Do We Dream Under the Same Sky Rirkrit Tiravanija,2015 Published in conjunction with the eponymous installation at Art Basel 2015, DO WE DREAM UNDER THE SAME SKY is an extension of the collaboration between artist Rirkrit Tiravanija, architects Nikolaus Hirsch and Michel Müller, and chef Antto Melasniemi. Designed by Hirsch and Müller as an outdoor shelter, the installation, made of modular bamboo and steel, welcomes visitors to engage in discussions while participating in the convivial atmosphere of shared food. This supplemental publication includes interviews, texts, images, and poems that illuminate the installation's properties of self-sufficiency and how it was conceived as a new component of Tiravanija and Kamin Lertchaiprasert's ongoing project the land, a self-sustaining artistic community near Chiang Mai, Thailand. At the end of the festival, the structure will be transported to Thailand and will be the first building block of a new workshop on the land. In a continuation of conversations among artists surrounding the land, this book explores urbanization in a post-rural condition, the act of building as a collaborative process, and land as a concept that can exist outside of ownership. A discussion with Hirsch, Tiravanija, Melasniemi, and Jörn Schafaff reflects on the way in which the installation builds on the land's objectives relating to improvisation, collaboration, and the questioning of institutional structures. Also featured in the book are recipes developed by Melasniemi on the occasion of this installation-as-workshop, where the public is invited to participate in the cooking process. DO WE DREAM UNDER THE SAME SKY is a project by Rirkrit Tiravanija, Nikolaus Hirsch, Antto Melasniemi, Michel Müller with Angkrit Ajchariyasophon, Sophie Aschauer, Uthit Atimana, Marc Bättig, Klaus Bollinger, Felix Broecker, Carlotta Brucker, Leonardo Bu]rgi, Letizia Calori, Jessica Coates, Claireban Coffey, Nico Dockx, Raphael Fellmer, Michael Gass, Philipp Gasser, Matthias Görlich, Manfred Grohmann, Raphaela Grolimund, Philipp Gru]newald, Somyot Hananuntasuk, Carl Michael von Hausswolff, Karl Holmqvist, Pierre Huyghe, Duangporn Injan, Dueanthalay Injan, Kosit Juntaratip, Dong Kirativongkamchon, Komol Kongjarern, April Lamm, Paphonsak Laor, Kamin Lertchaiprasert, Daniela Leykam, Suwan Limanee, Glorimarta Linares, Kim Boris Löffler, Hector Madera, Therdsak Mahawongsanant, Violette Maillard, Chus Martinez, Philipp Misselwitz, Kritya Notanon, Tepparit Nuntasakun, Hans Ulrich Obrist, Tommaso Pagnacco, Intha Pankeaw, Philippe Parreno, Robert Peters, Thaiwijit Poengkasemsomboon, Tobias Rehberger, Anastasia Remes, Marion Ritzmann, François Roche, Natalia Rolon, Jirasak Saengpolsith, Heikki Salonen, Jörn Schafaff, Ilka Schön, Thasnai Sethaseree, Hanes Sturzenegger, Superflex, Molly Surno, Achim Vogelsberg, Emmi Wegener, Sasiwimon Wongjarin, Eveline Wüthrich Contributors Nikolaus Hirsch, Karl Holmqvist, April Lamm, Antto Melasniemi, Philipp Misselwitz, Michel Müller, Jörn Schafaff, Rirkrit Tiravanija

A Primer on Corporate Governance: Jean Chen,2015-06-30 Since its opening up and economic reforms in 1979, China has undergone tremendous economic growth and social development, with a ten percent real gross domestic product growth per year on average through 2013. In spite of such an accomplishment, the current economic growth model in China, which is mainly triggered by the export-led policy and the huge government investment, has been challenged by potential external and internal risks, which do not support sustainable economic growth in the long run. In this book, the author comprehensively reviews the corporate governance practices in China, identifying the major problems within such practices. It is contended that these problems have been seen as the major challenges facing the Chinese economy, and further, that the current weakness of corporate governance practices in China can be ascribed, to a great extent, to the incompleteness and weakness of law enforcement.

Ad Hoc Networks Telecommunications and Game Theory Malek Benslama,Mohamed Lamine Boucenna,Hadj Batatia,2015-01-05 Random SALOHA and CSMA protocols that are used to access MAC in ad hoc networks are very small compared to the multiple and spontaneous use of the transmission channel. So they have low immunity to the problems of packet collisions. Indeed, the transmission time is the critical factor in the operation of such networks. The simulations demonstrate the positive impact of erasure codes on the throughput of the transmission in ad hoc networks. However, the network still suffers from the intermittency and volatility of its efficiency throughout its operation, and it switches quickly to the saturation zone. In this context, game theory has demonstrated his ability to lead the network to a more efficient equilibrium. This, we were led to propose our model code set that formalizes the behavior of nodes during transmission within SALOHA networks and CSMA respectively.

A Profile of the Performing Arts Industry David H. Gaylin, 2015-10-07 Attending a live concert or theatrical performance can be a thrilling experience. At their best, the performing arts represent the height of human creativity and expression. But the presentation on stage, whether it is Shakespeare, Beethoven, or The Lion King, depends on a business backstage. This book provides an overview of both the product on stage and the industry that makes it possible. While the industry's product is unique—with unique supply and demand characteristics—it is still an industry, with supply inputs, organization structures, competitors, business models, value chains, and customers. We will examine each of the major segments (Broadway, regional theater, orchestra, opera, and ballet) along these business dimensions. This book will give lovers of the performing arts an understanding of the business realities that make live performances possible. Managers, board members, and performers will be better equipped to take on the strategic challenges their companies face. People contemplating any of these roles will have a better idea of what to expect. Business analysts and students of strategy will discover how economic frameworks apply in this unique setting where culture and commerce converge.

This book focuses on topics and skills that leaders of non-profit and faith-based organizations, in recent research conducted by the authors, have indicated are needed to achieve success as defined by their organization. Each chapter is written by an expert on the subject dealt with in the chapter and focuses on the core concepts, skills, and techniques that, if mastered, can produce significant positive results. Sixteen topics critical to managers of non-profit or faith-based organizations are covered in the book and grouped into four sections: living the mission, making good decisions, getting things done, and developing the team. This book will be especially valuable to leaders of non-profit and faith-based organizations who have little spare time and want to focus their professional development on areas defined by their peers as critical for success.
