Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. - **Global Trends 2040 (2021)** **Global Trends 2040-A More Contested World (2021)**, released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

New Perspectives on the Sierra Leone Krio Mac Dixon-Fyle, Gibril Raschid Cole, 2006 The ex-slave, Krio population of Freetown, Sierra Leone - an amalgam of ethnicities drawn from several parts of the African continent - is a fascinating study in hybridity, creolization, European cultural penetration, the retention of African cultural values, and the interface between New World returnees and autochthonous populations of West Africa. Although its Nigerian connections are often acknowledged, insufficient attention has been paid to the indigenous Sierra Leonean roots of this community. This anthology addresses this problem, while celebrating the complexities of Krio identity and Krio interaction with other ethnic groups and nationalities in the British colonial experience.

Political Economy, Capitalism, and Popular Culture Ronnie D. Lipschutz, 2010 What does The Dark Knight have to do with political economy or Lord of the Flies with capitalism? A great deal, argues Ronnie D. Lipschutz in this entertaining and enlightening guide to basic concepts and practices in capitalism, neoclassical economics, and political economy. As he convincingly illustrates, film and fiction occupy a dual role in today's economy. They are the products of the economy, designed and presented as commodities to be sold in great quantities even as they serve to reproduce social beliefs and practices (e.g., torture comes to be seen as a routine and necessary means of extracting intelligence from suspects). Drawing on film and fiction from the past sixty years, Lipschutz describes and analyzes their essential role in the production and reproduction of contemporary society. His thoughtful and imaginative critique will bring to life the concepts and practices of economics and political economy for all readers.

Global Journalism Daniela V. Handbook of Family Policies Across the Globe Mihaela Robila, 2013-06-19 Family policy holds a particular status in the quest for a

more equitable world as it intersects the rights of women, children, and workers. But despite local and global efforts and initiatives, the state of family policy in different areas of the world varies widely. Through a cross-section of countries on six continents, *Family Policies Across the Globe* offers the current state of the laws concerning family life, structure, and services, providing historical, cultural, and socioeconomic context. Lucidly written chapters analyze key aspects of family definition, marriage, child well-being, work/family balance, and family assistance, reviewing underlying social issues and controversies as they exist in each country. Details of challenges to implementation and methods of evaluating policy outcomes bring practical realities into sharp focus, and each chapter concludes with recommendations for improvement at the research, service, and governmental levels. The result is an important comparative look at how governments support families, and how societies perceive themselves as they evolve. Among the issues covered: Sierra Leone: toward sustainable family policies. Russia: folkways versus state-ways. Japan: policy responses to a declining population. Australia: reform, revolutions, and lingering effects. Canada: a patchwork policy. Colombia: a focus on policies for vulnerable families. Researchers, professors and graduate students in the fields of social policy, child and family studies, psychology, sociology, and social work will find in *Family Policies Across the Globe* a reference that will grow in importance as world events continue to develop.

Gallup World Poll International Court of Justice, 2011-06-15 The *Many Faces of Global Migration* report is an introduction to what Gallup has unearthed by asking migrants and potential migrants worldwide about their lives. The data presented in this report are based on Gallup's ongoing World Poll surveys in more than 150 countries, territories and regions and more than 750,000 interviews since 2005. As such, these findings provide an unprecedented look at the different push-and-pull factors that influence migration, the experiences of those who desire to migrate to other countries permanently or temporarily for work, those who are planning to go, those who are preparing to go, those who have already left, and those who have returned home - and what this means for governments, intergovernmental and non-governmental organizations, and other stakeholders.

HIV Exceptionalism Adia Benton, 2015-02-15 WINNER, 2017 RACHEL CARSON PRIZE, SOCIETY FOR THE SOCIAL STUDIES OF SCIENCE In 2002, Sierra Leone emerged from a decadelong civil war. Seeking international attention and development aid, its government faced a dilemma. Though devastated by conflict, Sierra Leone had a low prevalence of HIV. However, like most African countries, it stood to benefit from a large influx of foreign funds specifically targeted at HIV/AIDS prevention and care. What Adia Benton chronicles in this ethnographically rich and often moving book is how one war-ravaged nation reoriented itself as a country suffering from HIV at the expense of other, more pressing health concerns. During her fieldwork in the capital, Freetown, a city of one million people, at least thirty NGOs administered internationally funded programs that included HIV/AIDS prevention and care. Benton probes why HIV exceptionalism—the idea that HIV is an exceptional disease requiring an exceptional response—continues to guide approaches to the epidemic worldwide and especially in Africa, even in low-prevalence settings. In the fourth decade since the emergence of HIV/AIDS, many today are questioning whether the effort and money spent on this health crisis has in fact helped or exacerbated the problem. *HIV Exceptionalism* does this and more, asking, what are the unanticipated consequences that HIV/AIDS development programs engender?

Fevers, Feuds, and Diamonds Paul Farmer, 2020-11-17 “Paul Farmer brings his considerable intellect, empathy, and expertise to bear in this powerful and deeply researched account of the Ebola outbreak that struck West Africa in 2014. It is hard to imagine a more timely or important book.” —Bill and Melinda Gates [The] history is as powerfully conveyed as it is tragic . . . Illuminating . . . Invaluable. —Steven Johnson, The New York Times Book Review In 2014, Sierra Leone, Liberia, and Guinea suffered the worst epidemic of Ebola in history. The brutal virus spread rapidly through a clinical desert where basic health-care facilities were few and far between. Causing severe loss of life and economic disruption, the Ebola crisis was a major tragedy of modern medicine. But why did it happen, and what can we learn from it? Paul Farmer, the internationally renowned doctor and anthropologist, experienced the Ebola outbreak firsthand—Partners in Health, the organization he founded, was among the international responders. In *Fevers, Feuds, and Diamonds*, he offers the first substantive account of this frightening, fast-moving episode and its implications. In vibrant prose, Farmer tells the harrowing stories of Ebola victims while showing why the medical response was slow and insufficient. Rebutting misleading claims about the origins of Ebola and why it spread so rapidly, he traces West Africa’s chronic health failures back to centuries of exploitation and injustice. Under formal colonial rule, disease containment was a priority but care was not – and the region’s health care woes worsened, with devastating consequences that Farmer traces up to the present. This thorough and hopeful narrative is a definitive work of reportage, history, and advocacy, and a crucial intervention in public-health discussions around the world.

The Moment of Lift Melinda Gates, 2019-04-23 NEW YORK TIMES BESTSELLER “In her book, Melinda tells the stories of the inspiring people she’s met through her work all over the world, digs into the data, and powerfully illustrates issues that need our attention—from child marriage to gender inequity in the workplace.” — President Barack Obama “The Moment of Lift is an urgent call to courage. It changed how I think about myself, my family, my work, and what’s possible in the world. Melinda weaves together vulnerable, brave storytelling and compelling data to make this one of those rare books that you carry in your heart and mind long after the last page.” — Brené Brown, Ph.D., author of the New York Times #1 bestseller *Dare to Lead* “Melinda Gates has spent many years working with women around the world. This book is an urgent manifesto for an equal society where women are valued and recognized in all spheres of life. Most of all, it is a call for unity, inclusion and connection. We need this message more than ever.” — Malala Yousafzai Melinda Gates’s book is a lesson in listening. A powerful, poignant, and ultimately humble call to arms. — Tara Westover, author of the New York Times #1 bestseller *Educated* A debut from Melinda Gates, a timely and necessary call to action for women’s empowerment. “How can we summon a moment of lift for human beings – and especially for women? Because when you lift up women, you lift up humanity.” For the last twenty years, Melinda Gates has been on a mission to find solutions for people with the most urgent needs, wherever they live. Throughout this journey, one thing has become increasingly clear to her: If you want to lift a society up, you need to stop keeping women down. In this moving and compelling book, Melinda shares lessons she’s learned from the inspiring people she’s met during her work and travels around the world. As she writes in the introduction, “That is why I had to write this book—to share the stories of people who have given focus and urgency to my life. I want all of us to see ways we can lift women up where we live.” Melinda’s unforgettable narrative is backed by startling data as she presents the issues that most need our

attention—from child marriage to lack of access to contraceptives to gender inequity in the workplace. And, for the first time, she writes about her personal life and the road to equality in her own marriage. Throughout, she shows how there has never been more opportunity to change the world—and ourselves. Writing with emotion, candor, and grace, she introduces us to remarkable women and shows the power of connecting with one another. When we lift others up, they lift us up, too.

The Social Studies Curriculum E. Wayne Ross, 1997-01-01 Presents a substantive overview of the issues faced in social studies curriculum design, development, and implementation, with an emphasis on diversity of purposes and forms of knowledge within social studies as a school subject.

Development Without Aid David A. Phillips, 2013-04-01 “Development Without Aid” opens up perspectives about foreign aid to the world’s poorest countries. Growing up in Malawi the author developed a sense of the limitations of foreign assistance and from this evolves a critique of foreign aid as an alien resource unable to provide the dynamism that could propel the poorest countries out of poverty. The book aims to help move the discussion beyond foreign aid. It examines the rapid growth of the world’s diasporas as a quasi-indigenous resource of increasing strength in terms of both financial and human capital, and considers how far such a resource might supersede aid. It uses extensive research findings to explore the possibilities for a resumption of sovereignty by poor states, especially in Africa, over their own development with the assistance of the world’s diasporas.

The Psychosocial Aspects of a Deadly Epidemic Judy Kuriansky, 2016-03-21 Edited by a clinical psychologist who has been on the ground helping to develop psychosocial support for Ebola survivors in one of the hardest-hit regions of West Africa, this book explains the devastating emotional aspects of the epidemic and its impact on survivors and the population in West Africa, families in the diaspora, and people in the United States and other countries. It also describes lessons learned from past epidemics like HIV/AIDS and SARS, and valuable approaches to healing from future epidemics. While the devastating Ebola epidemic has been contained, the effects of this outbreak—referred to by the World Health Organization as the most severe acute public health emergency seen in modern times—have wreaked a tremendous emotional toll on the populations of West Africa as well as on families and survivors worldwide. This groundbreaking book covers the psychosocial needs, programs, and policies related to the Ebola epidemic and examines broader lessons of the outbreak, such as changes in the ways in which healing from future epidemics can be handled. Edited by Judy Kuriansky, PhD, a noted clinical psychologist and United Nations NGO representative with extensive experience helping after disasters worldwide, and direct experience gained from being on the ground in West Africa in the midst of the epidemic, this book identifies and explains universal psychological factors at play in all such crises. It debunks myths regarding Ebola and describes the resulting psychological and social harm caused by the epidemic. The chapters cover overarching emotional issues and problems as well as the long-term impact on at-risk groups, such as children, women, and health workers; the impact of emotional issues on social and economic life; responses of government officials, media, and various aid organizations; and solutions being offered by groups worldwide, including service and humanitarian organizations, politicians, policymakers, and public health education groups.

State of The Global Workplace Gallup,2017-12-19 Only 15% of employees worldwide are engaged at work. This represents a major barrier to productivity for organizations everywhere – and suggests a staggering waste of human potential. Why is this engagement number so low? There are many reasons — but resistance to rapid change is a big one, Gallup’s research and experience have discovered. In particular, organizations have been slow to adapt to breakneck changes produced by information technology, globalization of markets for products and labor, the rise of the gig economy, and younger workers’ unique demands. Gallup’s 2017 State of the Global Workplace offers analytics and advice for organizational leaders in countries and regions around the globe who are trying to manage amid this rapid change. Grounded in decades of Gallup research and consulting worldwide -- and millions of interviews -- the report advises that leaders improve productivity by becoming far more employee-centered; build strengths-based organizations to unleash workers’ potential; and hire great managers to implement the positive change their organizations need not only to survive – but to thrive.
