Emergencies in Urology M. Hohenfellner, R.A. Santucci, 2007-08-18 This is a comprehensive textbook covering one of the few remaining blind spots on the map of urological literature. To date only a small number of publications have been dedicated to the topic of urgent and emergent problems in urology, important though they are in everyday clinical medicine. The editors are both internationally recognized urological experts and have made the effort to present an in-depth study into virtually every possible urgent urological situation with which a urologist may be confronted today. Thus the book includes chapters on topics such as urological trauma, urosepsis, urinary obstruction, oncological emergencies, intra- and postoperative complications, acute problems in children, and many more.

Arbitration in Egypt Ibrahim Shehata, 2021-10-05 Egypt, and in particular the Cairo Regional Centre for International Commercial Arbitration (CRCICA), has clearly cemented its status as a preferred seat for arbitration cases in both the Middle East-North Africa (MENA) region and the African continent. To assist parties with a need or desire to arbitrate disputes arising in these regions – whether commercial or investment – this incomparable book, the first in-depth treatment in any language of arbitration practice under Egyptian law, provides a comprehensive overview of the arbitration process and all matters pertaining to it in Egypt, starting with the arbitration agreement and ending with the recognition and enforcement of the arbitral award. Citing more than 2,500 cases – both awards and arbitral-related court judgments – the book's various chapters examine in detail how Egypt's arbitration law, based on the UNCITRAL model law, encompasses such internationally accepted arbitral provisions and aspects as the following: application of the New York Convention; concept of arbitrability; choice of applicable law; formation of the arbitral tribunal; selection, rights, duties, liability, and challenge of arbitrators; arbitral procedures; evidence and experts and burden of proof; form and content of arbitral awards; annulment and enforcement procedures; interaction between Sharia law and arbitration; role of Egypt's Technical Office for Arbitration (TOA); and judicial fees. Special issues such as third-party funding and public policy as well as particular areas of dispute such as construction, sports, real estate, labor and employment, tax, competition, intellectual property, and technology transfer are all covered. The author offers practical guidelines tailored to arbitration in these specific areas of law. An added feature is the many figures and other visuals that accompany the text. For whoever is planning to or is currently practicing arbitration in the Middle East, this matchless book gives arbitrators, in-house counsel and arbitration practitioners everything that is needed to answer any question likely to arise. This book should be on the shelf of every practitioner and academic wishing to comprehend arbitration in Egypt as construed by the Egyptian Courts. Review/Testimonial: "The book is an excellent contribution to understand and assess Egyptian international arbitration law and practice and invaluable guide for lawyers, arbitrators and academics working on arbitration cases connected to Egypt for three main reasons: First, a case law perspective that adds considerable value to the book. The author examines not only the text of laws but also the case law. On every issue, Mr Shehata quotes the positions of Egyptian courts, especially those of the Egyptian Cassation Court. With more than 2,500 cases cited, the book is a precious source to discover the Egyptian decisions originally only in Arabic. Through an analysis and commentary of a great number of decisions rendered by various levels of Egyptian courts, the book offers the most reliable source with regard to the interpretation and the application of the Law No. 27 of 1994 and the international conventions by Egyptian courts. Second, a complete and far-reaching analysis. The book covers all aspects of the arbitration process from the arbitration agreement to the enforcement of arbitral awards. It includes the specific arbitration sectors such as sport arbitration, construction arbitration and investment arbitration. This coverage makes the book one of the reference work on the whole regime of arbitration in Egypt. Third, an up-to-date study, which takes into account rule changes and up-to-date developments on new trends, such as third-party funding, optional clauses, virtual hearings, the use of tribunal secretaries and issues of ethics in arbitration." Aliens in Wonderland Alpha,2010-02 An informative in-depth look at the lives of several extraterrestrials (E.T.'s), Extraterrestrial Biological Entities (E.B.E.'s), and aliens, what their lives are like on their planets in their galaxies, what their spaceships are like, and how they are connected to us here on Earth. In addition, the book delves into how they are important to our religion and military strength. This novel also looks at some historical revelations, future predictions, and current happenings including an interesting collection of anecdotes regarding an ex-CIA agent who gets his wishes granted. It's the author's intention to, at the very least, bridge the gaps that exist between the religions of our generation. One gap is between our present long standing accepted knowledge of our concept of God, and our comprehensible real God. As well, a gap exists between how we are told we should interpret and demonstrate the meaning of God and how we show our faith and prove our belief in the living Creator. These are some things that the author thinks everyone needs to know about God, Satan, and UFOs. This book has been a long time in the making, twenty years, but somehow it still manages to remain ahead of its time, in most cases.

Tie a Yellow Ribbon Tony Orlando,2006-05-07 This is a celebration of the waiting, longing, and hoping that the yellow ribbon has come to signify. This powerful book honors both those who are away and those who lovingly await their return.

Corruption in International Arbitration Inan Uluc,2018 Corruption's involvement in arbitration is far from novel, but, there remains a lack of uniformity among arbitral tribunals on how to tackle corruption.This study delves into these controversial concerns and analyses practical solutions within the context of theory and practice.

International Investment Protection of Global Banking and Finance Arif H. Ali,David L. Attanasio,2021-09-14 Global banking and finance is a complex and specialized field with sector-specific investment forms, subject to distinctive legal and regulatory frameworks and unique types of political risk. This comprehensive guide to international investment protection in the finance and banking sector, written by acknowledged experts in the field of investor-State arbitration, provides the first in-depth discussion of how international investment law applies to investors and investments in the sector. Featuring expert guidance on the key legal protections for cross-border banking and finance investments, with complete and up-to-date coverage of investor-State cases, the analysis crystallizes a set of field-specific legal principles for the sector. In particular, the authors address the following practical aspects of investment protection in the banking and finance sector: how sector-specific forms of investment, such as loans and derivatives, impact the dispute resolution process; types of political risk that cross-border investments in the sector are likely to encounter; distinctive adverse sovereign measures that underlie disputes in the sector, including those from sovereign debt defaults and banking sector bailouts; specific treaty provisions, such as jurisdictional carve-outs and targeted exclusions; remedies available for violations of international investment protections; how monetary damages may be assessed for injury to banking and finance sector investments; the scope of financial services chapters included in certain free trade agreements; the protections available under domestic foreign investment laws; and alternative sources of protection such as political risk insurance and investment contracts. International disputes practitioners and academics, in-house counsel in the finance and banking industries, and arbitrators addressing banking and finance disputes will welcome this book for its practical guidance. With strategies for investors as well as for sovereign States to navigate the intricacies of the investment protection system, the authors' comprehensive analysis will help ensure appropriate international protection for banking and finance sector investments, both when establishing investments and when resolving disputes. The book lays the groundwork for the future consolidation of international investment protection as a critical tool to manage the political risk confronting global banking and finance.

Proof Positive Neil Nedley,1999 A must for all wanting to use natural means for preventing or treating high blood pressure, blocked arteries, cancer,

chronic fatigue, diabetes, osteoporosis, and many other afflictions. Provides information that minimizes the use of prescription drugs, diet fads, and their accompanying side effects. Highly illustrated in full color, this tome of information is designed to be readable and easy-to-understand. Singular case studies, which can be misleading, are not used. Instead, the results of a host of scientific studies conducted around the world are cited, many of which involve large groups of individuals with widely varying lifestyles. Many topics are covered such as how to strengthen the immune system, overcome addictions, increase reasoning ability, cope with stress, and enhance children's mental and physical potential.

A Glimpse of Iraq Ibrahim Al-Shawi, 2006 A book written by an Iraqi about Iraq and Iraqis to make them comprehensible. It explains the diversity and the lingering antiquity that shape the country in simple terms and through facts and anecdotes. It looks at the occupation, the chaos and lawlessness that followed and their effect on the lives of people and individuals. It also provides a look into the Triangle of Death - one of the most volatile regions in the country - from the inside, showing some of the intricacies of tribal relations. But, above all, this book is about people. It aims to illustrate how ordinary people dealt with the traumatic situation, why civil war was so hard to ignite and why there is still hope. It may help the reader understand the failure to understand that led to failure.

Culture and Tourism in a Smart, Globalized, and Sustainable World Vicky Katsoni, Ciná van Zyl, 2021-06-21 This book gathers the proceedings of the 7th International Conference, with the theme "Culture and Tourism in a Smart, Globalized and Sustainable World," held on Hydra Island, Greece, on June 17-19, 2020, published with the support of the International Association of Cultural and Digital Tourism. Highlighting the contributions made by numerous writers to the advancement of tourism research, this book presents a critical academic discourse on sustainable practices in the smart tourism context, improving readers' understanding of, and stimulating future debates in, this critical area. In addition to the knowledge economy and the concept of smart destinations, the book addresses new modes of tourism management and development, as well as emerging technologies, including location-based services, the Internet of things, smart cities, mobile services, gamification, digital collections and the virtual visitor, social media, social networking, and augmented reality.

Medicinal Plants in the Republic of Korea, 1998 Presents concise monographs, accompanied by full-colour photographs, for the 150 plant species most commonly used for medicinal purposes in the Republic of Korea. In view of the country's long and successful history in the use of traditional medicines, the book aims to provide written and visual documentation of important plants and summarize their uses to treat ailments, protect against disease, or promote health. In so doing, the book also aims to encourage the wider use of Korea's medicinal plants and promote their conservation. Each plant species is covered according to a common format, which includes the scientific name of the plant, Korean name, English common name, parts used, and clinical uses in traditional Korean medicine. Also included are a detailed botanical description of the plant, its habitat and geographical distribution, followed by a summary of biological actions and chemical components as reported in the traditional medicine literature. The 150 full-colour photographs, included to facilitate identification of plants and plant parts used for medicinal purposes, were taken under natural conditions during the flowering or fruiting seasons. Retrieval of information is facilitated by the inclusion of indexes giving scientific names, the English common names, and the Korean plant names.

Urological Emergencies Hunter Wessells, 2013-06-12 Urological Emergencies: A Practical Approach, Second Edition provides a concise, evidence based review of common urgent and emergent urological conditions in children and adults. Descriptions of the appropriate diagnostic and therapeutic considerations on topics of traumatic, infectious, obstructive, hemorrhagic, iatrogenic, vascular and congenital urological emergencies in adults and children are provided. The text is organized by pathophysiology rather than organ system, allowing the reader to develop approaches to the care of patients with acute urological conditions based on mechanism of disease. Relevant pathophysiological background and epidemiology are reviewed,

necessary diagnostic testing recommended, and detailed medical, surgical and endourological management approaches have been provided. All chapters incorporate published guidelines and best practice recommendations from appropriate organizations including the American Urological Association, the Centers for Disease Control and Prevention, and various International Consultations on Urological Diseases. New or significantly revised chapters in each of the subsections address innovations in trauma care and prevention, new strategies in management of kidney stones, and special care needs of children with acute urological problems. Urological Emergencies: A Practical Approach, Second Edition is of great value to practicing urologists, urology residents, emergency medicine trainees and practitioners, and primary care providers including MD's, PA's, and NP's without immediate access to urological consultation.

New Developments in Biomedical Engineering Domenico Campolo, 2010-01-01 Biomedical Engineering is a highly interdisciplinary and well established discipline spanning across engineering, medicine and biology. A single definition of Biomedical Engineering is hardly unanimously accepted but it is often easier to identify what activities are included in it. This volume collects works on recent advances in Biomedical Engineering and provides a bird-view on a very broad field, ranging from purely theoretical frameworks to clinical applications and from diagnosis to treatment.

Stresses and Displacements for Shallow Foundations D. Milovic, 2013-10-22 This monograph presents the results of the theoretical analyses of stresses and displacements for shallow foundations subjected to various types of loads. In these analyses not only the classical models but more complex models of soils have been used, such as two-layer half-space, homogenous compressible layer of finite thickness, two-layer compressible layer of finite thickness, anisotropic compressible layer. Contact stresses, settlements, vertical stress distribution, bending moments and shear forces have been determined for foundations of any rigidity. Numerous values of the dimensionless coefficients I are tabulated, which can be of use in the solution of practical engineering problems.

Variable Speed Pumping Europump & the Hydraulic Insti, 2004-06-10 Prepared by industry experts from the pump, motor and drive industries under the auspices of Europump and the Hydraulic Institute, this reference book provides a comprehensive guide to variable speed pumping. Capital Fundamentalism, Economic Development, and Economic Growth Robert Graham King, Ross Levine, 1994 Should our research and policy advice be guided by a modern version of capital fundamentalism, in which capital and investment are viewed as the primary determinants of economic development and long-run growth? No. Capital accumulation seems to be part of the process of economic development, not its igniting source.

Serious as Dog Dirt Bam Margera, 2009-11-17 He's bared himself on screens big and small, but now, Bam Margera exposes himself as never before. Famous for his fearless, cringe-inducing, funny as s*** daredevil stunts, he has thrilled and revolted audiences worldwide. Now, for the first time, Bam shares his private writings, never-before-seen personal photos, drawings, and more in this anarchic auto-collage/travelogue, a frenetic yet brutally honest document of the life he leads and a dynamic testament to his wild imagination. Known for his creative style since becoming a pro skater at thirteen, Bam pulls readers into his chaotic world—the music, the movies, the pranks, the skating, the glory, the pain, and the blood. This time, Bam

Margera is serious . . . as dog dirt.

Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth Lytras, Miltiadis D., Daniela, Linda, Visvizi, Anna, 2018-10-12 The modern world is developing at a pace where few can thoroughly keep track of its progress. More advancements in technology, evolving standards of education, and ongoing cultural and societal developments are leading to a need for improved pathways of knowledge discovery and dissemination. Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth provides emerging research exploring how academic research can represent both a bold response to the problems society faces today and a source of alternative solutions to those problems. This publication is derived from the basic understanding that education plays the role of the key enabler in the process of navigating these contemporary challenges. Featuring coverage on a broad range of topics such as e-service exploration, progressive online learning in urban areas, and advances in multimedia sharing, this book is ideally designed for consultants, academics, industry professionals, policymakers, politicians, and government officials seeking current research on the impact of information technology and the knowledge-based era.

The Sixth Station Linda Stasi, 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.
