LGBT politics, activism, and cultures in Singapore today. This book's arrival at a much more complicated and contradictory picture of the discursive Bugis Street, through the examination of Yonfan's film and a range of other cultural and literary texts, adds a new critical dimension to the ongoing historical, geographical, sociological, ethnographic, and artistic analyses of this controversial space.
