Systematic Observation: Engaging Researchers in the Study of Daily Life as It Is Lived M. Teresa Anguera,Angel Blanco-Villaseñor,Gudberg K. Jonsson,José Luis Losada,Mariona Portell,2019-10-04 Assessment in natural contexts through observation is unquestionably complex. Systematic observation grounded in observational methodology offers a wide range of possibilities to the rigorous study of everyday behavior in their natural context. These possibilities have been enriched in recent decades with the explosion of information and communication technologies. In this eBook we assemble 23 articles from several researchers who have made important contributions to this evolving field. The articles included in this eBook has been organized with a first part on general methodological developments and a second part with methodological contributions that emphasize different application areas. Considering the enormous possibilities of the systematic observation in the study of daily life, we hope this eBook will be useful to understand innovative applications in different fields.

The Question of Animal Culture Kevin N. Laland,Bennett G. Galef,2009-02-16 Fifty years ago, a troop of Japanese macaques was observed washing sandy sweet potatoes in a stream, sending ripples through the fields of ethology, comparative psychology, and cultural anthropology. The issue of animal culture has been hotly debated ever since. Now Kevin Laland and Bennett Galef have gathered key voices in the often rancorous debate to summarize the views along the continuum from “Culture? Of course!” to “Culture? Of course not!” The result is essential reading for anyone interested in the validity of animal culture, and what it might say about our own.

Exploring Science with Dyslexic Children and Teens Diana Hudson,2021-06-21 This book is a collection of ideas, activities and approaches for science learning, to support kids with learning differences aged 9+ to grow in confidence, recall and understanding. The multi-sensory and fun ideas and activities can be adapted to suit individual students' needs and skills, and curriculum stage. Written by an experienced science teacher, the book includes mnemonics, art, drama and poetry activities, board games, card games, and more. All of these strategies will aid neurodiverse students' science learning and memory through boosting their creative thinking, encouraging a play-based and exploratory approach to science. Whether you want to get creative, play a game or try out a fun experiment, you can dip in and out of the activities to suit your student's unique learning style. The activities in the book will help creative thinkers who learn differently to take alternative approaches to tricky topics, grasping a fundamental understanding of key scientific concepts, whilst gaining confidence as the scientists of tomorrow.

Simon Says William D. Watkins,2018-08-11 'Simon Says' by William D Watkins is a book that will delight both children and parents alike. This picture book of a mother and son's day at the inner city petting farm will evoke memories of warm summer days for years to come. The delicately drawn illustrations will hold your child's interest for hours and is sure to be a firm favourite on the reading list.William Watkins was inspired to write, Simon Says, after a family day out at an inner-city petting farm when William noticed another family going around with a crying child. The mother of the child seemed convinced that the child was afraid of the larger animals. 'Simon Says, ' shows what William imagined was actually going on. William also hopes that this book will introduce young children to all sorts of farm animals
