Dating for Dads Ellie Slott Fisher, Paul D. Halpern, 2008 Here is the first book written specifically for men who date while answering to a higher authority: their children. As a single father, you're ready to begin dating again. But are your kids ready? In this much-needed guide, relationship expert Ellie Slott Fisher comes to the rescue with no-nonsense, no-judgments advice on everything from how to ask a woman out to navigating the potential minefield of overnight dates. Single dads are as nervous as single moms about merging their parental responsibilities with their social lives, but they often don't have intimate friendships in which to share their concerns. Drawing on her own experience as a single parent, interviews and surveys she conducted with more than a hundred single fathers and their children, and the advice of family therapist Dr. Paul Halpern, Fisher gives the lowdown on a range of tricky topics, including: -When do I introduce my kids to the woman I'm dating? -What if they don't like her? -Is it acceptable to date someone closer to my child's age than my own? -Are sleepovers okay when my kids--or her kids--are home? -How do I give my children the reassurance they need while pursuing a social life of my own? Plus, how to avoid one of the biggest

dating pitfalls: mistaking lust for love. From dealing with your ex-spouse to protecting your children's inheritance, and many issues in-between, Fisher gives single fathers the tools they need to be both sexy suitors and devoted dads.

Mom, There's a Man in the Kitchen and He's Wearing Your Robe Ellie Slott Fisher, 2009-04-15 Embarking on the dating scene can be a fun though sometimes daunting prospect for any single woman. But for the more than 10 million single women in the U.S. with children at home, dating is a much more complicated matter. Whether uncoupled through divorce or death, single moms face a wide range of questions: When will I be ready to date and how do I start? When-and what-should I tell the kids? What happens if I love the guy and the kids hate him? In *Mom, There's a Man in the Kitchen and He's Wearing Your Robe*, Ellie Slott Fisher, a once-widowed, once-divorced single mother of two, speaks with refreshing candor about balancing dating and parenting. Drawing upon her own experience, the stories of many other women, and the advice of family psychologists, Fisher offers encouragement, strategies, and a healthy dose of humor for the single-but-looking mom-from how to meet men in the first place to when to introduce your date to the kids, from when and where to work sex into the equation to how to talk to your dating teenagers without looking like a hypocrite. Practical, funny, and hopeful, this is the one guide single moms need before jumping into the murky waters of the dating pool.

Marriages and Families in the 21st Century Tasha R. Howe, 2011-08-29 Marriages and Families in the 21st Century provides an in-depth exploration of a traditional field of study using a new and engaging approach. The text covers all the important issues—including parenting, divorce, aging families, balancing work and family, family violence, and gender issues—using a bioecological framework that takes into account our status as both biological and social beings. Using this lens, which emphasizes the individual's interactions with a series of larger systemic influences—from family, peers, neighbors and teachers, to schools, media, institutions and culture—the book creates a cohesive overview of modern family life and helps students

visualize the complex influences affecting all people in families. It also examines the state of modern families using a strengths-based approach, which allows students to evaluate the health and functioning of a family considering the biological and cultural milieu in which it exists, rather than on its observable structure or appearance alone. Individual chapters cover historical and cultural trends and also explore the biological, personal, and social forces that shape individuals and families. Each chapter investigates the wide diversity of human relationships and integrates discussions of ethnicity, culture, sexual orientation, and gender seamlessly into the main narrative. In addition, the book explores recent research in neuroscience, medicine, and biopsychology to examine how family relationships are shaped by and also influence individuals' biological functioning. An accessible writing style coupled with numerous student-friendly pedagogical features help readers come to a multi-layered understanding of what makes families tick, while also challenging them to reevaluate their own assumptions and experiences. Key features: Uses a bioecological model that takes into account our status as both biological and social beings Employs a strengths-based approach that focuses on family processes rather than structure in evaluating families' optimal health and happiness Incorporates discussion of neuroscience, medicine, and biopsychological research throughout Explores a wide diversity of family relationships, integrating issues of ethnicity, culture, sexual orientation, and gender Focus on my

Immigrants on Grindr Andrew DJ Shield, 2019-11-07 This book examines the role of hook-up apps in the lives of gay, bi, trans, and queer immigrants and refugees, and how the online culture of these platforms promotes belonging or exclusion. Within the context of the so-called European refugee crisis, this research focuses on the experiences of immigrants from especially Muslim-majority countries to the greater Copenhagen area, a region known for both its progressive ideologies and its anti-immigrant practices. Grindr and similar platforms connect newcomers with not only dates and sex, but also friends, roommates and other logistical contacts. But these socio-sexual platforms also become spaces of racialization and othering. Weaving together

analyses of real Grindr profile texts, immigrant narratives, political rhetoric, and popular media, *Immigrants on Grindr* provides an in-depth look at the complex interplay between online and offline cultures, and between technology and society.

Putting Family First William J. Doherty, Barbara Carlson, 2002-08-02 The founders of a lauded family advocacy organization present a guide for reclaiming family life, even in the most hectic households. In the past twenty years, children's free time has declined by twelve hours a week, time spent on structured sports activities has doubled, family dinners are down by a third, and the number of families taking vacations together has decreased by 28 percent. When William J. Doherty and Barbara Z. Carlson observed this trend in their own families and community, they took action and founded Family Life First, an organization committed to helping parents reclaim family time. Doherty and Carlson offer realistic ways to regain valuable family connections and embark on more balanced, meaningful relationships at home. Drawing on their years of hands-on experience, they share tips for time-crunched parents on how to: --get everyone to sit down for family meals --make bedtime a meaningful end to the day --plan family outings and vacations --make time for your marriage More than just a time-management manual, this book delves into the issues that lie at the heart of all family-related choices, revealing innovative ways to address scheduling conflicts, competitiveness, and the many other situations that cause daily angst. Offering a new perspective on a fraying institution, *Putting Family First* restores a sense of fulfillment, fun, and security to the family once again.
