The Cambridge French-English Thesaurus Marie-Noklle Lamy,1997-12-11 This is the first ever bilingual thesaurus of its kind. The book is aimed at all English-speaking learners and users of French at an intermediate to advanced level, and is structured in a uniquely helpful way. The book is arranged thematically rather than alphabetically, with fifteen part titles subdivided into a total of 142 subheadings which are further subdivided into topic categories. In each category learners will find synonyms and related French words and phrases of use for writing or speaking about the topic, as well as sayings, metaphors, proverbs, famous quotations or usage notes connected with the topic. Every word, phrase and example has an English translation. Illustrations provide additional help, and there is a special section on conversational gambits. Two alphabetical indexes of more than 8,000 words each, one listing English vocabulary and the other French, help readers find what they're looking for easily.

Time to Shake Up the Primary Curriculum Sarah Wordlaw,2023-04-13 Developing children's voices raises awareness and empowerment, particularly in marginalised communities. It is important that children see themselves, their heritage, their cultures and their religions reflected and taught in schools – not as a tokenistic celebration day or week but weaved throughout the curriculum. Time to Shake Up the Primary Curriculum is a step-by-step guide on how to transform the curriculum content being taught in primary schools to better incorporate diversity into children's learning. Headteacher Sarah Wordlaw equips teachers and school leaders with the appropriate subject knowledge to deliver a curriculum that is comprehensive, inclusive and empowering, whilst also providing an opportunity for current and aspiring school leaders to develop their leadership skills. Covering history, geography, English, maths, science and the arts, this book will: - aid teachers in becoming more inclusive and aware practitioners - assist leaders in developing and implementing a whole-school strategic approach to delivering an inclusive curriculum, where everyone feels seen - drive OFSTED ranking to outstanding. It enables and empowers teachers and school leaders to remap the National Curriculum to include diverse, global topics to broaden children's understanding of their own community and wider society.

This is followed by exploring the thread-based parallelism model using the Python threading module by synchronizing threads and using locks, mutex, semaphores queues, GIL, and the thread pool. Next you will be taught about process-based parallelism where you will synchronize processes using message passing along with learning about the performance of MPI Python Modules.
