Finding the Edge: My Life on the Ice Karen Chen, 2017-11-28 Figure skating icon and U.S. National Champion Karen Chen tells the amazing story of her rise to the top, featuring never-before-seen photos and behind-the-scenes details from her journey on and off the ice! At seventeen years old, Karen Chen has already achieved what some girls only dream of—and yet it's only the beginning for this incredibly talented athlete. The daughter of Taiwanese immigrants, Karen began to figure skate at just five years old. Ten years and many grueling training sessions later, she broke out at the 2015 US Championships with a bronze medal. This was after sustaining a nearly career-ending ankle fracture a year earlier. In 2017, Karen became the US National Champion, winning gold in two programs and receiving the highest score ever recorded for the short program at the US National level. Now for the first time, Karen shares the story of how she got where she is today—and where she's going next. Karen has already overcome astounding obstacles, and her grit, determination, and positive attitude have made her future truly limitless. In *Finding the Edge*, she shares, in her own words, what it's like to be Karen Chen—and what it takes to achieve the impossible. Features a foreword from Kristi Yamaguchi, the Olympic champion, two-time World champion, and U.S. champion.

The Art of Skating Irving Brokaw, 1910

The Evolution of Skating Charles Edwards, Khannie Butler, Lisa Goodheart, Jeff Hart, Israel Strong, Terry Davis, Amirah Palmer, 2021-04-27 *The Evolution of Skating* is a collaboration, a journey of sorts, detailing the skate culture. It is the Evolution of the skater and how they have grown in passion and skill over the years. Featuring the stories of Skaters legendary and new, Deejays, Event Coordinators, Videographers, Skate Critics, rink owners national and international. Each chapter will provide a sneak peek inside the life of the individual and the culture, this gritty, fun, family friendly, sometimes underground but well-known phenomenon that has stood the test of time. A family pastime that has been passed down through the ages, irrespective of race, religion, social or financial status. It's an art that can be enjoyed as a family or alone. It's a stress reliever, fun, exercise, a sport, entertainment and even a life saver to some. The concept of this book is one of the many loves that had been stagnant in my heart and finally came to fruition with the help of my co-authors. I wanted to provide a platform for each person to tell their journey of what skating has meant to them, with the hopes to inspire, invite encourage, enlighten and brighten the day of each person who turns the page of this book or listens to their stories via the audio book. The history of roller skating began back in 1735 when the first roller skate was invented by John Joseph Merlin, from Belgium. He debuted his new wheeled shoes in London at a party, but crashed into a mirror, embarrassed but not deterred, he went back to the drawing board. In Paris the year 1819, Mr. M. Petitbled, a French inventor patented a three-wheeled inline skate model and in 1863 Mr. James Plimpton designed quad skates according to the National Museum of Roller Skating and this, revolutionized roller skating. Plimpton went on to establish the New York Roller Skating Association and he opened his first skating rink in 1866 at a Rhode Island resort, capitalizing on the social aspect of roller skating, he provided a place for the then young Victorian couples to meet up without being chaperoned, brilliant and wise I say. Roller skating has also been touted as a valuable form of exercise by many health officials. It increases the output of muscular energy, stimulates your circulation which increases perspiration all the while you can have fun whilst listening to music. Back in the early days, people would skate to a violin player, flutist, organist and the like. Deejays were not introduced to rinks for quite some time and even then, they started playing tapes from radio players not the traditional Deejays we are accustomed to spinning on turntables in this day and age. The creation and direction of roller skating has and continues to evolve. It is an ever-changing culture full of history, soul and artistry. Keep your eyes open to behold what is to come, the crafty and inventive.

Lake Placid Figure Skating Christie Sausa, 2012-08-07 Figure skating has always had an important home in Lake Placid. Early on, the Sno Birds popularized this summer retreat, and Melville and Godfrey Dewey won the campaign for the 1932 Winter Olympics. The Skating Club of Lake Placid was formed, and after 1932, famous skaters trained here with legendary coach Gus Lussi. When Lake Placid again hosted the Olympics in 1980, skating dominated, with state-of-the-art facilities that have continued to be used by stars like Dorothy Hamill and Sarah Hughes, and helped give rise to Scott Hamilton's Stars on Ice. For more than one hundred years, the Lake Placid community has worked together to support figure skating and skaters in this quiet Adirondack village. Local expert Christie Sausa tells this exciting story.

Inside Edge: A Revealing Journey Into the Secret World of Figure Skating Christine Brennan, 2022-02-01 Figure skating is the most beautiful and mysterious of all sports. When the skaters are on the ice, every twitch of a muscle and every slip of a skate blade is visible for the world to see. In *Inside Edge*, Christine Brennan chronicles—for the first time—a season on the skating circuit, intimately portraying the lives, on and off the ice, of the sport's current and upcoming stars. Woven into the narrative are stories of figure skating luminaries—including Peggy Fleming, Janet Lynn, Katarina Witt, Brian Boitano, Scott Hamilton, Kristi Yamaguchi, Nancy Kerrigan, Oksana Baiul, Michelle Kwan, Rudy Galindo, and Tara Lipinski. Revealing the backstage conflicts high-profile figure skaters face, and the ambition that drives them, Brennan also tells the stories of their families, of improbable rises to the top, and of wasted talents. If skaters are perfect, they can become international heroes. But if they fall, if they miss a three-revolution jump on a quarter-inch blade of steel, the despair is theirs alone. This is their life on the edge, where decades of training culminate in little more than four crucial minutes on the ice. There is no other sport like it. There is no other story like theirs.

Skateboarding Between Subculture and the Olympics Veith Kilberth, Jürgen Schwier, 2019-08-31 The inclusion of skateboarding as an official discipline in the 2020 Olympic Games marks the pinnacle of a decades-long process of commercialization and sportification. Is the tightly-knit subculture in danger of losing its very identity? This anthology creates an analytical framework for understanding the fundamental conflict between skateboarding's core ethos and the tenets of institutionalized sports. Eleven acclaimed international authors from the fields of architecture, philosophy, sociology, sports sciences and gender studies provide a unique perspective on the manifold manifestations of skateboarding previously ignored by academic discourse.

Edge of Glory Christine Brennan,1999 Respected sports journalist Christine Brennan tells the riveting tales of the world's best figure skaters during the most intense year of their young lives. The story opens with the 1997 U.S. national championships, when Michelle Kwan, the overwhelming favorite for the 1998 Olympic gold medal, leaves the rink in tears. Enter Tara Lipinski, a seventy-five-pound jumping machine -- soon to become the youngest world skating champion.Chronicling the year leading up to and including the 1998 Olympic Games, *Edge of Glory* offers portraits of the famous and infamous, the hopefuls and has-beens -- Nancy Kerrigan, Oksana Baiul, Tonya Harding, Elvis Stojko, Todd Eldredge, Ilia Kulik, and many more. *Edge of Glory* also takes the reader behind the scenes of the sport: the aggressive sports agents, the career-fostering coaches, the eager reporters, the choreographers, and the attentive, stern judges. Ultimately, *Edge of Glory* is about the athletes themselves. What drives these skaters to a profession that promises retirement at such a young age? How do they survive in a sport where one fall decides it all? What do they fear? And, most importantly, who will win, and who will lose?

Michelle Kwan Rachel A. Koestler-Grack,2009 From the day she laced up her first pair of skates, Michelle Kwan knew she belonged on the ice. When she was 7 years old, she vowed that she would one day be an Olympic skater, and went straight to work on making her dream come true. By the time she was 12, she was already competing with top skaters from around the world. At age 15, Kwan won her first national and world titles. And in 1998, she made skating history at the U.S. Championships when she received 15 perfect scores for presentation in her long and short programs, the most perfect scores ever for a female skater. Michelle Kwan is the story of a gifted young athlete whose determination and focus have enabled her to become the most decorated skater in U.S. history. Though the only medal ever to elude her was the Olympic gold, Kwan remains a true champion, and she has shown just as much grace in her setbacks as she has on the ice. Her positive attitude has earned her the reputation of sports' ultimate class act, and it is sure to inspire readers of this engaging new volume.

Frozen in Time Nikki Nichols,2008-11-25 Read the deeply moving and impeccably researched account of the events surrounding the plane crash that killed the 1961 US figure skating team. Only once has the United States lost an entire national team to disaster: 1961, when all eighteen members of the US figure skating team died in the crash of Sabena Flight 548. Sixteen family members, coaches, and friends died with them. *Frozen in Time* takes you, for the first time ever, inside the lives of these skaters, revealing their friendships and romances, rivalries, sacrifices, and triumphs. The skaters you'll read about were the top finishers at the 1961 US National Championships. Winning a medal at Nationals earned each skater passage aboard Sabena Flight 548, a state-of-the-art Boeing 707. The plane would take them to Brussels, where they planned to board a new plane for Prague, host city of the 1961 World Figure Skating Championships. Some of the skaters brought parents or older siblings as chaperones. Coaches and judges also boarded the plane, and some of them brought spouses and children. When the plane crashed in a Belgian field on February 15, entire families were shattered, and the American skating program suffered a staggering blow that threatened to cripple it for many years. *Frozen in Time* takes you on a journey to experience the highly competitive US National and North American championships of that fateful year. This story takes place in the final days of what now seems like an antique era, when the world was black and white, when figure skating was not a well-publicized sport. The book portrays strong, accomplished women leading unconventional lives on a national stage in a conservative era. The story of the Owen and Westerfeld women--along with all the dedicated athletes--transcends the world of sport and touches the human heart. It is one of the most powerful and tragic stories in the history of American sports. ". . . a reverential tribute. Skating enthusiasts will want to add this to the shelf." --Publishers Weekly
