I Am That I Am Francis Dale Bennett,2013-04-08 “Do read this book if you are seeking. It keeps it simple, yet utterly profound.”—Scott Kiloby, author of *Love’s Quiet Revolution* *I Am That I Am* began as a journal, written at the suggestion of author Francis Bennett’s spiritual director. It was intended to help Francis clarify and explore the shift in perception that had occurred to him—not only for his own sake, but for those who might seek his spiritual guidance in the future. This deceptively simple book brings a unique freshness and humanity to the meeting of Christianity with Eastern investigation of the nature of the self. As Francis says, “Who I am is happiness and bliss ... don’t take my word for any of this. You can experiment with this on your own and discover for yourself whether or not these claims are true. This little book may be able to assist you in conducting just such an experiment in your own life. That is certainly my hope in writing it.”

Pope Francis, Conscience of the World John Raymaker,Gerald Grudzen,2019-11-12 Why is it that Pope Francis is admired by so many? What gives him the uncanny ability to speak with young people in language familiar to them? In this book, John Raymaker and Gerry Grudzen explore the life and writings of Pope Francis which have a prophetic, visionary ability to speak to important issues of the day. The authors evaluate how Pope Francis’ encounters with religious leaders of other faiths have broken new ground to help unite mankind. They reach back into Christian history to explore the teachings of such Catholic mystics as Thomas Merton while also delving into the beliefs of Islamic and Buddhist mystics to demonstrate how well the pope is in touch with a spirituality that can speak to those seeking the truth. In its final chapters, the book examines how the pope endorses the work of Christians who live their faith in small Christian communities and reveals how such communities can strengthen parish life in various parts of the world. Like St. Francis, his namesake, and like Teilhard de Chardin before him, the pope has an appropriate vision to rebuild God’s Church in a transitional age. His writings have focused on caring for the earth and preaching the good news of the gospels in a way that and allows him to reach young people in need of joy as they face an uncertain future. He is the Conscience of the World.

Reflections Jim Pinnells,2018-09-14 Diana and Ed have everything – youth, happiness and success – until the birth of a brain-damaged daughter devastates their world. While Diana finds it hard to connect and rejects the baby, Ed, unable to understand his wife’s coldness, loves and cares for the

child. When Diana is offered a job at the UN in Bangkok, she flees from the situation, only to find herself alone, rootless and frightened for her sanity. Although Ed visits her in Bangkok, the distance between them remains. They can talk but they cannot communicate. The situation worsens when Ed, an artist who paints images of reflections, is mistaken for a blood-buyer by a gang in Bangkok which trades in human blood on the illegal international market. The gang runs blood-farms, where children with interesting blood groups are milked for their blood. In disgust and horror, Ed decides to infiltrate the gang partly to save these small children, and partly to appease the self-hatred that consumes him - Ed blames himself for the damage to the brain of his own beloved daughter. *Reflections* is the story of love lost and love recovered in a whirlwind of abuse, exploitation and infamy. It plays out in the seamy bars and luxury hotels of Bangkok, on the filthy streets, and in the ancient warehouses of Chatuchak. Deceptions, kidnapping and a desperate love rocket the book to an end that will keep readers guessing until the final page.

The Gatherers Craig Markley, 2014-11-17 Never give up your dream, especially if it is a book, what seems so far away; isn't. — C. Markley Detective Nick Gosch and his partner Gus Kaminiski fight crime on a daily basis in New York City, but this day is different than the rest. A routine missing child case puts Nick in a tailspin as he flashes back to the disappearance of his own little sister years before. He soon finds a pattern: recent missing children were taken near military bases. Nick feels this can't be coincidence, so he and Gus question military authorities to see if they can turn up any clues. They interview several high-ranking officials at several military bases but come up dry. Months pass with no new leads, and Nick is about to give up when a threatening note arrives, warning him off further investigation. The note only makes Nick hungrier for the truth, but his prodding leads to his abduction by hooded men who take him to an undisclosed location. There, he meets Agent Keasling, a human hybrid with reptile eyes. Despite increased threats, Nick proceeds with the case in the hopes of finding all the lost children of the city, including his precious sister.

Mirrors of Destruction Omer Bartov, 2000-08-24 *Mirrors of Destruction* examines the relationship between total war, state-organized genocide, and the emergence of modern identity. Here, Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict, mass murder of civilian populations, and the definition and categorization of groups and individuals. These connections were most clearly manifested in the Holocaust, as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire. The Holocaust, however, can only be understood within the context of the century's predilection for applying massive and systematic methods of destruction to resolve conflicts over identity. To provide the context for the Final Solution, Bartov examines the changing relationships between Jews and non-Jews in France and Germany from the outbreak of World War I to the present. Rather than presenting a comprehensive history, or a narrative from a single perspective, Bartov views the past century through four interrelated prisms. He begins with an analysis of the glorification of war and violence, from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking. He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder. The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society's elusive enemies or enemies from within. Bartov concludes with an investigation of modern apocalyptic visions, showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identities after a catastrophe. Written with verve, *Mirrors of Destruction* is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history.

War in the Cass Corridor Brett D. Lawson, 2017-07-03 In 1957, four-year-old Brett is confronted with his fathers misdeeds. When Bretts father, Burt, has an affair with a police officers wife, Officer Benny Garcia vows to return the favor and destroy Burt and his family. After moving to another district in Detroit to escape Garcias wrath, Brett is accepted to Burton Elementary, a prestigious school for gifted children. The cop is relentless, however, and guns down and kills Bretts second-grade classmate and attempts to frame Brett for his murder. The Detroit police uncover the true perpetrator and reveal Garcia as the criminal. Brett learns Garcia is not just a cop but a federal agent operating with several accomplices. Brett uncovers a plot to kill President Kennedy and the only hope to bring the rogue agents to justice is to memorize the crimes the team commits with his photographic memory. Soon after Brett begins his quest, hes stabbed by a local gang. His mothers father, a highly skilled marksman, takes Brett down south for gun training to learn to defend his family. In a short time, Brett becomes skilled and deadly with a hand gun, and the war in the Cass Corridor is on.

Towards User-Centric Transport in Europe 3 Imre Keseru, Annette Randhahn, 2023-03-30 This book gathers contributions to the EU-funded Horizon 2020 project INDIMO (Inclusive Digital Mobility Solutions), its sister projects DIGNITY (Digital Transport in and for Society) and TRIPS (Transport Innovation for Persons with Disabilities Needs Satisfaction), which have been focusing on making transport systems inclusive and accessible for all. Digitalization has enabled the emergence and proliferation of novel, 'disruptive' transport and delivery services. These services are often exclusively only available through digital channels such as a smartphone app or website. Yet a substantial segment of the population is at risk of being excluded from these services for a variety of reasons. Therefore, it is strongly necessary to integrate inclusivity and accessibility into the design and operation of mobility services. This book aims at discussing cases of and reasons for digital exclusion in transport. It also investigates the role of participatory and user-centric planning and design methods in making digital mobility more inclusive and accessible. Further, it discusses tools and technologies that could help policy makers to develop digital mobility as a more inclusive and accessible service. This is an open access book.
