Tanzania Safari Guide Philip Briggs,Chris McIntyre,2013 Tanzania is one of Africa's greatest safari destinations, home to the legendary Serengeti National Park, Ngorongoro Crater and Mount Kilimanjaro as well as the 'spice island' of Zanzibar and lesser known gems such as the vast Selous Game Reserve and habituated chimpanzees of Gombe Stream. This fully revised edition of the guide covers every accessible national park and reserve, as well as many top non-wildlife attractions and the best accommodation in every price bracket. It includes in-depth coverage of wildlife and natural history, background information on the Maasai and other tribes, archaeological points of interest such as rock art and mediaeval Swahili ruins and an introduction to the Swahili language.

Ski Snowboard Europe Charles Leocha,2007-10 Ski Europe takes skiers step by step through planning the winter vacation of their dreams in the Alps in Austria, Italy, Switzerland or France as well as major resorts in Spain and Andorra. Just like here in the United States or Canada, every European resort has its quirks and specialties, notes Leocha. Seasoned skiers know that some resorts are better for singles, others better for families. Some offer cozy chalets, others feature modern hotels right on the slopes. And while one resort may be heaven for beginning skiers it may be boring for the expert. Ski Europe organizes all the necessary information to make intelligent choices and provides the phone numbers to make reservations and plans. Over more than a decade Ski Europe has become known for its no-holds-barred, brutally honest reports on reality at ski resorts. Ski Europe takes no advertising, has no ax to grind, and, like Ski America and Canada, is written by Leocha together with an international team of prize-winning ski and snowboard journalists.

Memoirs of a Geriatric Ski Bum Stanley Hirsch,2011-09-02 This lighthearted memoir, reflecting the author's 39 years of skiing, is meant to entertain, educate, and above all, elicit the spirit of staying young. His learning experiences are related with humor, insight, and deeply felt observations. Not primarily a book of instruction, the techniques he has learned and passed on to others are clearly described to help the senior skier. Notables in the world of skiing vividly described include Jean-

Claude Killy, Alberto Tomba, Ingemar Stenmark and Pepi Gramshammer. Adventure, history, joy and tragedy are intertwined in narratives concerning such diverse individuals as Albert Einstein, Sonny Bono and Michael Kennedy. Descriptions of many of the slopes and runs in the 152 areas Hirsch has skied include tales of the sites and sounds of the Winter Olympics at world famous resorts. Triumphant adventures are woven into stories of celestial sightings, off-piste skullduggery, and confessions of some horrendous, even life-threatening mistakes, frequently providing additional romantic, fascinating and exhilarating experiences.
