Skates Made of Bone B.A. Thurber,2020-02-20 Ice skates made from animal bones were used in Europe for millennia before metal-bladed skates were invented. Archaeological sites have yielded thousands of examples, some of them dating to the Bronze Age. They are often mentioned in popular books on the Vikings and sometimes appear in children's literature. Even after metal skates became the norm, people in rural areas continued to use bone skates into the early 1970s. Today, bone skates help scientists and re-enactors understand migrations and interactions among ancient peoples. This book explains how to make and use them and chronicles their history, from their likely invention in the Eurasian steppes to their disappearance in the modern era.

Skateboarding and Femininity Dani Abulhawa,2020-08-27 Skateboarding and Femininity explores and highlights the value of femininity both within skateboarding and wider culture. This book examines skateboarding's relationship to gender politics through a consideration of the personal politics connected to individual skateboarders, the social-spatial arenas in which skateboarding takes place, and by understanding the performance of tricks and symbolic movements as part of gender-based power dynamics. Dani Abulhawa analyses the discursive frameworks connected to skateboarding philanthropic projects and how these operate through gendered tropes. Through the author's work with skateboarding charity SkatePal, this book offers an alternative way of recognising the value of skateboarding philanthropy projects, proposing a move toward a more open and explorative somatic practice perspective.

Chicago Rink Rats: The Roller Capital in Its Heyday Tom Russo ,2017 By 1950, roller skating had emerged as the number-one participatory sport in America. Ironically, the war years launched the Golden Age of Roller Skating. Soldiers serving overseas pleaded for skates along with their usual requests for cigarettes and letters from home. Stateside, skating uplifted morale and kept war factory workers exercising. By the end of the decade, five thousand rinks operated across the country. Its epicenter: Chicago! And no one was left behind! The Blink Bats, a group of Braille Center skaters, held their own at the huge Broadway Armory rink. Meanwhile, the Swank drew South Side crowds to its knee-action floor and stocked jukebox. Eighteen celebrated rinks are now gone, but rinks that remain honor the traditions of the sport's glory years. Author Tom Russo scoured newspaper archives and interviewed skaters of the roller capital's heyday to reveal the enduring legacy of Chicago's rink rats.

Skateboarding, Power and Change Indigo Willing,Anthony Pappalardo,2023-06-02 This book explores how cultural, social and political change happens through a unique analysis of the 'ethical turn' in skateboarding today. Insights shared by key change-makers and industry insiders cover themes including First Nations, Black and People of Color, skater-run creative innovations, anti-colonialism, anti-racism initiatives, and a growing focus on equity and empowering skaters historically discriminated against due to gender and/or sexuality. These dynamic changes are also connected to conceptual and theoretical frameworks from skate research, journalism, and sociology. This is a must-read for anyone interested in subcultures and social change.

Hawk Tony Hawk,Sean Mortimer,2010-09-21 For Tony Hawk, it wasn't enough to skate for two decades, to invent more than eighty tricks, and to win more than twice as many professional contests as any other skater.It wasn't enough to knock himself unconscious more than ten times, fracture several ribs, break his elbow, knock out his teeth twice, compress the vertebrae in his back, pop his bursa sack, get more than fifty stitches laced into his shins, rip apart the cartilage in his knee, bruise his tailbone, sprain his ankles, and tear his ligaments too many times to count.No.He had to land the 900. And after thirteen years of failed attempts, he nailed it. It had never been done before. Growing up in Sierra Mesa, California, Tony was a hyperactive demon child with an I44 IQ. He threw tantrums, terrorized the nanny until she quit, exploded with rage whenever he lost a game; this was a kid who was expelled from preschool. When his brother, Steve, gave him a blue plastic hand-me-down skateboard and his father built a skate ramp in the driveway, Tony finally found his outlet--while skating, he could be as hard on himself as he was on everyone around him. But it wasn't an easy ride to the top of the skating game. Fellow skaters mocked his skating style and dubbed him a circus skater. He was so skinny he had to wear elbow pads on his knees, and so light he had to ollie just to catch air off a ramp. He was so desperate to be accepted by young skating legends like Steve Caballero, Mike McGill, and Christian Hosoi that he ate gum from between Steve's toes. But a few years of determination and hard work paid off in multiple professional wins, and the skaters who once had mocked him were now trying to learn his tricks. Tony had created a new style of skating. In Hawk Tony goes behind the

scenes of competitions, demos, and movies and shares the less glamorous demands of being a skateboarder--from skating on Italian TV wearing see-through plastic shorts to doing a demo in Brazil after throwing up for five days straight from food poisoning. He's dealt with teammates who lit themselves and other subjects on fire, driving down a freeway as the dashboard of their van burned. He's gone through the unpredictable ride of the skateboard industry during which, in the span of a few years, his annual income shrank to what he had made in a single month and then rebounded into seven figures. But Tony's greatest difficulty was dealing with the loss of his number one fan and supporter--his dad, Frank Hawk. With brutal honesty, Tony recalls the stories of love, loss, bad hairdos, embarrassing '80s clothes, and his determination that had shaped his life. As he takes a look back at his experiences with the skateboarding legends of the '70s, '80s, and '90s, including Stacy Peralta, Eddie Elguera, Lance Mountain, Mark Gonzalez, Bob Burnquist, and Colin McKay, he tells the real history of skateboarding--and also what the future has in store for the sport and for him.

Skating on Air Kelli Lawrence,2014-01-10 Of all winter sports, none is so widely watched and commented upon by the media as figure skating, which is often considered the Winter Olympics' centerpiece. This critical text examines the ways in which media attention has gradually altered and affected the sport, from the early appearances of Sonja Henie, to skating's gradual audience growth via television, and to the ramifications of the scandals in the 1994 and 2002 Olympics. The topic is illuminated by more than 30 interviews with commentators, skaters, producers, directors and others. In addition to numerous photos, illustrations show the compulsory figures for which "figure skating" got its name, as well as a sample of the charted-out "camera blocking" for TV directors. Appendices include collected anecdotes from early broadcasting experiences; a profile of broadcaster Jim McKay; and commentary from Carol Heiss on her 1961 musical *Snow White and the Three Stooges*.

Skate Farm Barzak,2009 A secret government agency wages war with Ali Baba and The Dirty Deeds in Southern California, and when a troubled teen, a pro skater, an overachiever, and a malcontent get ahold of skateboards with mysterious abilities, they embark on a mission to destroy evil.

Beside him the entire time was his coach, Don Laws. *Don Laws: The Life of an Olympic Figure Skating Coach* recounts Don's youth, from his childhood in Washington, D.C. to his Junior Men's Figure Skating Championship to his triumphs as a coach on the international stage.
