Translating Modern Japanese Literature Richard Donovan,2019-09-12 This book presents and comments on four short works of Japanese literature by prominent writers of the early twentieth century, including Natsume Sōseki and Miyazawa Kenji. These are their first-ever published English translations. The book is designed to be used as a textbook for the translation of modern Japanese literature—another first. Each chapter introduces the writer and his work, presents the original Japanese text in its entirety, and encourages students with advanced Japanese to make their own translation of it, before reading the author's translation that follows. The detailed commentary section in each chapter focuses on two stylistic issues that characterise the source text, and how the target text—the translation—has dealt with them, before the chapter concludes with questions for further discussion and analysis.

Classics in Translation, Volume II Paul L. MacKendrick,Herbert M. Howe,1952 Annotation Here, translated into modern idiom, are many works of the authors whose ideas have constituted the mainstream of classical thought. This volume of new translations was born of necessity, to answer the needs of a course in Greek and Roman culture offered by the Department of Integrated Liberal Studies at the University of Wisconsin. Since its original publication in 1952, Classics in Translation has been adopted by many different academic institutions to fill similar needs of their undergraduate students. This new printing is further evidence of this collection's general acceptance by teachers, students, and the reviewing critics.

Translating the Occupation Jonathan Henshaw,Craig A. Smith,Norman Smith,2021-02-15 From 1931 to 1945, Chinese citizens were subjugated to Japanese imperialism. Despite the enduring historical importance of the occupation, Translating the Occupation is the first English-language volume to provide such a diverse selection of important primary sources from this period. Contributors have translated Chinese, Japanese, and Korean texts on a wide range of subjects, focusing on writers who have long been considered problematic or outright traitorous. This volume offers a practical, accessible sourcebook from which to challenge standard narratives. It deepens our understanding of the myriad tensions and transformations at work in Chinese wartime society.

Revising and Editing for Translators Brian Mossop,2014-02-05 Revising and Editing for Translators provides guidance and learning materials for translation students learning to edit texts written by others, and professional translators wishing to improve their self-revision ability or learning to revise the work of others. Editing is understood as making corrections and improvements to texts, with particular attention to tailoring them to the given readership. Revising is this same task applied to draft translations. The linguistic work of editors and revisers is related to the professional situations in which they work. Mossop offers in-depth coverage of a wide range of topics, including copyediting, style editing, structural editing, checking for consistency, revising procedures and principles, and translation quality assessment. This third edition provides extended coverage of

computer aids for revisers, and of the different degrees of revision suited to different texts. The inclusion of suggested activities and exercises, numerous real-world examples, a proposed grading scheme for editing assignments, and a reference glossary make this an indispensable coursebook for professional translation programmes.

Translation and Medicine Henry Fischbach, 1998-01-01 The contributors to *Translation and Medicine* address several broad aspects of medical translation, from the cultural/historic framework of the language of medicine to pragmatic considerations of register and terminology. Their articles highlight some of the contributions translation has made to medical science and addresses some of the questions raised by those who escort the advances of medicine across language and cultural barriers and those who train the next generation of medical translators. Section 1 covers some Historical and Cultural Aspects that have characterized the language of medicine in Japan and Western Europe, with special emphasis on French and Spanish; Section 2 opens some vistas on The Medical Translator in Training with two specific university-level programs in Switzerland and in Spain, as well as an in-depth analysis of who makes the better medical translator: the medically knowledgeable linguist or the linguistically knowledgeable medical professional; and Section 3 looks at several facets of The Translator at Work, with discussions of the translator-client relationship and the art of audience-specific translating, an insider's view of the Translation Unit of the National Institutes of Health, and a detailed study of online medical terminology resources.

Translation and the Law Marshall Morris, 1995-01-01 This long needed reference on the innumerable and increasing ways that the law intersects with translation and interpreting features essays by scholars and professions from the United States, Australia, Hong Kong, Iceland, Israel, Japan, and Sweden. The essays range from sophisticated treatments of historical and hence philosophical variations in concept and practice to detailed practical advice on self-education. Essays show a particular concern for the challenges of courtroom discourse when the parties not only use different languages but operate from different cultural and legal traditions.

Travel and Translation in the Early Modern Period Carmine Di Biase, 2006 The relationship between travel and translation might seem obvious at first, but to study it in earnest is to discover that it is at once intriguing and elusive. Of course, travelers translate in order to make sense of their new surroundings; sometimes they must translate in order to put food on the table. The relationship between these two human compulsions, however, goes much deeper than this. What gets translated, it seems, is not merely the written or the spoken word, but the very identity of the traveler. These seventeen essays--which treat not only such well-known figures as Martin Luther, Erasmus, Shakespeare, and Milton, but also such lesser known figures as Konrad Grönenberg, Leo Africanus, and Garcilaso de la Vega--constitute the first survey of how this relationship manifests itself in the early modern period. As such, it should be of interest both to scholars who are studying theories of translation and to those who are studying hodoeporics, or travel and the literature of travel.

Jane Smith's Translation Dictionary Jass Richards, 2022-01-06 A funny but honest translation dictionary of common

phrases people say to each other all the time ... Jane Smith is a character In my novel A Philosopher, a Psychologist, and an Extraterrestrial Walk into a Chocolate Bar (blurb below). And she started this dictionary. I've continued it. And everyone else is supposed to finish it. Well, add to it. (It's unlikely it'll ever be finished.) Send additions – new definitions to the entries already listed and/or completely new entries – for future editions to me at jassrichards@gmail.com. (Additionally, you can add your entries to the tumblr page I set up, hoping it would become viral like “Everyday Sexism” and “Why I’m a Feminist” and #MeToo. Sadly, it did not.) A Philosopher, a Psychologist, and an Extraterrestrial Walk into a Chocolate Bar: When a self-appointed independent activist and her office-temp-with-a-doctorate buddy embark on a quest for a chocolate bar (a bar that serves not alcohol, but chocolate – in all its deliciously decadent forms), they pick up a hitchhiking extraterrestrial who's stopped on Earth to ask for directions. Trying to explain Earl (Earth), confronting sexism (rather like bashing your head against a jellyfish), and committing assorted outrageous acts and everyday rebellions, they help “X” find the information she needs to get back home – and go with her – to become chocolate bartenders. A (way) off-the-beaten-path first contact story. Jane also started a list titled “And here's something else that would never happen to a man ...” – which I include at the end of the dictionary (it's also in Sexist Shit that Pisses Me Off, 2e). I created a tumblr page for this as well, similarly hoping it would become viral, but, similarly, it did not. Pity. (But it's not too late! Add your additions to the page and send them to me for future editions of the Dictionary.)

Translations, an autoethnography Paul Carter, 2021-12-21 Translations is a personal history written at the intersection of colonial anthropology, creative practice and migrant ethnography. Renowned postcolonial scholar, public artist and radio maker, UK-born Paul Carter documents and discusses a prodigiously varied and original trajectory of writing, sound installation and public space dramaturgy produced in Australia to present the phenomenon of contemporary migration in an entirely new light. Migrant space-time, Carter argues, is not linear, but turbulent, vortical and opportunistic. Before-and-after narratives fail to capture the work of self-becoming and serve merely to perpetuate colonialist fantasies. The 'mirror state' relationship between England and Australia, its structurally symmetrical histories of land theft and internal colonisation, repress the appearance of new subjects and subject relations. Reflecting on collaborations with Aboriginal artists, Carter argues for a new definition of the stranger-host relationship predicated on recognition of Aboriginal sovereignty. Carter calls the creative practice that breaks the cycle of repeated invasion 'dirty art'. Translations is a passionately eloquent argument for reframing borders as crossing-places: framing less murderous exchange rates, symbolic literacy, creative courage and, above all, the emergence of a resilient migrant poetics will be essential.
