History of Sigma Pi Phi, First of the Negro-American Greek-letter Fraternities Charles Harris Wesley, 1954

BETA Boulé CHRONICLE of 100 YEARS CHICAGO Jesse Brown, 2007 Celebrating the Boulé Centennial On Celebrating e hundred years after six Philadelphia professional men founded Sigma Pi Phi Fraternity, the organization returned to Philadelphia with a cloud of blue-ribbon witnesses, living and dead, a record of 10 decades of achievement, and an expanding vision of an international band of brothers committed to service, brotherhood and excellence. More than 3,000 archons (members) and archousai (wives) attended the Grand Boulé Centennial Celebration, the largest gathering in the history of the fraternity, which is oftentimes called the Boulé, meaning, in fraternity parlance, a council of noblemen. The delegates and attendees, meeting in style in the salons and the grand ballroom of the Marriott Hotel, presented to themselves and to others a telling contrast with the restricted and largely segregated world of 1904 Philadelphia, where on May 15, 1904, a pharmacist, a dentist and two physicians- Henry McKee Minton, Dr. Algernon B. Jackson, Dr. Edwin C. Howard and Dr. Richard J. Warrick- met and announced to themselves, and to others, that a new world was coming. Within two weeks, two more doctors- Robert J. Abele and Eugene T. Hinson- joined, increasing the membership by 50 percent. In 1906 that council of Noblemen grew in number and the second enclave of Noble Black Men emerge in Chicago and that is how Beta Boule begun. This is that story .

African American Fraternities and Sororities Tamara L. Brown, Gregory S. Parks, Clarendia M. Phillips, 2012-02-29 The rich history and social significance of the “Divine Nine” African American Greek-letter organizations is explored in this comprehensive anthology. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members, exerting considerable influence in the African American community and being in the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King, Jr., Toni Morrison, Arthur Ashe, and Sarah Vaughn are just a few of the trailblazing members of these organizations. *African American Fraternities and Sororities* places the history of these organizations in context, linking them to other movements and organizations that predated them and tying their history to the Civil Rights movement. It explores various cultural aspects of the organizations, such as auxiliary groups, branding, calls, and stepping, and highlights the unique role of African American sororities.

Our Kind of People Lawrence Otis Graham, 2009-03-17 Now a TV series on FOX starring Morris Chestnut, Yaya DaCosta, Nadine Ellis, and Joe Morton. Fascinating. . . . [Graham] has made a major contribution both to African-American studies and the larger American picture. —New York Times Debutante cotillions. Million-dollar homes. Summers in Martha's Vineyard. Membership in the Links, Jack & Jill, Deltas, Boule, and AKAs. An obsession with the right schools, families, social clubs, and skin complexion. This is the world of the black upper class and the focus of the first book written about the black elite by a member of this hard-to-penetrate group. Author and TV commentator Lawrence Otis Graham, one of the nation's most prominent spokesmen on race and class, spent six years interviewing the wealthiest black families in America. He includes historical photos of a people that made their first millions in the 1870s. Graham tells who's in and who's not in the group today with separate chapters on the elite in New York, Los Angeles, Washington, Chicago, Detroit, Memphis, Atlanta, Philadelphia, Nashville, and New Orleans. A new Introduction explains the controversy that the book elicited from both the black and white communities.

African American Fraternities and Sororities Tamara Brown, 2005-03-11 *African American Fraternities and Sororities: The Legacy and the Vision* explores the rich past and bright future of the nine Black Greek-Letter organizations that make up the National Pan-Hellenic Council. In the long tradition of African American benevolent and secret societies, intercollegiate African American fraternities and sororities have strong traditions of fostering brotherhood and sisterhood among their members, exerting considerable influence in the African American community, and being on the forefront of civic action, community service, and philanthropy. Dr. Martin Luther King Jr., Toni Morrison, Arthur Ashe, Carol Moseley Braun, Bill Cosby, Sarah Vaughan, George Washington Carver, Hattie McDaniel , and Bobby Rush are among the many trailblazing members of these organizations. The rolls of African American fraternities and sororities serve as a veritable who's who among African American leadership in the United States and abroad. *African American Fraternities and Sororities* places the history of these organizations in context, linking them to other movements and organizations that predated them and tying their history to one of the most important eras of United States history—the Civil Rights struggle. *African American Fraternities and Sororities* explores various cultural aspects of these organizations such as auxiliary groups, branding, calls, stepping, and the unique role of African

American sororities. It also explores such contemporary issues as sexual aggression and alcohol use, college adjustment, and pledging, and provides a critique of Spike Lee's film *School Daze*, the only major motion picture to portray African American fraternities and sororities as a central theme. The year 2006 will mark the centennial anniversary of the intercollegiate African American fraternity and sorority movement. Yet, to date, little scholarly attention has been paid to these organizations and the men and women who founded and perpetuated them. *African American Fraternities and Sororities* reveals the vital social and political functions of these organizations and places them within the history of not only the African American community but the nation as a whole.

Black Greek-letter Organizations in the Twenty-First Century Gregory S. Parks, 2008-06-13 During the twentieth century, black Greek-Letter organizations (BGLOs) united college students dedicated to excellence, fostered kinship, and uplifted African Americans. Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr., Congresswoman Barbara Jordan, novelist Toni Morrison, and Wall Street pioneer Reginald F. Lewis. Despite the profound influence of these groups, many now question the continuing relevance of BGLOs, arguing that their golden age has passed. Partly because of their perceived link to hip-hop culture, black fraternities and sororities have been unfairly reduced to a media stereotype—a world of hazing without any real substance. The general public knows very little about BGLOs, and surprisingly the members themselves often do not have a thorough understanding of their history and culture or of the issues currently facing their organizations. To foster a greater engagement with the history and contributions of BGLOs, *Black Greek-Letter Organizations in the Twenty-first Century: Our Fight Has Just Begun* brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members. Editor Gregory S. Parks and the contributing authors provide historical context for the development of BGLOs, exploring their service activities as well as their relationships with other prominent African American institutions. The book examines BGLOs' responses to a number of contemporary issues, including non-black membership, homosexuality within BGLOs, and the perception of BGLOs as educated gangs. As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena, Louisiana, these organizations still have a vital mission. Both internally and externally, BGLOs struggle to forge a relevant identity for the new century. Internally, these groups wrestle with many issues, including hazing, homophobia, petty intergroup competition, and the difficulty of bridging the divide between college and alumni members. Externally, BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism, sexism, and other types of fear-driven behavior. By embracing the history of these organizations and exploring their continuing viability and relevance, *Black Greek-Letter Organizations in the Twenty-first Century* demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead.

African-American Holidays, Festivals, and Celebrations, 2nd Ed. James Chambers, 2019-09-01 Presents more than 100 diverse holidays and festivals observed by Americans of African descent, exploring their history, customs, and symbols. Also includes a chronology, bibliography, and index.
