Through the Hoop (1979) Tema Okun, Peter Wood, Bob Hall, Chris Mayfield, Marc Miller, Jim Overton, Joe Pfister, Kathleen Zobel, Through the Hoop To arc a jump shot through the orange rim . . . to tap in a rebound . . . putting the ball through the hoop represents a transcendent moment in basketball for player, team, and crowd. Such a moment exists in every sport. But to enjoy it, fans and athletes alike are often forced through other kinds of hoops. Sports can be violent, lonely, poetic, painful, uplifting. It can breed fitness or injury, sufficiency or dependence, pride or prejudice, friendship or hostility. When does the discipline of sport become dangerous obedience? When does self-mastery become self-aggrandizement? When does athletic activity cease to be empowering for the participants and fans to become an exercise of power over us? Answers to such questions are hard to find. Sports, unlike most topics previously addressed in special issues of Southern Exposure — labor, women, folk life, health, prisons — has never had a network of informed progressives working outside the established channels, posing critical questions, offering insightful direction for our thinking and doing. Trusted commentators and friends who know where they stand and why with regard to other central aspects of our culture shy away from giving serious thought to sport. As a result, many of us are left with personal confusions brought on by alternating experiences of frustration and fulfillment: How do we talk about a subject that on the one hand can be so easily criticized for abuses and on the other hand remains so compelling? How do we effectively criticize the sports establishment that manages ACC basketball or NFL football when we find ourselves glued to the set at playoff time?

Rjukan - Notodden Industriarv David John Smith, Ian J Brodie, 2021-06-04 The world was coming to a crossroads, and many were concerned. As the world population began to boom during the course of the 1800s, the scientific question began to circulate – how long would the world population survive on current food supply production? To answer that challenge, it was just over a century ago in Norway that a major transformation took place. During the course of just a short decade, power plants, factories, transport systems and company towns were created. The urgent and immediate goal - producing enough mineral fertiliser to increase world food production. This is the story of the UNESCO Rjukan-Notodden Industrial Heritage Site. 250 pages of interactivity, videos, 1000+ photos, historical documentation, human-interest essays, facts, figures, innovative technology, architecture, trains, ships, design, and more - all colourfully presented in this state-of-the-art eBook.

Teaching History, Learning Citizenship Jeffery D. Nokes, 2019 Learn how to design history lessons that foster students' knowledge, skills, and dispositions for civic engagement. Each section of this practical resource introduces a key element of civic engagement, such as defending the rights of others, advocating for change, taking action when problems are observed, compromising to promote reform, and working with others to achieve common goals. Primary and secondary sources are provided for lessons on diverse topics such as the Alice Paul and the Silent Sentinels, Samuel Gompers and the American Federation of Labor, Harriet Tubman, Reagan and Gorbachev's unlikely friendship, and Lincoln's plan for Reconstructing the Union. With Teaching History, Learning Citizenship, teachers can show students how to apply historical thinking skills to real world problems and to act on civic dispositions to make positive changes in their communities. "Teachers will appreciate the adaptability of the unscripted lessons in this book. The Presidency of George H. W. Bush John Robert Greene,2015-06-19 After George H. W. Bush lost his re-election bid to Bill Clinton in 1992, John Robert Greene's verdict on the 41st president of the United States was that he brought no discredit to the office and was both patient and prudent. . . mak [ing] few mistakes. In the years since the release of Greene's profile of the senior Bush, deemed by Publishers Weekly, the essential introduction to Bush's abbreviated, but still consequential, tenure in office, a wealth of materials about Bush's presidency has become available, even as distance has sharpened our perspective on the Bush years. In this significantly expanded second edition of The Presidency of George H. W. Bush, Greene takes full advantage of newly released documents to revisit Bush's term, to consider his post-presidency accomplishment, and to enhance and clarify our understanding of his place in history. Such milestones as the fall of the Berlin Wall, the reunification of Germany, the fall of the Soviet Union, the savings and loan crisis, and the transition to the Clinton administration receive renewed and far more detailed treatment here, as do the ramifications of George H. W. Bush's positions and policies. Greene also devotes ample attention to Bush's post-presidency, including his relationship with his son, President George W. Bush, as well as the development of his close friendship with Bill Clinton. The elder Bush emerges from this reappraisal as a considerably more activist president, with a more activist administration, than was previously assumed. Greene's concise and readable account drawing on the contents of the bush Library, the papers of James A. Baker III, and personal interviews, shows us the 41st president--and thus an important chapter in American history--in a new and more revealing light.

An Emergency in Slow Motion William Todd Schultz,2011-09-06 Diane Arbus was one of the most brilliant and revered photographers in the history of American art. Her portraits, in stark black and white, seemed to reveal the psychological truths of their subjects. But after she committed suicide at the age of 48, the presumed chaos and darkness of her own inner life became, for many viewers, inextricable from her work. In the spirit of Janet Malcolm's classic examination of Sylvia Plath, The Silent Woman, William Todd Schultz's An Emergency in Slow Motion reveals the creative and personal struggles of Diane Arbus. Schultz, an expert in personality psychology, veers from traditional biography to look at Arbus's life through the prism of five central mysteries: her childhood, her outcast affinity, her sexuality, her time in therapy, and her suicide. He seeks not to give Arbus some definitive diagnosis, but to ponder some of the private motives behind her public works and acts. In this approach, Schultz not only goes deeper into her life than any previous writing, but provides a template to think about the creative life in general. Schultz's careful analysis is informed, in part, by the recent release of Arbus's writing by her estate, as well as interviews with Arbus's last therapist. An Emergency in Slow Motion combines new revelations and breathtaking insights into a must-read psychobiography about a monumental artist -- the first new look at Arbus in 25 years.
