SALES RETAIL AND CUSTOMER SERVICE SKILLS Prabhu TL,2020-12-22 I was with a friend who was looking for a new pair of sneakers yesterday at Dick's Sporting Goods. He found an associate and he told him what he was looking for. The associate escorted him to the Adidas section. My friend picked up a pair and asked if they had them in 11. The associate whipped out his small tablet, scanned the SKU of the shoe, touched 11, said they did and was off. He came back, handed him the shoes and left. As an old shoe dog who put myself through college selling shoes, I was a bit put off. I had expected him to take out the shoes and put them on his feet to make sure they fit. Instead, my friend tried them on alone. Too small. Retail Customer Service Measurement & Success He then waited to catch the eye of the associate. "I guess I need an 11.5." They too were too small until my friend finally got a size 12. And still not a word of connection between the associate and my friend. Efficient: yes. Friendly: no. Looking at a register right there in the department, my friend asked, "Can I just pay you here?" The associate said, "No, go to any register" and was off. While his attitude was fine, this was not customer service. Yes, he got the shoes and my friend purchased them, but that was it. And while there were Brannock foot-measuring devices scattered under the small benches in is this beautiful store, I didn't see one associate using them. And on a busy Saturday, most shoppers who were trying on shoes received the same zero customer service. Big miss for such a big store. There's no doubt the retail industry has seen extraordinary changes since I worked the floor two decades ago. Yet one constant remains: You still need to realize the critical importance of great customer service if you want shoppers to return to you for their next purchase instead of going to their smartphones. Now that every prospective customer can shop in the comfort of their own home - or anywhere else - it's imperative that brick and mortar retailers offer something e-commerce outlets can never match... Peerless, human-to-human customer service, from the beginning of the experience to the end.

Financial Inclusion at the Bottom of the Pyramid Carol Realini,Karl Mehta,2015-07-15 As incredible as it may seem in this hyper-connected, technologically advanced era, half the planet's population exist as "Financial nomads"—those who nourish and shelter themselves without using traditional banking services. While the wealthy live at the top of a metaphorical pyramid, taking financial security and banking services for granted, there are billions of people who struggle at the pyramid's base in an exhausting state of financial exclusion and insecurity. Times are changing rapidly, but despite global uncertainty, technology has the capacity to reach and equip people in all walks of life. Advances in communications have reconfigured the ease with which we interact with our money—and these advances can provide innovative financial services to the unbanked and underserved around the world. Financial inclusion for all is indeed within our reach, and with this conviction, authors Karl Mehta and Carol Realini propose a vision for a better world and a blueprint to get there. www.carolrealini.com

The P.O.S. Decision Cameron Thomas,Lu Zhang,JaeMin Cha,Jeffrey Beck,2018 This case study examines the issue of Point of Sale (POS) system adoption and implementation in the context of two independent full service restaurants in Northeast Ohio. The main focus is on the restaurant company Ray's Place, which has locations in Fairlawn and Kent, Ohio. Ray's Place Fairlawn (opened in 2014) adopted a POS system prior to opening. However, some of the beneficial POS data have not been regularly tracked. Ray's Place Kent (Est. 1937) has historically, and still currently utilizes a manual guest check system. The owner and senior management team are now facing the difficult decision of whether Ray's Place Kent should adopt a similar POS system as the one installed at Ray's Place Fairlawn or continue with manual operation.
