More Than a Body Lexie Kite,Lindsay Kite,2020-12-29 Drs. Lindsay and Lexie Kite know firsthand how hard filtering out media influence is when it comes to self-image. Both struggled as young women to overcome the expectations of body size and shape, but were able to learn to love, appreciate, and reclaim their own bodies, eventually earning their PhDs in body image resilience. The twin sisters founded the nonprofit Beauty Redefined and have made it their mission to help other women see themselves without societal expectations distorting their self-perception. *More than a Body* is a self-help book focused on going beyond body positivity, showing how a mindset focused on appearance sets women up for insecurities and self-judgement. In this book, they offer an action plan for readers to combat that mindset, and instead learn how the body can be an instrument, not an ornament, with practical, actionable steps to take when consuming media, exercising, practicing self-reflection and self-compassion, and finding a purpose in life.

My Blogging Secrets Amber McNaught,2017-03-26 Want to make a living simply by writing about your life? Here's how one pro-blogger does it... On a sunny day in April, journalist-turned-PR Amber McNaught walked out of her well-paid office job, and started a blog. Ten years, multiple blogs, 42 million pageviews, one kidney transplant (her husband's), and a whole lot of mistakes later, that blog is now a full-time business, which means that Amber, who started documenting her life in a green velvet diary when she was 11 years old, now gets paid to continue documenting her life - but on the internet. (Yes, she still has to pinch herself every morning to make sure she's not dreaming.) So, how did she do it? How did she make writing a diary into a

full-time job? You're about to find out. In 'My Blogging Secrets', Amber shares everything she's learned about blogging, from how to come up with an idea for your blog, to how to persuade people to read it, and - most importantly - how to actually make money from writing about your life.

Suntanning in 20th Century America Kerry Segrave,2005-08-31 The suntan experienced a profound change in the last century. Considered a mark of the lower class for hundreds of years, tanning became a fad in the early 1920s and remains popular today. The tan, though, was much more than a matter of fashion, enjoying at first a boost from the medical establishment. Opinions ranging from hard science to quackery lauded the suntan as something of a panacea. Near the end of World War II, however, researchers increasingly warned against the hazards of overexposure to the sun, and a large new industry developed--sunscreen. Americans' current paradoxical obsession with the tan developed almost entirely from the conflicting rays of twentieth century thought. This history examines the twentieth century suntan as a social and scientific phenomenon. Beginning with the years 1900-1920, it debunks the myth that changing attitudes toward the tan sprang largely from the world of fashion. Initial pro-tanning medical hype, emerging negative opinions of sunbathing near the middle of the century, the development of sunscreens, the debate over sunscreen efficacy, and the sunless tan are all covered here. Numerous pictures demonstrate changing perceptions of the suntan, displaying advertisements for products that promoted, prevented or healed tans.

Self Tan Secrets Thermalabs Library,2014-12-01 In the past century, people consider having a dark skin is unattractive and not beautiful. Women, especially those who belong on higher societies take care of their skin with long sleeve suits, umbrellas, and large hats. They perceive and associate having a dark complexion to poverty and slavery because of forced labor outdoors and over exposure under the sun; while having a pale complexion is the perfect example of beauty. This perception of being white is beautiful started to fade in 1920s. In this guide we go through everything that has to do with Self Tanning to keep you, the reader, informed and updated about everything this has to offer.

The French Beauty Solution Mathilde Thomas, 2015-07-14 A New York Times bestseller! Cofounder of the international beauty company Caudalíe shares the simple, natural, time-tested beauty secrets she learned growing up in France that any woman can use to look younger, healthier, and more radiant without harsh products or drastic procedures. When Mathilde Thomas moved from her native France to the United States to expand her skin-care company, Caudalíe, she wanted to find out what American women wanted from their beauty routines. She interviewed thousands of women and was struck by how different the French and American approaches to beauty were. American women are all about the quick fix—the elusive product or procedure that will instantly solve a nagging beauty problem, even if it hurts, is wildly expensive, or is damaging in the long term. The French, by contrast, approach beauty as an essential and pleasurable part of the day, a lifelong and active investment that makes you look and feel good. Mathilde used these insights to turn Caudalíe into one of America's top beauty brands. Drawing on her company's twenty years of scientific skin-care expertise backed by the research of doctors and dermatologists—as well as the beauty secrets she learned growing up on a vineyard in Bordeaux—The French Beauty Solution covers everything from how to use natural ingredients such as oil and honey to wash your face; what foods to eat for healthier hair, skin, and nails; and the amazing properties of grapes and grapeseed oil. She also introduces an easy three-day grape cleanse that European aristocrats have been using to detox for hundreds of years. Blending stories, science, DIY recipes, and tons of savoir faire, The French Beauty Solution is the last beauty regimen you'll ever need.

North American Aboriginal hide tanning Morgan Baillargeon, 2010-01-01 North American Aboriginal Hide Tanning examines the methodology, tools and spiritual aspects of what was once almost a lost art. Over the course of research that has spanned some 30 years, the author has interviewed more than 40 tanners from the Northwest Territories to Oklahoma. The result is a volume that includes chapters on 15 different tanners and their recipes, practical information on tools and techniques, as well as helpful tips for those interested in trying this traditional process for themselves. Although not intended as a complete how-to manual, this book is certain to whet the reader's appetite for further investigation.

The New Science of Perfect Skin Daniel Yarosh, PH.D., 2008-05-06 Finally—the ultimate beauty bible that gives you everything you need to navigate the dizzying array of claims made by cosmetic companies, and to create your own personalized regimen for perfect skin. We all want glowing, radiant skin no matter what our age, but with all the skin-care options on the market today, it's easy to feel overwhelmed by choices. Do you really need a cleanser and a toner? Do designer brands from Hollywood doctors really work? Are antioxidants the next true anti-aging breakthrough, and is there a Botox-free way to make wrinkles actually disappear? And, most important, how can you know which products are really worth your money and your time? As a thirty-year veteran of the beauty world, with experience developing and testing products for brands like Estée Lauder and L'Oréal, Daniel Yarosh, Ph.D., understands your skin from the inside out. And he knows how to separate the help from the hype. Today there are plenty of true skin-care miracles that can deliver amazing results, and in *The New Science of Perfect Skin*, Yarosh gives you everything you need to identify and choose the best, most-effective products—without blowing your beauty budget. You will learn how to: Decode product labels and spot marketing hype Know which highly touted ingredients really work—and which don't Use the latest, proven innovations—including DNA repair—to see remarkable changes in just a few weeks' time Streamline your skin-care routine by using "smart" products that contain multiple active ingredients Avoid paying more for high-end brands when drugstore brands have bigger benefits Bringing a scientist's eye to the cosmetics industry, Yarosh delivers the inside scoop that will help you achieve flawless skin. No woman can afford to go to the drugstore, cosmetics counter, or spa without this eye-opening, must-have guide. This book is about the New Skin-Care Revolution. The good news is that today there are products that really work. The bad news is that there's never been more confusion and uncertainty about which products get results and which are a waste of money and time. Consumers are bombarded by enticing ads featuring models and celebrities with creamy, flawless skin; salesclerks spouting pseudoscience at cosmetics counters; and countless articles in women's magazines puffing up the Very Best New Thing each month. So how do you know what really works? I'm going to tell you. Because I understand skin-care products from the inside out, I can separate fact from myth, help from hype, and gems from junk and let you know what has been overpraised and overlooked. I'll be naming names and telling tales of

products that deliver and those that are little more than a puff of smoke and a funhouse mirror. I'll explain the true breakthroughs in today's skin-care science and the techniques that can truly rejuvenate skin. Ultimately, instead of succumbing to the "inevitable" aging process, you'll find yourself with a fresh, natural beauty that continues to unfold with time. So welcome to the New Skin-Care Revolution! Let's get started. —Daniel Yarosh, Ph.D., in *The New Science of Perfect Skin*
