**Kamishibai Man** Allen Say, 2005-10-24 The Kamishibai man used to ride his bicycle into town where he would tell stories to the children and sell them candy, but gradually, fewer and fewer children came running at the sound of his clappers. They were all watching their new televisions instead. Finally, only one boy remained, and he had no money for candy. Years later, the Kamishibai man and his wife made another batch of candy, and he pedaled into town to tell one more story—his own. When he comes out of the reverie of his memories, he looks around to see he is surrounded by familiar faces—the children he used to entertain have returned, all grown up and more eager than ever to listen to his delightful tales. Using two very different yet remarkable styles of art, Allen Say tells a tale within a tale, transporting readers seamlessly to the Japan of his memories.

**The Internet of Toys** Giovanna Mascheroni, Donell Holloway, 2019-02-21 The Internet of Toys (IoToys) is a developing market within our Internet of Things (IoT) ecosystem. This book examines the rise of internet-connected toys and aims to anticipate the opportunities and risks of IoToys before their widespread diffusion. Contributors to this volume each provide a critical analysis of the design, production, regulation, representation and consumption of internet-connected toys. In order to address the theoretical, methodological and policy questions that arise from the study of these new playthings, and contextualise the diverse opportunities and challenges that IoToys pose to educators, families and children themselves, the chapters engage with notions of mediatization, datafication, robotification, connected and post-digital play. This timely engagement with a key transformation in children's play will appeal to all readers interested in understanding the social uses and consequences of IoToys, and primarily to researchers and students in children and media, early childhood studies, media and communications, sociology, education, social psychology, law and design.

**Giving God the Worst of Me** Dana K. White, 2014-12-03 Dana K. White started ASlobComesClean.com in 2009 in a desperate attempt to get her home under control. She had no idea where her deslobification journey would lead, both in her home and in her spiritual life. This is the story of how God worked in her life to show her that He was more concerned with her heart than her home.

*Achtung-Panzer!* Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World

War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**The Department of Truth #9** James Tynion IV, 2021-05-26 Cole Turner has seen firsthand the horrifying ways collective belief shapes the world and how theories can manifest and take physical form—but what happens when those thought forms start to have thoughts—and desires—of their own? What truths about Tulpas lay at the heart of the Tibetan Book of the Dead?

Godzilla: Oblivion Joshua Fialkov, 2016-11-16 Dr. Eli Talbert has created a portal to another dimension—one where monsters rule supreme! An expedition begins into a world where hope has died and Godzilla is the unrivaled King of the Monsters. But what happens when a baby kaiju hitches a ride back to the original, monster-less dimension?

**Stan Winston's Realm of the Claw** Stan Winston, Francis Takenaga, 2006-10-03 When zookeeper Harrison Reed becomes plagued with strange, dream-like visions, he is forced to confront the unthinkable: that he and his brother are more than they seem. With enemies lurking in every corner and the allure of power corrupting at every turn, the truth must be discovered else his world... and his sanity... will be lost forever.

**Trakk** Stan Winston, Francis Takenaga, 2003-06 Trakk came into a world bathed in blood. He travels the scorched remains of the Earth to find the Helmet of Kyldran, rumored to hold the very balance between good and evil. But others -- some not of this world -- seek its awesome power as well, and will do anything to harness it. On this ruined planet, hope is the most precious gift of all, and a timeless warrior can only be saved by the subtleties of his own humanity.

Wacky Packages The Topps Company, 2015-01-01 Take a fun look back at Quacker Oats, Blisterine, and more classic packaging parodies—plus an interview with creator Art Spiegelman! Known affectionately among collectors as “Wacky Packs,” the Topps stickers that parodied well-known consumer brands were a phenomenon in the 1970s—even outselling the Topps Company’s baseball cards for a while. But few know that the genius behind it all was none other than Art Spiegelman—the Pulitzer Prize-winning graphic novelist who created Maus. This treasury includes an interview with Spiegelman about his early career and his decades-long relationship with the memorabilia company—as well as a colorful compendium that will bring back memories of such products as Plastered Peanuts, Jail-O, Weakies cereal, and many more. Illustrated by notable comics artists Kim Deitch, Bill Griffith, Jay Lynch, Norm Saunders, and more, this collection is a visual treat, a load of laughs, and a tribute to a beloved product that’s been delighting kids (and adults) for decades.
