Absinthe, Sip of Seduction Betina Wittels, Robert Hermes, 2008 Absinthe is not a relic of the past; there is a vibrant and devoted contemporary scene focused exclusively around the notorious Green Fairy. Indeed, the liquor's lore piques the interest of many: Does the drink drive one to madness? Does it serve as a gateway to boundless creativity? Which is the best method for enjoying the drink-set aflame or chilled with ice and sugar? How can I get my hands on all of the beguiling absinthe antiques? Answering these burning questions, authors Betina Wittels, Robert Hermes, and T. A. Breau, all astute absinthe connoisseurs, have updated their wildly successful book with an expanded historical section, new absinthe reviews to tantalize imbibers, sidebars peeking into various absinthe subcultures, stunning new imagery from both past and present, and much more.

For those looking to begin their absinthe journey or for those who've been on the path for some time, this book is a must for those who fancy all things absinthe.

The Art of Discrimination Ralph Cohen, 2021-12-29 First published in 1964, *The Art of Discrimination* is a study in the relation between critical theory and practice, taking as its test-case James Thomson's *The Seasons*, the poem which was, according to Johnson, of a new kind. Professor Cohen explores the different applications of criticism from 1750 to 1950, analysing specific interpretations of the poem that altered, contradicted or supported poetic theory. In doing so, he introduces new techniques to supplement traditional critical commentary: illustrations are treated as interpretations and critical language is related to non-literary as well as literary information. In treating the history of critical interpretation, the reprinting of editions and past interpretations are considered along with contemporary statements as necessary to define a literary period. The book offers alternatives to theories of organicism and to those of the arbitrariness of literary history by defining the kinds of continuities that exist in criticism. As analysis of criticism, it studies how men think about literature, the extent to which such thinking resists systematization and those elements in it which can be controlled and organized and transmitted. The book will appeal to students of literature and critical theory.
