Some of the things you'll learn in this book: How to turn the very technologies that are killing professional photography—such as the Internet—into your tools of success -How to lead your business, not let your business lead you -How systematizing, scaling, and outsourcing are critical concepts even for a one-person business -How to radically rethink marketing, sales, and customer service for the 21st century -How to hone a creative vision that works—the most powerful step you can take as a businessperson The Fast Track Photographer Business Plan is not about building a traditional business plan that looks good on paper and impresses investors. It's about creating a vibrant, living business plan that will help you thrive in today's digital Wild West, where creative content is freely distributed, where no one plays by the rules anymore, and where customers have unprecedented freedom in choosing what to buy and whom to hire. It's a groundbreaking look at running a creative business. Whether you're an amateur looking to go pro or a professional whose business has stalled, Dane's practical, on-the-ground advice will launch you on the fast track to business success. **Biological Nitrogen Fixation: Towards Poverty Alleviation through Sustainable Agriculture** Felix D. Dakora,Samson B. M. Chimphango,Alex J. Valentine,Claudine Elmerich,William E. Newton,2008-06-26 Poverty is a severe problem in Africa, Asia, South America and even in pockets of the developed world. Addressing poverty alleviation via the expanded use of biological nitrogen fixation in agriculture was the theme of the 15th International Congress on Nitrogen Fixation. Because nitrogen-fixation research is multidisciplinary, exploiting its benefits for agriculture and environmental protection has continued to attract research by diverse groups of scientists, including chemists, biochemists, plant physiologists, evolutionary biologists, ecologists, agricultural scientists, extension agents, and inoculant producers. The 15th International Congress on Nitrogen Fixation was held jointly with the 12th International Conference of the African Association for Biological Nitrogen Fixation. This joint Congress was hosted in South Africa at the Cape Town International Conv- tion Centre, 21-26 January 2007, and was attended by about 200 registered participants from 41 countries world-wide. During the Congress, some 100 oral and approximately 80 poster papers were presented. The wide range of topics covered and the theme of the Congress justifies this book's title, Nitrogen Fixation: Applications to Poverty Alleviation.

**All Things Shining** Hubert Dreyfus,Sean Dorrance Kelly,2011-01-04 In unrelenting flow of choices confronts us at nearly every moment of our lives, and yet our culture offers us no clear way to choose. This predicament seems inevitable, but in fact it's quite new. In medieval Europe, God's calling was a grounding force. In ancient Greece, a whole pantheon of shining gods stood ready to draw an appropriate action out of you. Like an athlete in "the zone," you were called to a harmonious attunement with the world, so absorbed in it that you couldn't make a "wrong" choice. If our culture no longer takes for granted a belief in God, can we nevertheless get in touch with the Homeric moods of wonder and gratitude, and be guided by the meanings they reveal? All Things Shining says we can. Hubert Dreyfus and Sean Dorrance Kelly illuminate some of the greatest works of the West to reveal how we have lost our passionate engagement with and responsiveness to the world. Their journey takes us from the wonder and openness of Homer's polytheism to the monotheism of Dante; from the autonomy of Kant to the multiple worlds of Melville; and, finally, to the spiritual difficulties evoked by modern authors such as David Foster Wallace and Elizabeth Gilbert. Dreyfus, a philosopher at the University of California, Berkeley, for forty years, is an original thinker who finds in the classic texts of our culture a new relevance for people's everyday lives. His lively, thought-provoking lectures have earned him a podcast audience that often reaches the iTunesU Top 40. Kelly, chair of the philosophy department at Harvard University, is an eloquent new voice whose sensitivity to the sadness of the culture—and to what remains of the wonder and gratitude that could chase it away—captures a generation adrift. Re-envisioning modern spiritual life through their examination of literature, philosophy, and religious testimony, Dreyfus and Kelly unearth ancient sources of meaning, and teach us how to rediscover the sacred, shining things that surround us every day. This book will change the way we understand our culture, our history, our sacred practices, and ourselves. It offers a new—and very old—way to celebrate and be grateful for our existence in the modern world.
