Music in Early Childhood: Multi-disciplinary Perspectives and Inter-disciplinary Exchanges Susan Young,Beatriz Ilari,2019-07-17 This book examines four main areas of music in early childhood: the traditions of music for young children, their capacities for music, the way they make music with others, and constructed and mediated musical childhoods. It studies several themes in detail, including music making in the home and family life, various musical experiences in schools, day cares, and the community at large in several locations around the globe. It looks at technology and diverse musical repertoires, as well as innovative pedagogies, children's agency, and brain research. Expanding on the knowledge bases on which early childhood music education typically draws, the book brings together contributions from a range of authors from diverse fields such as education, psychology, sociology, cultural studies, anthropology, philosophy, ethnomusicology, and the neurosciences. The end result is a volume that offers a broad and contemporary picture of music in early childhood.

The Routledge Companion to Interdisciplinary Studies in Singing, Volume II: Education Helga R. Gudmundsdottir,Carol Beynon,Karen Ludke,Annabel J. Cohen,2020-05-19 The Routledge Companion to Interdisciplinary Studies in Singing, Volume II: Education examines the many methods and motivations for vocal pedagogy, promoting singing not just as an art form arising from the musical instrument found within every individual but also as a means of communication with social, psychological, and didactic functions. Presenting research from myriad fields of study beyond music—including psychology, education, sociology, computer science, linguistics, physiology, and neuroscience—the contributors address singing in three parts: Learning to Sing Naturally Formal Teaching of Singing Using Singing to Teach In 2009, the Social Sciences and Humanities Research Council of Canada funded a seven-year major collaborative research initiative known as Advancing Interdisciplinary Research in Singing (AIRS). Together, global researchers from a broad range of disciplines addressed three challenging questions: How

does singing develop in every human being? How should singing be taught and used to teach? How does singing impact wellbeing? Across three volumes, *The Routledge Companion to Interdisciplinary Studies in Singing* consolidates the findings of each of these three questions, defining the current state of theory and research in the field. Volume II: Education focuses on the second question and offers an invaluable resource for anyone who identifies as a singer, wishes to become a singer, works with singers, or is interested in the application of singing for the purposes of education.

HBO's Girls Betty Kaklamanidou, Margaret Tally, 2014-03-25 Young women today have achieved as much as, and in many cases far exceeded, males in both educational and occupational terms. While this presents many opportunities, it also creates confusion in terms of re-negotiating traditional gender roles. The fictional representation of young women in recent film and television shows demonstrates how these tensions, created by the specific sociopolitical climate of the post-recession era, are being worked out. One specific television show focused on intelligent young women caught up in these contradictions is *Girls*. The show explores the lives of four female friends living in Brooklyn, two years after their college graduation, as they try to support themselves with low-paying jobs, and deal with various struggles around relationships, careers, and friendships. The HBO half-hour sitcom, created, written by and starring Lena Dunham, premiered on April 15th 2012 after receiving a flood of initial buzz and criticism, both positive and negative. This collection is the first to discuss the cultural, political and social implications of this innovative series. The contributors examine *Girls* through a variety of lenses: sexual, racial, gender, relationships between the male and female characters, as well as friendships between the young women. This variety of perspectives explains why *Girls* has had the profound cultural impact it has made, in the short time it has been on the air.

Never Sit If You Can Dance Jo Giese, 2019-04-23 An Amazon Bestseller Jo's mother, Babe, liked to drink, dance, and stay up very late. When the husband she adored went on sales calls, she waited for him in the parking lot, embroidering pillowcases. Jo grew up thinking that the last thing she wanted was to be like her mother. Then it

dawned on her that her own happiness was derived in large part from lessons Babe had taught her. Her mother might have had tomato aspic and stewed rhubarb in her fridge, while Jo had organic kale and almond milk in hers, but in more important ways they were much closer in spirit than Jo had once thought. At a turbulent time in America, *Never Sit If You Can Dance* offers uplifting lessons in old-fashioned civility that will ring true with mothers, daughters, and their families. Told with lighthearted good humor, it's a charming tale of the way things used to be—and probably still should be.

Vitality and Change in Warlpiri Songs Georgia Curran, Linda Barwick, Nicolas Peterson, Valerie Napaljarri Martin, Simon Japangardi Fisher, 2024-03 Warlpiri songs hold together the ceremonies that structure and bind social relationships, and encode detailed information about Warlpiri country, cosmology and kinship. Today, only a small group of the oldest generations has full knowledge of ceremonial songs and their associated meanings, and there is widespread concern about the transmission of these songs to future generations. While musical and cultural change is normal, threats to attrition driven by large-scale external forces including sedentarisation and modernisation put strain on the systems of social relationships that have sustained Warlpiri cultures for millennia. Despite these concerns, songs remain key to Warlpiri identity and cultural heritage. *Vitality and Change in Warlpiri Songs* draws together insights from senior Warlpiri singers and custodians of these song traditions, profiling a number of senior singers and their views of the changes that they have witnessed over their lifetimes. The chapters in this book are written by Warlpiri custodians in collaboration with researchers who have worked in Warlpiri communities over the last five decades. Spanning interdisciplinary perspectives including musicology, linguistics, anthropology, cultural studies, dance ethnography and gender studies, chapters range from documentation of well-

known and large-scale Warlpiri ceremonies, to detailed analysis of smaller-scale public rituals and the motivations behind newer innovative forms of ceremonial expression. *Vitality and Change in Warlpiri Songs* ultimately uncovers the complexity entailed in maintaining the vital components of classical Warlpiri singing practices and the deep desires that Warlpiri people have to maintain this important element of their cultural identity into the future.

Why Muslim Women and Smartphones Karen Waltorp, 2020-07-12 Using an assemblage approach to study how Muslim women in Norrebro, Denmark use their phones, Karen Waltorp examines how social media complicates the divide between public and private in relation to a group of people who find this distinction of utmost significance. Building on years of ethnographic fieldwork, Waltorp's ethnography reflects the trust and creativity of her relationships with these women which in turn open up nuanced discussions about both the subject at hand and best practice in conducting anthropological research. Combining rich ethnography with theoretical contextualization, Waltorp's book alternates between ethnography and analysis to illuminate a thoroughly modern community, and reveals the capacity

of image-making technology to function as an infrastructure for seeing, thinking and engaging in fieldwork as an anthropologists. Waltrip identifies a series of important issues around anthropological approaches to new media, contributing to new debates around the anthropology of automation, data and self-tracking.

Everybody Sing & Dance Esther L. Nelson, 2004

The Book of Dreams Nina George, 2019-04-09 Warm, wise, and magical—the latest novel by the bestselling author of *THE LITTLE PARIS BOOKSHOP* and *THE LITTLE FRENCH BISTRO* is an astonishing exploration of the thresholds between life and death. Henri Skinner is a hardened ex-war reporter on the run from his past. On his way to see his son, Sam, for the first time in years, Henri steps into the road without looking and collides with oncoming traffic. He is rushed to a nearby hospital where he floats, comatose, between dreams, reliving the fairytales of his childhood and the secrets that made him run away in the first place. After the accident, Sam—a thirteen-year old synesthete with an IQ of 144 and an appetite for science fiction—waits by his father's bedside every day. There he meets Eddie Tomlin, a woman forced to confront her love for Henri after all these years, and twelve-year old Madelyn Zeidler, a coma patient like Henri and the sole survivor of a traffic accident that killed her family. As these four very different individuals fight—for hope, for patience, for life—they are bound together inextricably, facing the ravages of loss and first love side by side. A revelatory, urgently human story that examines what we consider serious and painful alongside light and whimsy, *THE BOOK OF DREAMS* is a tender meditation on memory, liminality, and empathy, asking with grace and gravitas what we will truly find meaningful in our lives once we are gone.
